INTRODUCTORY NOTE

The present publication is an expanded and updated version of the Provisional List of Institutions Engaged in Forestry and Forest Products Research published in 1982. FAO is indebted to the many contributors who supplied information that has made this publication possible.

In the compilation of this document, it has not been possible to present the addresses of parent organizations and their research centres and field stations consistently and uniformly in every case because of the many different ways in which the original information was supplied. Users are, therefore, requested to send any corrections and communicate any omissions, additions or other amendments to the Chief, Forestry Education, Employment and Institutions Branch, Forest Resources Division, Forestry Department, FAO, Via delle Terme di Caracalla, 00100 Rome, Italy, for future use.

It is hoped that the World List will facilitate contacts between research institutions and thus help to improve inter-institutional cooperation and exchange of information on research of common interest.

NOTE D'INTRODUCTION

Ce document constitue une version augmentée et mise à jour de la Liste provisoire des institutions s'occupant des recherches dans le domaine des forêts et des produits forestiers publiée en 1982. La FAO remercie les nombreuses personnes qui ont permis la préparation de ce document en fournissant les renseignements nécessaires.

Il n'a pas toujours été possible de présenter les adresses des organisations mères et de leurs centres de recherche et stations de terrain de façon uniforme du fait des différences dans la présentation des informations reçues. C'est pourquoi nous serions reconnaissants à tous ceux qui vont utiliser cette liste de bien vouloir transmettre les corrections, additions et autres modifications au Chef de la Sous-Division de l'enseignement, de l'emploi et des institutions forestiers, Division des ressources forestières, Département des forêts, FAO, Via delle Terme di Caracalla, 00100 Rome, Italie, afin qu'il en soit tenu compte dans la prochaine édition.

Nous souhaitons que cette Liste mondiale facilite les contacts entre les instituts de recherche et contribue ainsi à améliorer la coopération et l'échange d'informations entre eux sur les sujets d'intérêt commun.

NOTA INTRODUCTORIA

La presente publicación constituye una versión ampliada y actualizada de la Lista Provisional de Instituciones que Realizan Investigaciones sobre Bosques y sobre Productos Forestales publicada en 1982. La FAO agradece la contribución de tantas personas que, con las informaciones que han facilitado, han hecho posible esta publicación.

No ha sido siempre posible presentar las direcciones de las organizaciones patrocinadoras y de sus centros de investigación y estaciones de campo de manera uniforme en cada caso, debido a las diversas formas en que se han dado las informaciones. Por eso quedaríamos muy reconocidos a todos los que usan la lista si tuvieran a bien transmitir las correcciones, omisiones, ampliaciones y otras modificaciones al Jefe de la Subdirección de Enseñanza, Empleo e Instituciones Forestales, Dirección de Recursos Forestales, Departamento de Montes, FAO, Via delle Terme di Caracalla, 00100 Rome, Italia, para incorporarlas en una publicación futura.

Se espera que la Lista Mundial facilitará los contactos entre los institutos de investigación y contribuirá de esta manera a promover la cooperación inter-institucional y el intercambio de informaciones sobre cuestiones de investigación de interés común.
