**Qualified female applicants and qualified nationals of non-and under-represented member countries are encouraged to apply.  
Persons with disabilities are equally encouraged to apply.  
All applications will be treated with the strictest confidence.**

**The incumbent may be re-assigned to different activities and/or duty stations depending on the evolving needs of the Organization.**

---

### **Organizational Setting**

The Regional Office for RNE is responsible for leading FAO's response to regional priorities for food security, agriculture and rural development through the identification, planning, and implementation of FAO's priority activities in the region. It ensures a multidisciplinary approach to programmes, identifies priority areas of action for the Organization in the Region and, in collaboration with departments and divisions at Headquarters, develops, promotes and oversees FAO's strategic response to regional priorities. RNE also advises on the incorporation of regional priorities into the Organization's Programme of Work and Budget and implements approved programmes and projects in the region, monitors the level of programme implementation and draws attention to problems and deficiencies. RNE develops and maintains relations with region-wide institutions including the Regional Economic Integration Organizations (REIOs).

The Regional Office supports regional policy dialogue on food security, agriculture and rural development issues, facilitates the emergence of regional partnerships, and supports capacity development and resource mobilization for food security, agriculture and rural development in the region.

The post is located in Cairo, Egypt.

### **Reporting Lines**

The Agro-Industry Officer (Agribusiness and Value Chains) reports to the Delivery Manager of the RNE Regional Initiative for Building Resilience for Food Security and Nutrition, under the overall supervision of the Assistant Director General/Regional Representative (ADG/RR).

### **Technical Focus**

Supports the provision of technical assistance and strategic guidance to member countries and national institutions on agro-industry development, market linkages and value chain development, agribusiness, and food loss and waste reduction.

The Agro-Industry Officer (Agribusiness and Value Chains) works within the framework of the RNE Regional Initiatives. The incumbent works in close collaboration with the Agro-food Industries Group, Nutrition and Food Systems (ESN) in FAO Headquarters.

### **Key Results**

Comprehensive technical and policy expertise to support the planning, development and implementation of RNE regional initiatives, departmental and division programmes, projects, products and services in accordance with regional, departmental, division objectives and FAO Strategic Objectives.

### **Key Functions**

- Plans and leads components of multi-disciplinary teams, leads and/or participates on Organization-wide, cross-Departmental committees, project teams, and working groups and/or provides specialized expertise on technical networks and/or international technical policy and/or international technical policy and standard setting bodies
- Develops technical, analytical, monitoring and reporting frameworks, and related methodologies, tools, systems and databases etc. to support the planning, implementation/delivery and monitoring of programmes of work, projects, products and/or services
- Designs and conducts research, data collection, validation, analysis and/or reporting activities to support the development of technical standards, international instruments, innovative approaches and strategies, new tools, technologies, technical reports/publications, and/or policy proposals as well as the provision of technical/policy/ specialist/advice and expertise
- Responds to country requests for technical and policy assistance, provides technical advice, assistance and solutions to Decentralized Offices and provides technical backstopping to field projects
- Collaborates in, provides technical backstopping to and ensures the quality/effectiveness of capacity development and knowledge sharing activities within member countries such as policy support, organizational development and individual learning events including preparation of related information, learning materials, on-line tools
- Promotes international cooperation/advocates best practices, increased policy dialogue and provides technical expertise at international/intergovernmental meetings
- Participates in resource mobilization activities in accordance with the FAO Corporate strategy.

## Specific Functions

- In the context of a member-country endorsed “ Strategic Framework for the Reduction of Food Losses and Waste in the Near East and North Africa”, engages in strategy development and programme/action plan formulation with member countries
- Serves as focal point within RNE for agro-industry development, value chain development, and food losses and waste reduction, and provides assistance and guidance to technical officers, including those based in other Regional or Sub-regional Offices and FAO Representations
- Contributes to field programme development on agro-industry and value chain development from project idea through formulation, approval and funding
- Supports knowledge exchange activities and networking, builds partnerships within RNE countries under the umbrella of the RNE’s food loss and waste programme of work, and the Global Initiative on Food Loss and Waste Reduction.

---
