Gender equality (equality between women and men): This refers to the equal rights, responsibilities and opportunities of women and men and girls and boys. Equality does not mean that women and men will become the same but that women's and men's rights, responsibilities and opportunities will not depend on whether they are born male or female. Gender equality implies that the interests, needs and priorities of both women and men are taken into consideration, recognizing the diversity of different groups of women and men. Gender equality is not a women's issue but should concern and fully engage men as well as women. Equality between women and men is seen both as a human rights issue and as a precondition for, and indicator of, sustainable people-centered development.

المساواة بين الجنسين (المساواة بين الرجل والمرأة): تشير إلى المساواة في الحقوق، والمسؤوليات، والفرص بين النساء، والرجال، والفتيات، والفتان. والمساواة لا تعني أن المرأة والرجل سيساهمان سواء، ولكن أن حقوق، ومسؤوليات، وفرص المرأة والرجل لن تتوقف على ما إذا كان المولود ذكراً أو أنثى. والمساواة بين الجنسين تعني أن تؤخذ مصالح، واحتياجات، وأولويات كل من النساء والرجال في الاعتبار، مع الاعتراف بتنوع المجموعات المختلفة للنساء والرجال. والمساواة بين الجنسين ليست قضية المرأة، ولكن يجب أن تكون محطة اهتمام الرجل والمرأة ومشاركة كلها الكاملة فيها. وينظر إلى المساواة بين المرأة والرجل على أنها قضية من قضايا حقوق الإنسان، وشرط مسبق ومؤشر للتنمية المستدامة التي محورها البشر على حد سواء.

Égalité des sexes (égalité entre les hommes et les femmes) : Ce terme désigne l'égalité des droits, des responsabilités et des chances des femmes et des hommes, des filles et des garçons. L'égalité ne veut pas dire que les femmes et les hommes doivent devenir les mêmes, mais que leurs droits, responsabilités et opportunités ne dépendront pas du fait qu'ils sont nés hommes ou femmes. L'égalité des sexes suppose que les intérêts, les besoins et les priorités des femmes et des filles sont pris en compte, reconnaissant la diversité des groupes de femmes et d'hommes. L'égalité des sexes n'est pas un problème de femmes mais devrait concerner et associer pleinement les hommes et les femmes. L'égalité entre femmes et hommes est considérée comme une question de droits humains et une condition préalable, et un indicateur, d'un développement durable axé sur l'être humain.

Igualdad de género (igualdad entre mujeres y hombres): se refiere a la igualdad de derechos, responsabilidades y oportunidades de las mujeres y los hombres y de las niñas y los niños. La igualdad no significa que las mujeres y los hombres serán iguales, sino que los derechos, responsabilidades y oportunidades de las mujeres y los hombres no dependerán de si nacieron con determinado sexo. La igualdad de género implica que los intereses, necesidades y prioridades de mujeres y hombres se toman en cuenta, reconociendo la diversidad de diferentes grupos de mujeres y hombres. La igualdad de género no es un asunto de mujeres sino que concierne e involucra a los hombres al igual que a las mujeres. La igualdad entre mujeres y hombres se considera una cuestión de derechos humanos y tanto un requisito como un indicador del desarrollo centrado en las personas.

## Foreword

Empowering women is a key component of IFAD's programme and project work. Since its foundation in 1978, IFAD has sought to overcome gender inequality and empower women and its inclusive approach to gender issues is now a cornerstone of its work to reduce rural poverty and food insecurity. As a consequence, IFAD is at the forefront of work on gender issues in the context of agricultural and rural development.

IFAD is firmly committed to empowering women and to working with families, communities and countries to build gender equality at every level. In 2012 the Executive Board approved the IFAD Policy on Gender Equality and Women's Empowerment. The policy is central to the overall goal of IFAD's Strategic Framework – enabling poor rural women and men to improve their food security and nutrition, raise their incomes and strengthen their resilience.

This publication presents IFAD's first glossary of terms related to gender issues. It has been developed jointly by specialized staff in the Office of the Secretary (Language Services) and the Gender Desk in the Policy and Technical Advisory Division. The purpose of the glossary is to ensure consistency and accuracy of terminology in Arabic, English, French and Spanish, and standardize the terminology used in relation to gender issues in official documentation and publications, and in all aspects of meeting preparations. It is intended for use by IFAD staff, organizations working on gender issues and other interested parties. Terms and definitions are accompanied by details of the source document and date of publication.

The full glossary, composed of 130 terms, is provided in annex I and is listed in alphabetical order.

Annex II contains a quick-reference list of terms to facilitate the work of interpreters.

The glossary is a living document. We look forward to receiving feedback and contributions for future editions to further enrich the collection. Your suggestions can be sent to [b.couto@ifad.org](mailto:b.couto@ifad.org).

## Avant-propos

L'autonomisation des femmes est l'une des composantes clés des projets et programmes du FIDA. Depuis sa création, en 1978, le Fonds s'efforce de vaincre les inégalités entre hommes et femmes et d'autonomiser ces dernières. À cette fin, il a adopté une démarche inclusive qui constitue désormais la clé de voûte des efforts qu'il déploie afin de réduire la pauvreté et l'insécurité alimentaire en milieu rural. C'est pourquoi le FIDA est à l'avant-garde des travaux sur la problématique hommes-femmes dans le contexte du développement agricole et rural.

Le Fonds, fermement engagé en faveur de l'autonomisation des femmes, est résolu à travailler avec les familles, les communautés et les pays afin d'établir l'égalité des sexes à tous les niveaux. En 2012, le Conseil d'administration du FIDA a approuvé la Politique du FIDA concernant l'égalité des sexes et l'autonomisation des femmes. Cette politique est essentielle pour atteindre l'objectif primordial du Cadre stratégique du FIDA: œuvrer pour que les populations rurales pauvres, femmes et hommes, améliorent leur sécurité alimentaire et leur nutrition, augmentent leurs revenus et renforcent leur résilience.

Cette publication présente le premier glossaire du FIDA regroupant des termes en lien avec les questions d'égalité des sexes. Il est le fruit des efforts conjoints déployés par du personnel spécialisé au sein du Bureau du Secrétaire (Services linguistiques) et par le Service égalité des sexes au sein de la Division des politiques et du conseil technique. Ce glossaire a pour finalité de garantir la cohérence et la précision de la terminologie (en anglais, en arabe, en espagnol et en français) ainsi que l'harmonisation des termes utilisés en relation avec les questions d'égalité des sexes, que ce soit dans le cadre de publications ou documents officiels ou de toute la gamme d'activités préparatoires en vue de l'organisation de réunions. Il a été établi à l'intention du personnel du FIDA, des organisations intervenant dans ce domaine et d'autres acteurs concernés. Pour chaque terme et définition, on trouvera le document source et la date de publication.

L'annexe I présente le glossaire complet, composé de 130 termes, par ordre alphabétique.

L'annexe II propose une liste de référence rapide des termes, destinée à faciliter la tâche des interprètes.

Le glossaire est un document évolutif. Nous comptons sur des retours d'information et des contributions qui viendront enrichir les éditions futures. Vous pouvez adresser vos suggestions à [b.couto@ifad.org](mailto:b.couto@ifad.org).

## Prefacio

El empoderamiento de las mujeres constituye un componente fundamental de la labor realizada por conducto de los programas y proyectos del FIDA. Desde su fundación, en 1978, el FIDA ha procurado superar la desigualdad entre hombres y mujeres y empoderar a estas, y su enfoque inclusivo de las cuestiones de género representa actualmente una de las piedras angulares de su labor en favor de la reducción de la pobreza rural y la inseguridad alimentaria. Por ello, el FIDA se encuentra a la vanguardia del trabajo relacionado con las cuestiones de género en el contexto del desarrollo agrícola y rural.

El FIDA se ha empeñado en empoderar a las mujeres y en trabajar con las familias, las comunidades y los países para fomentar la igualdad de género en todos los niveles. En 2012, la Junta Ejecutiva aprobó la Política del FIDA sobre la Igualdad de Género y el Empoderamiento de la Mujer. Esta política resulta fundamental para alcanzar el objetivo general del Marco Estratégico del FIDA de dar a las mujeres y los hombres pobres de las zonas rurales la oportunidad de mejorar su seguridad alimentaria y su nutrición, aumentar sus ingresos y reforzar su resiliencia.

Esta publicación presenta el primer glosario de términos relacionados con las cuestiones de género del FIDA. Ha sido preparada conjuntamente por personal especializado de la Oficina del Secretario (Servicios Lingüísticos) y por la Sección de Cuestiones de Género en la División de Asesoramiento Técnico y Políticas. La finalidad de este glosario es velar por la coherencia y la exactitud de la terminología en árabe, español, francés e inglés, así como normalizar la terminología utilizada en relación con las cuestiones de género en la documentación y las publicaciones oficiales, además de en todos los aspectos de la preparación de reuniones. Sus destinatarios son el personal del FIDA, las organizaciones que trabajan en la esfera de las cuestiones de género y otras partes interesadas. Los términos y las definiciones van acompañados de información pormenorizada sobre el documento de origen y su fecha de publicación.

En el anexo I figura el glosario completo, que está compuesto por 130 términos y organizado por orden alfabético inglés.

El anexo II contiene una lista de términos de consulta rápida para facilitar la labor de los intérpretes.

El glosario es un documento vivo. Esperamos con interés recibir comentarios y aportaciones para las próximas ediciones, a fin de seguir enriqueciendo la colección. Puede enviar sus sugerencias a: [b.couto@ifad.org](mailto:b.couto@ifad.org).

The term distinguishes the socially constructed from the biologically determined aspects of being female and male. Unlike the biology of sex, gender roles, behaviours and the relations between women and men are dynamic. They can change over time and vary widely within and across a culture, even if aspects of these roles originated in the biological differences between the sexes.*

### gender mainstreaming

Definition: For IFAD as an institution, gender mainstreaming is the process by which reducing the gaps in development opportunities between women and men and working towards equality between them become an integral part of the organization's strategy, policies and operations. Thus gender mainstreaming is fully reflected, along with other core priorities, in the mindset of IFAD's leadership and staff, and its values, resource allocations, operating norms and procedures, performance measurements, accountabilities, competencies and learning processes. World Health Organization, WHO, 2017.

Source: IFAD policy on gender equality and women's empowerment, IFAD, 2012.

Note: In IFAD's development activities, gender mainstreaming implies assessing the implications for women and men of any planned action, including legislation, and ensuring that both women's and men's concerns and experiences are taken fully into account in the design, implementation and M&E of all development activities. The aim is to develop interventions that overcome barriers preventing men and women from having equal opportunity to access, and benefit from, the resources and services they need to improve their livelihoods.
