I wish to thank the Food and Agriculture Organization of the United Nations (FAO), the International Fund for Agricultural Development (IFAD) and the World Food Programme (WFP) for your staunch support for China at this critical moment of fighting the novel coronavirus disease (COVID-19). Such support fully attests to your deep friendship towards the Chinese people.

The novel coronavirus is an enemy of all mankind. Out of a strong sense of responsibility for its own people and for the world community, China has taken the most thorough and rigorous mitigation and control measures. These measures are producing encouraging results. China has the confidence, capacity and determination to win the battle against the epidemic. China stands ready to continue strengthening cooperation with FAO, IFAD, WFP and the broader international community in an open and transparent manner.

I wish you all good health and all the best.
