

Introducing *Good practices for forest health protection*

A free e-learning course for forestry personnel delivered in an interactive, self-paced, dynamic learning environment using illustrated examples of best practices.

Help minimize the presence and spread of forest pests and encourage safe trade by refreshing your knowledge of forest health practices and associated phytosanitary standards.

Available at: www.fao.org/forestry/foresthealthguide.

Based on the *Guide to implementation of phytosanitary standards in forestry*.

Coming soon

Another e-learning course – *Trade in forest commodities and the role of phytosanitary measures*

FAO Forestry: Delivering information resources for 21st century learning and communication.
