Foreword	v
Explanatory note	xvii
Abbreviations	xix
INTRODUCTION	1
Survey structure	2
Food inadequacy and anthropometry	3
CHAPTER 1	
TRENDS IN AVAILABILITY AND COMPOSITION OF FOOD SUPPLIES	9
Trends in dietary energy supply	9
DES growth in relation to population growth	12
Trends in availability of dietary protein and fats	16
Distribution of food in the world	18
Changes in food composition	23
CHAPTER 2	
PREVALENCE AND INTENSITY OF FOOD INADEQUACY IN DEVELOPING COUNTRIES	33
Methodological issues	33
Reliability of data and models	38
Results: magnitude and trends of food inadequacy in developing countries	44
Intensity of food inadequacy	48
CHAPTER 3	
ASSESSMENT OF CHILD AND ADULT UNDERNUTRITION IN DEVELOPING COUNTRIES	63
Methodology for assessing undernutrition by anthropometry	64
Anthropometric assessment of nutritional status	68
Summary and conclusions	77
CHAPTER 4	
CONCLUDING OBSERVATIONS: VARIETIES OF DEPRIVATION	81

APPENDIX 1	
COUNTRY COMPOSITION OF REGIONAL AGGREGATES AND ECONOMIC GROUPS	89
APPENDIX 2	
COUNTRY DATA ON FOOD AND NUTRITION SITUATION	92
APPENDIX 3	
METHODOLOGY FOR ASSESSING FOOD INADEQUACY IN DEVELOPING COUNTRIES	115
APPENDIX 4	
ANTHROPOMETRIC ASSESSMENT OF NUTRITIONAL STATUS	145
BIBLIOGRAPHY	151
