# Food production growth per caput

Average annual growth rate  
in per caput food production,  
1970-72 to 1993-95 (%)

Source: FAO

The designations employed and the presentation of material in this map do not imply the expression of any opinion whatsoever on the part of the Food and Agriculture Organization of the United Nations concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries.

**F**ood production has kept ahead of population growth globally, but not in all countries. Many countries have little capacity to sustain growing food import bills (see map on food import dependency).
