## COUNCIL

### Hundred and Forty-fifth Session

Rome, 3 - 7 December 2012

### Reviewed Strategic Framework and outline of the Medium Term Plan 2014-17

### Corrigendum

Para. 56 is amended as follows, with underscore indicating added text and strikethrough indicating text removed:

56. In ~~2008~~ 2010, capture fisheries and aquaculture together ~~delivered~~ produced ~~442~~ 148.5 million tonnes of fish and supported the livelihoods of ~~about 540~~ 660-820 million people. The proportion of marine fish stocks that are fully exploited, producing near their maximum sustainable yield, are 57.4 percent. At the same time, ~~32~~ 29.9 percent of fisheries stocks are considered ~~depleted, the number of overexploited stocks (now 52 percent) continues to increase~~ and climate change is causing still poorly understood shifts of fishery stocks.
