

**INDEX ALPHABETIQUE DES NOMS  
SCIENTIFIQUES ET VERNACULAIRES**

**EXPLICATION DU SYSTEME**

Caractères typographiques utilisés:

***Italiques*** : Noms scientifiques valides (genres et espèces)

***Italiques*** : Synonymes

\* ***italiques*** : Identification erronée (précédée par un astérisque)

**ROMAINS** (caps) : Noms de familles

**Romains** : Noms internationaux (FAO) des familles et espèces

**A**

|   |       |
|---|-------|
| Abadèches .....                           | 10    |
| <b>Abalistes stellatus</b> .....          | 42    |
| Abámbolo .....                            | 81    |
| Abámbolo debajura .....                   | 81    |
| <b>Ablennes hians</b> .....               | 44    |
| Abuete cajeta .....                       | 184   |
| Abuete de Angola .....                    | 184   |
| Abuete negro .....                        | 184   |
| Abuete real .....                         | 183   |
| <b>Acanthocybium solandri</b> .....       | 98    |
| <b>Acantholabrus palloni</b> .....        | 76    |
| <b>ACANTHURIDAE</b> .....                 | 31,39 |
| <b>Acanthurus monroviae</b> .....         | 39    |
| <b>acarne, Pagellus</b> .....             | 117   |
| accraensis, <i>Neanthias</i> .....        | 107   |
| accraensis, <i>Novanthias</i> .....       | 107   |
| <b>accraensis, Pontius</b> .....          | 101   |
| <b>accraensis, Serranus</b> .....         | 107   |
| Acedia .....                              | 108   |
| Acedia ocelada .....                      | 108   |
| Acedia trampuda .....                     | 108   |
| <b>aculeata calmani, Squilla</b> .....    | 191   |
| <b>aculeata, Squatina</b> .....           | 151   |
| acus, <i>Aphanopus</i> .....              | 125   |
| <b>acus rafale, Tylosurus</b> .....       | 45    |
| acutipinnis, <i>Squalus</i> .....         | 150   |
| acutirostris, <i>Parepinephelus</i> ..... | 106   |
| <b>acutus, Fodiator</b> .....             | 66    |
| <b>acutus, Rhizoprionodon</b> .....       | 142   |
| Adanson's moon snail .....                | 221   |
| Adanson's tagelus .....                   | 214   |
| <b>adansoni, Natica</b> .....             | 221   |
| <b>adansonii, Tagelus</b> .....           | 214   |
| <b>Adioryx hastatus</b> .....             | 73    |
| aeneum, <i>Diagramma</i> .....            | 69    |
| <b>aeneus, Epinephelus</b> .....          | 105   |
| aeneus, <i>Serranus</i> .....             | 105   |
| <b>aequalis, Nezumia</b> .....            | 81    |
| <b>aequidens, Atractoscion</b> .....      | 94    |
| <b>Aetobatus narinari</b> .....           | 159   |
| <b>afer, Lycodontis</b> .....             | 86    |
| <b>affinis, Hirundichthys</b> .....       | 66    |
| <b>afr, Sphyraena</b> .....               | 119   |
| African barrelfish .....                  | 56    |
| African brown snapper .....               | 79    |
| African cuttlefish .....                  | 195   |
| African flyingfish .....                  | 65    |
| African forktail snapper .....            | 79    |
| African ghost crab .....                  | 185   |
| African halfbeak .....                    | 72    |
| African knife shell .....                 | 214   |
| African lantern shark .....               | 149   |
| African matchbox crab .....               | 184   |
| African moon fish .....                   | 53    |
| African moony .....                       | 82    |
| African mud crab .....                    | 189   |
| African mud shrimp .....                  | 180   |
