Front cover illustration. This image, used on the poster for the International Day for Biological Diversity 2008, has been designed from a traditional Gabba embroidered tapestry from Pakistan that was donated to the CBD Museum of Nature and Culture in 2006 by Pakistan's Minister for Environment. Measuring some two meters across and two meters high, the intricately stitched and brightly coloured Gabba depicts scenes of everyday life and the rich heritage of biodiversity and agriculture in a farming landscape of Pakistan.
