Conference Room 2

2024

On 15 July 2024, FAO and its co-publishing partners will be presenting the key messages on Financing to End Hunger, Food Insecurity and Malnutrition in All its Forms from the main theme of the 2024 edition of the State of Food Security and Nutrition in the World (SOFI) report, at a Special Event on Financing to End Hunger, Food Insecurity and Malnutrition in All its Forms in the margins of the High-Level Political Forum (HLPF).

The 2024 edition of *The State of Food Security and Nutrition in the World report* takes a deep dive into the theme of “Financing to end hunger, food insecurity and all forms of malnutrition”. The report explores current levels and gaps in financing for food security and nutrition and provides guidance on innovative financing options to address the major drivers of food insecurity and malnutrition and the agrifood systems transformation needed to meet SDG Targets 2.1 and 2.2.

Such theme is timely and relevant to the intergovernmental processes supporting the follow-up and review of the implementation of the 2030 Agenda for Sustainable Development in HLPF, including the Financing for Development Forum. The theme of this year comes timely in the run up to the Summit of the Future, and the Fourth International Conference on Financing for Development in 2025.

The event is organized by the report’s authors, FAO, IFAD, UNICEF, WFP and WHO, and can be followed in all UN languages.
