by Dana Collins**

# XV WORLD FORESTRY CONGRESS

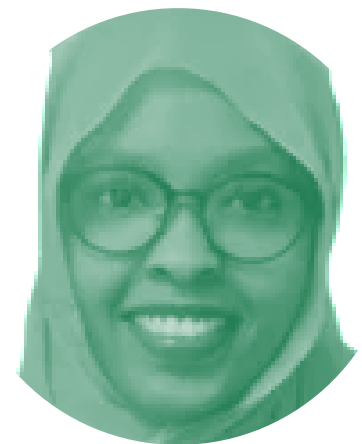

Building a Green, Healthy and Resilient Future with Forests

2–6 May 2022 | Coex, Seoul, Republic of Korea

## INTERSECTIONS BETWEEN OUR FUTURE FORESTS & YOUNG FOREST STEWARDS

### Panelists:

Amina Maalim is a scientist with international and local experience, currently working with the national Forestry Research Institute in Kenya (KEFRI). She is based in Garissa office and works in the whole of the Northern region in the drylands of Kenya which accommodates the largest pastoral population in Kenya.

Davia Carty is the Senior Director for Strategic & Corporate Planning at the Jamaica Forestry Department. She is an international forest policy expert who has been active at the UN Forum on Forests (UNFF) and is a member of the UNFF Informal Advisory Group (IAG) on the Global Forest Goals Report 2021.

# XV WORLD FORESTRY CONGRESS

Building a Green, Healthy and Resilient Future with Forests

2–6 May 2022 | Coex, Seoul, Republic of Korea

## INTERSECTIONS BETWEEN OUR FUTURE FORESTS & YOUNG FOREST STEWARDS

### Panelists:

Kim Carstensen has held the role of Director General of the Forest Stewardship Council since 2012, where he's been instrumental in leading the growth and development of FSC as the world's most trusted sustainable forest management solution.

Esteban Barriga is an environmental engineer with a Master's in Social Innovation. Esteban is currently participating in the CoalitionWILD's EXCEerator Programme developing an educational solid waste project and works in several communities as a consultant developing comprehensive projects to improve the livelihood and the relationship between the people and the forest.

# XV WORLD FORESTRY CONGRESS

Building a Green, Healthy and Resilient Future with Forests

2–6 May 2022 | Coex, Seoul, Republic of Korea

## INTERSECTIONS BETWEEN OUR FUTURE FORESTS & YOUNG FOREST STEWARDS

### Panelists:

Hyeonju Ryu is a Data Analyst for ITTO's FLEGT Independent Market Monitor (IMM) project. With a background in Forest Environmental Sciences, Hyeonju is a partner at BNZ Partners, working on setting up carbon neutrality targets and strategies for enterprises and a member at Big Wave, a youth network on climate change, where she organized Youth challenges and climate-related social activities.

Ron Triraganon is a Senior Strategic Advisor of RECOFTC. Before becoming an advisor, Ron was RECOFTC's Unit Head for capacity development and technical services where he managed over 40 research and capacity development projects and programs at regional and national levels. He has extensive experience in promoting local people's knowledge and customary rights

### Co-moderators:

Dana Collins MFC, FIT has been working in Canada's forest sector for the past 12 years in various capacities across industry, academia, and the not-for-profit sector. Her experiences of being amongst the few women in boardrooms or decision-making tables inspired her to create opportunities to promote equity, inclusion, and diversity in the workplace and support women in forestry.

Khalil Walji works as a Scientist and Coordinator of the Landscapes for our Future programme at World Agroforestry in Nairobi, Kenya. The programme aims to design and implement sustainable and innovative solutions to land-use challenges across 23 funded projects. He previously worked with the FAO's Forestry Department served as the Deputy Coordinator of the Task Force on Monitoring of the UN Decade.
