

XV WORLD FORESTRY CONGRESS

Building a Green, Healthy and Resilient Future with Forests

2–6 May 2022 | Coex, Seoul, Republic of Korea

Updated 03 May 2022

POSTER SESSION PRESENTATION SCHEDULE

Date: Thursday, 5 May 2022

Time: 08:00–09:00 Hall C3

Sub-theme	Name	Accepted Poster title	ID
Sub-theme 1: Turning the tide: reversing deforestation and forest degradation	Floribert Mbolela	La stratégie provinciale pour la restauration des forêts et paysages dégradés au Sud-Kivu	3614020
	Meshack Muga	A policy influencing plan for adoption and contextualisation of forest and landscape restoration in Kenya	3486352
	Rudo Violet Denga	Investigation of the drivers and impacts of Riverbank cultivation on the Kafue River Basin in Zambia's Copperbelt Province: Implications on Environmental Social Sustainability	3472670
	Sanghyun Kim	Can partial harvest be a next-generation forest management?	3624107
	Yury Tatiana Montañez Rodríguez	Efecto del flujo de hojarasca y el ambiente lumínico en la dinámica del banco de plántulas del valle interandino del alto Magdalena, Colombia – Suramérica	3486260
	Rajaonarivelo Herimino Manoa	The role of land tenure in tackling climate change at scale through forest restoration	3640628
	Sandra Sharry	Uso sostenible de la biodiversidad en bosques de alto valor de conservación en Argentina	3486945
	Taehyun, Kim	Experimental analysis of the effect of pine needle ash on water movement of forest soil	3623004
	Toshiaki Owari	Close-to-nature forestry application in northern Japan: 62 years of development at the University of Tokyo Hokkaido Forest	3486608
Sub-theme 2: Nature-based solutions for climate-change adaptation and mitigation and biodiversity conservation	Olfa Ezzine	Forest invasive species in the NENA region	3623155
	Azongnide Gbedotchitche Gwladys	Local knowledge on folk classification, preferences and techniques of conservation of <i>Vitellaria paradoxa</i> in Benin	3485339

Korea Forest Service

Food and Agriculture Organization of the United Nations

	Kyu-Suk Kang	Growth performance among eight provenances of teak (<i>Tectona grandis</i> Linn.f.) in Ngalaik Reserved Forest, Myanmar	3622987
	Yaneli Peña Guerra	Evaluación económica de alternativas de mitigación al cambio climático en la Empresa Agroforestal Matanzas. Caso de estudio: UEB Martí	3622096
	Faizul Bari	Community participation and women empowerment in the protected forests of Khyber Pakhtunhwa, Pakistan	3485860
	Edward Amankwah	Ghana beyond aid, agroforestry systems and green commodities: Cocoa production and dynamics of agro-tourism as livelihood options in Ghana	3486324
Sub-theme 3: The green pathway to growth and sustainability	Camilla Bragotto Marangon	Sectoral performance of water management in plantations-based industry	3486863
	Nathalia Granato Loures	Multiple uses of forest biomass as nature-based solution in order to increase the share of green and renewable energy at the energy matrix of several industries	3487071
	Petrit Imeraj	Disaster management cells in geo-isolated ruralities of northern Albania	3621886
Sub-theme 4: Forests and human health: revisiting the connections	Lawrence Adolph M. Amads	Visitors' Perception of crowding in Mt. Makiling Forest Reserve ASEAN Heritage Park	3623575
	Olyvia Gwladys Fadeyi	Medicinal mushrooms from tropical Africa: A State of the art about their diversity, application spectrum and bio-activity	3487173
Sub-theme 5: Managing and communicating forest information and knowledge	Kim, Chanbeom	Analysis of microclimate difference according to Desertification Project in Hulunbuir Steppe, Inner Mongolia, China	3621831
	Andrew Lister	The practical use of remote sensing to enhance forest inventories – A case study of the United States National Forest Inventory	3487251
Sub-theme 6: Forests without boundaries: enhancing management and cooperation	Dae Yeol Kim	Random forest ensemble-based classification using VHR imagery, multispectral and LiDAR data fusion over urban mixed forests	3623570
	Melvin Ku Kin Kin	Sustainable forest sustainable future: Sowing passion and raising awareness of future generations	3486748
