The schedule is tentative and the exact length of each item subject to variation and availability of time.

Day 1

Monday,
27 June 2022

Introduction

The objective of this meeting is to provide Members and Observers with an opportunity to make progress on the revision of Class B and Class E, based on the information provided in the working documents and comments submitted in reply to the relevant circular letter, in order to guide further work in the EWG and enable completion of work at the next session of CCPR.

The meeting also provides an opportunity to consider issues related to the establishment of maximum residue limits (MRLs) for okra as well as issues of common interest to CCPR and CCRVDF. This concerns the harmonization of terms/definitions to facilitate the establishment of single/harmonized MRLs for compounds with dual use for edible animal tissues based on the information provided in the working documents and comments submitted in reply to relevant circular letters.

The structure of the discussion will be as indicated below. Delegates are kindly requested to have with them all relevant working documents as indicated in the reference documents. A detailed editing exercise is not foreseen onscreen. The recommendations of this meeting will be considered by CCPR in order to determine further actions in relation to agenda items 7 a/b/c/d.

7a Establishment of MRLs for okra

Amend the Classification of Food and Feed (CXA 4-1989) and/or the *Principles and Guidance on the Selection of Representative Commodities for the Extrapolation of MRLs for Pesticides to Commodity Groups* (CXG 84-2012) by selecting Option 1 or Option 2 or by proposing an alternative option for consideration by CCPR.

1. Background information
2. Okra in the Classification of Food and Feed and the Principles and Guidance on the Selection of Representative Commodities for the Extrapolation of MRLs of Pesticides to Commodity Groups
3. Revision to the location of okra in the Classification and/or the Principles and Guidance based on comments submitted to CL 2022/34-PR
 - a. Option 1: Add a footnote to Subgroup 12B in the Classification
 - b. Option 2: Move okra to a separate Subgroup 12D in the Classification
 - c. Alternative Option(s)
4. Recommendation to CCPR

7b Revised Class B

1. Background information
2. Introduction to the revised Class B based on comments submitted in reply to CL 2022/35-PR
3. Possible further revisions to the Classification based on additional comments
 - a. Addition of commodities for inclusion in the different groups/subgroups
 - b. Relocation of commodities within the different groups/sub-groups
 - c. Addition, relocation or merging of groups/subgroups
 - d. Other comments/issues not covered by the points above
4. Recommendation to CCPR

7c Revised Class E

1. Background information
 2. Introduction to the revised Class E based on comments submitted in reply to CL 2022/35-PR
 3. Possible further revisions to the Classification based on additional comments
 - a. Addition of commodities for inclusion in the different groups/subgroups
 - b. Relocation of commodities within the different groups/sub-groups
 - c. Addition, relocation or merging of groups/subgroups
 - d. Other comments/issues not covered by the points above
 4. Recommendation to CCPR
-

(...) Day 1

Monday,
27 June 2022

7d Harmonized terms/definitions for edible animal tissues

1. Background information
2. Edible Offal: Possible options for harmonization of definition between CCPR and CCRVDF based on comments submitted to CL 2022/36-PR
 - a. Option 1: Alignment with the definition as agreed to by CCRVDF and adopted by CAC
 - b. Option 2: Proposal from Germany
 - c. Alternative option(s)
 - d. Recommendation to CCPR
3. Other edible animal tissues: Possible options for harmonization of terms/definitions between CCPR and CCRVDF based on comments submitted to CL 2022/36-PR
 - a. Meat/muscle
 - i. Option 1: Definition proposed by the Joint JECFA/JMPR Working Group
 - ii. Option 2: Proposal from Germany
 - iii. Alternative option(s)
 - b. Fat
 - i. Definition proposed by the Joint JECFA/JMPR Working Group
 - ii. Alternative option(s)
 - c. Recommendation to CCPR

8 Coordination of work between CCPR and CCRVDF Joint CCPR/CCRVDF Working Group on Compounds for Dual Use – Status of work

1. Background information
2. Status of work
3. How to proceed further:
 - d. What work has been done cooperatively between CCRVDF and CCPR?
 - e. What are areas where CCRVDF and CCPR could collaborate in the future?
 - f. What mechanisms could be used to collaborate between CCRVDF and CCPR?

Day 2

Tuesday,
28 June 2022

Introduction

The objective of this meeting is to provide Members and Observers with an opportunity to make progress on the development of these Guidelines based on the information provided in the working document and comments received in reply to the relevant circular letter in order facilitate the completion of this item by CCPR.

The meeting also provides an opportunity to complete the discussion on the JMPR parallel review by considering the criteria for the selection of the global project manager and on the management of unsupported compounds without public health concerns.

(...)

The structure of the discussion will be as indicated below. Delegates are kindly requested to have with them all relevant working documents as indicated in the reference documents. A detailed editing exercise is not foreseen onscreen but comments that could assist in finalizing these documents may be considered. The conclusions and recommendations of these meetings will be considered by CCPR in order to complete work on the texts in question.

9 Guidelines for compounds of low public health concern that may be exempted from the establishment of Codex MRLs or do not give rise to residues

1. Background information
 2. Revised Guidelines based on comments submitted in reply to CL 2022/37-PR
 3. Possible further revisions to the Guidelines based on additional comments
 - a. General comments on the overall content of the Guidelines
 - b. Specific comments on provisions that may require further development, additional provisions that may be included, removal or relocation of provisions to facilitate finalization of the Guidelines
 4. Guidance on whether the Guidelines are ready for final adoption by CAC
 5. Recommendation to CCPR
-

10 Engagement of JMPR in parallel reviews of new compounds - Criteria for selecting the global project manager for the parallel review process

1. Background information
 2. Revised criteria based on comments submitted in reply to CL 2022/38-PR
 3. Possible further revisions based on additional comments as follows:
 - a. General comments on the overall content of the criteria in particular:
 - i. whether they reflect the needs for managing the parallel review process and
 - ii. potential candidates who meet the proposed qualifications and competences to fulfill the role of the global project manager
 - b. Specific comments on provisions that may require further development, additional provisions that may be included, removal or relocation of provisions to facilitate finalization of the Criteria
 4. Guidance on whether the criteria is ready for agreement by CCPR and inclusion in the Procedures and Principles for the Engagement of JMPR in Parallel Review of New Compounds (internal guidance for CCPR)
 5. Recommendation to CCPR
-

(...) Day 2
Tuesday,
28 June 2022

11 Management of unsupported compounds without public health concern scheduled for periodic review

1. Background information
2. Revised work management proposal and options for data support based on comments submitted in reply to CL 2022/39-PR
3. Possible further revisions based on additional comments as follows:
 - a. General comments on the overall content of the:
 - i. work management proposal and
 - ii. options for data support
 - b. Specific comments on provisions that may require further development, additional provisions that may be included, removal or relocation of provisions to further enhance the:
 - i. work management proposal and
 - ii. options for data support
4. Guidance on whether the work management and options for data support are ready for agreement by CCPR
5. Establishment of an Electronic Working Group on the Management of Unsupported Compounds
6. Recommendation to CCPR
