

NRM for Food Security in the Context of the Post-2015 Development Agenda: Empowering Small Scale Food Producers and Food Insecure Communities to be Agents of Change

By

Gete Zeleke (PhD)

**CFS 40 Special Event
October 11, 2013, Rome**

The Challenges of Food Security – are we getting it right?

1 Week's Food for a Family in Africa: \$ 20

What should be our approach - Area based? Or ?

Who are at stake in the rural setting?

Commercial agricultural enterprises

Rural households with surplus production potential

Self-resiliency

Rural households in transition

Interventions

NRM

Growth - link with smallholders

Growth, transforming subsistence

Focus on improving food and nutrition security

Also worth considering:

- Proactive EWS
- Predictable resource
- Rural urban linkage
- Capacity development at all levels

Change is possible:
livelihoods and **resilience** can
be improved through INRM
– all possible interventions
considered – that is where
Post-2015 development
agenda should focus (real
example taken from MERET-
Ethiopia)

Thank You
