

Preparation of CFS 47 Final Report

Doc No: BurAG/2020/02/28/01b_rev1

The purpose of this document is to set an effective process towards the preparation of a more substantive Final Report at CFS 47, one that reflects the content of plenary discussions, with consistent procedures for similar types of items (information, discussion and decision).

In this regard, three different types of procedures are foreseen, depending on the nature of the agenda item:

TYPE A: Preparation of <u>Draft Decisions</u>, to be finalized by the Bureau, after consultation with the Advisory Group, for items where a plenary decision is expected;

TYPE B: Preparation of <u>Draft Conclusions</u>, to be finalized by the Bureau, after consultation with the Advisory Group, for items that are for information and discussion. These conclusions will include placeholders for a limited number of additional bullets on specific matters that may arise from plenary discussions, in line with guiding questions to be included in the CFS 47 Guide;

TYPE C: Preparation of <u>text by the CFS Secretariat</u> which is submitted directly to the Drafting Committee for items where only information on speakers and process is expected to be included in the Final Report.
