

Private Sector Mechanism - FSS

Inclusive – stakeholders

- CFS is multistakeholder, and inclusive, an important venue to be HEARD
- PSM represents full value chain from farmers to processors; SMEs to multinationals
- represent 10,000s of agri-food businesses, plus farmer organisations, and cooperatives; 200 delegates to CFS

Mobilize around the Food System

- An atmosphere of respect, collaboration and partnership is the primary basis for progress and ACTION
- This is an opportunity for global leaders to focus on food systems, we need to be pulling to common goals

Actionable Commitments

- PSM already has a steering committee, quarterly updates, and working with other business groups
- Action items should be brought out in ways that farmers big and small, companies big and small, NGOs, academia and governments can take actions regardless of size

CFS Engagement

- CFS Chair would be an excellent Champion for the Summit
- Hope CFS principles and agreed documents will be considered in the Summit
