DATA COLLECTION AND ANALYSIS TOOLS FOR FOOD SECURITY AND NUTRITION – DRAFT CONCLUSIONS

MATTERS TO BE BROUGHT TO THE ATTENTION OF THE COMMITTEE

1. Mr Carlo Cafiero, HLPE Project Team Leader, presents the main findings and recommendations of the HLPE Report on "Data collection and analysis tools for food security and nutrition".

2. Keynote remarks were delivered by [...]

3. The Committee:

   a. Acknowledges with appreciation the work of the HLPE to prepare the Report on "Data collection and analysis tools for food security and nutrition" and the keynote address made by [...], on the main policy relevant evidence included in the report;

   b. Welcomes the nomination of [...] as Rapporteur of the policy convergence process which, based on the HLPE report and other relevant available scientific sources, will be identifying areas for policy convergence and agreement;

   c. Recalls the provisions contained in document CFS2019/46/7, the CFS MYPoW 2020-2023;

   d. PSM proposal: Calls for greater disaggregated data through regular collection of sex, age, and disability-disaggregated data and gender-sensitive statistics and indicators.

   e. Recognizes the importance of an inclusive process, open to all interested stakeholders [PSM proposal: governments, academia, civil society, and private secto], leading to the endorsement of an agreed set of CFS policy recommendations to be presented to the Committee for endorsement at CFS 51 in October 2023;

   f. Takes note of the following comments, initiatives and experiences shared in the plenary discussion:
      i.   *[PSM Proposal:* In addition to AMIS, it is also important to signal other nutritional data initiatives that are underway, especially those that address data gaps for data collection and analysis for food security and nutrition....*]*
      ii.   *[...]*
      iii. *[...]*
