

IPROMO

Aut. Province of Bolzano/Bozen

South Tyrol

**Regional development – management of
natural resources, water and energy
policy**

Karl Rainer
17.07.2013, Ormea

General aspects

- * the geographical position of South Tyrol
- * the population
- * South Tyrol in the context of Italy, the EU and globalization
- * the key principles of regional development
- * the magic of variety
- * energy resources – the wealth of water
- * a concluding overview – the history of a success

Geographical position

- * border land in the very Northern Italy
- * 7.400 km²
- * 14% of the land lower than 1.000 m sea level – 64% over 1.500 m
- * continuously settled land 9% of the area
- * on 6% of the provincial area work 85% of population

Water power

About 250 hydropower stations
produce 4.450 GW-h a year

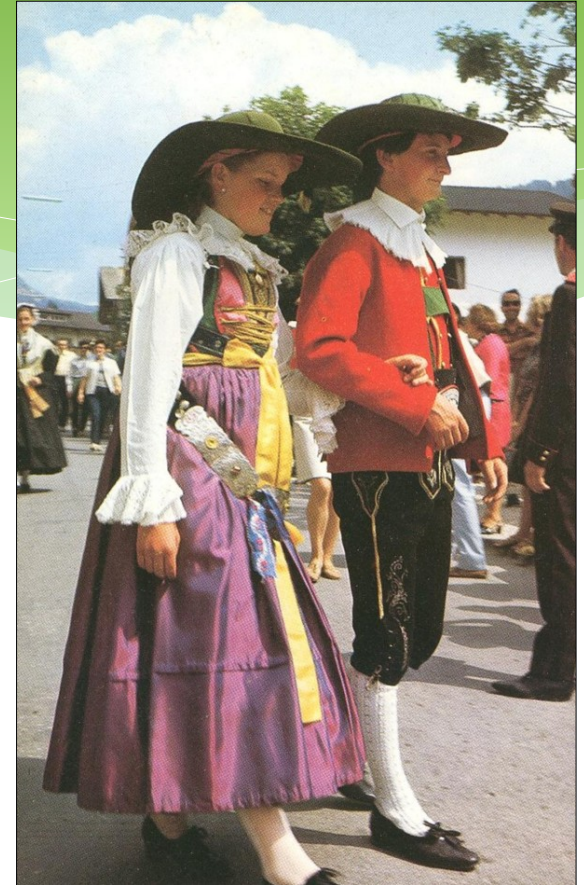

The rest of the village Graun after the construction of the artificial lake for generating electricity

Transit land

Population

- * capital town Bolzano-Bozen with little more than 100.000 inhabitants
- * total population of the Province: 511.000

The budget of the Autonomous Province: about 5 billions Euro

Key principles of regional development

The alpine associations provide for the realization and marking of 17.000 km of hiking paths

- * 97% of the enterprises are small or medium-sized with an average of about 4 employees
- * high density of enterprises related to the residents: 115 per 1.000
- * low employment of academics (less than 5%)

LEADER +

- * linkage of development measures for rural economy
- * Leader follows an integrational strategy, realizing linked projects proposed by a bottom-up method

LEADER +

Arge Alp

Transfrontier working community of German, Italian, Austrian and Swiss regions – planning and managing the common future

Ratschings

Key data concerning agriculture

- * a total of 26.600 enterprises:
 - 14.000 livestock farming
 - 8.524 fruit-growing
 - 4.781 wine-growing
- * 17% of the enterprises with less than 1 ha land, only 3,28% dispose of 50-100 ha and 21% of 2-5 ha
- * products:
 - 1.2 millions liters milk delivered daily, 2/3 of dairy products are exported
 - 1.2 millions tons of apples a year, about 3.000 tons of pears and soft fruit
- * 40-45% of the Italian apple production and about 12% of the EU apple production (storage capacity 750.000 t)

* 2.821 farms with rural holiday structures

Integrational income through tourism activities

Preservation of the unique cultural landscape, with its variety in flora and fauna

Traceability of agricultural food products

On 5.244 ha flourishes fruity wine

- * 32.6 hl wine, 57% white wine
- * 96% are DOC-wines

The glacier mummy Ötzi

Foto: Tourismusverband Gröden

- * South Tyrol is a paradise for bikers
- * There are 1.050 km bicycle paths in marvellous valleys
- * You can hire a bike in Bolzano-Bozen and cross the Province in all directions

Fellow countrymen with international fame

**extreme mountain climber
Reinhold Messner**

- * 3.686 ha of ski slopes
- * 75% of them are equipped with snow cannons

Energy

A success story in numbers

* 1975-2005

- 11% increase of the number of residents
- 44% increase of employees
- the average yearly income of an employee rose from 2.400€ to 34.000€ (+1.300%)
- the GDP increased from 570 Mio. € to 12.150 Mio. €
- the provincial budget 1975 = 60 Mio. €, 2004 = 4.400 Mio. €, 2010 = 5.200 Mio. € - due to the assumption of more and more areas of responsibility by the Province

* **2007:** the average income per head in South Tyrol exceeds the EU-average by 46%

Some more impressions of South Tyrol
