IPROMO

*Environmental and economic issues
to enhance mountain sustainability*
Ormea – Pieve Tesino 5-19 July 2017

Education:

2013- 2016 Institute of Mountain hazards and Environment, Chinese Academy of Science, Geotechnical Engineering. PhD.

Research direction: Mountain Hazards and its warning-forecasting system

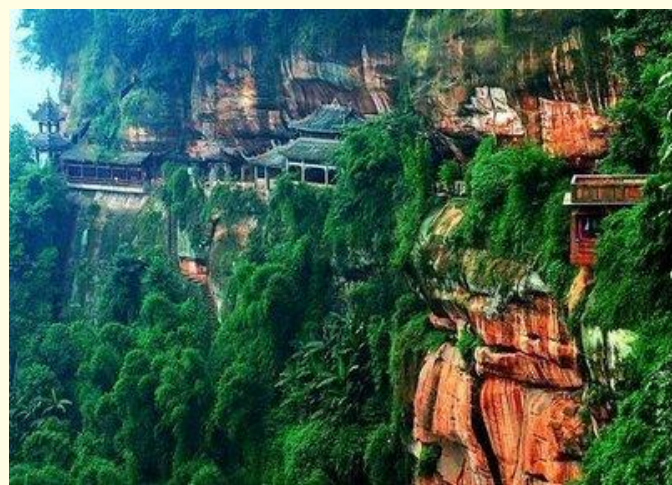

2007-2010 Northeast Petroleum University, Petroleum Engineering.
Master

2003-2007 Northeast Petroleum University, Environmental Engineering.
Bachelor

Employment and main activities:

2016-now Editors of Journal of Mountain Science, Institute of Mountain Hazards and Environment, CAS, China

2010 – 2013 Hydrogeology engineer, Heilongjiang 904 Environmental Geology Survey Institute

I come from Sichuan China

Earthquake in China (12 May, 2008)
Magnitude on Richter Scale: 7.8

2008 Wenchuan earthquake Ms 7.8
80,000 deaths

Landslide
Destruction of
mountain structure

2010 Zhouqu debris
flow 2,000 deaths

Loss of life and personal injury

Outburst flood

Dammed lake

My doctoral research are about mountain hazards.

I attend the Key project of CAS: Prediction and Forecast of typical geological disaster and its control method.

Field work

Laboratory experiment

Community survey

My present job: Editor of Journal of Mountain Science

Journal of Mountain Science

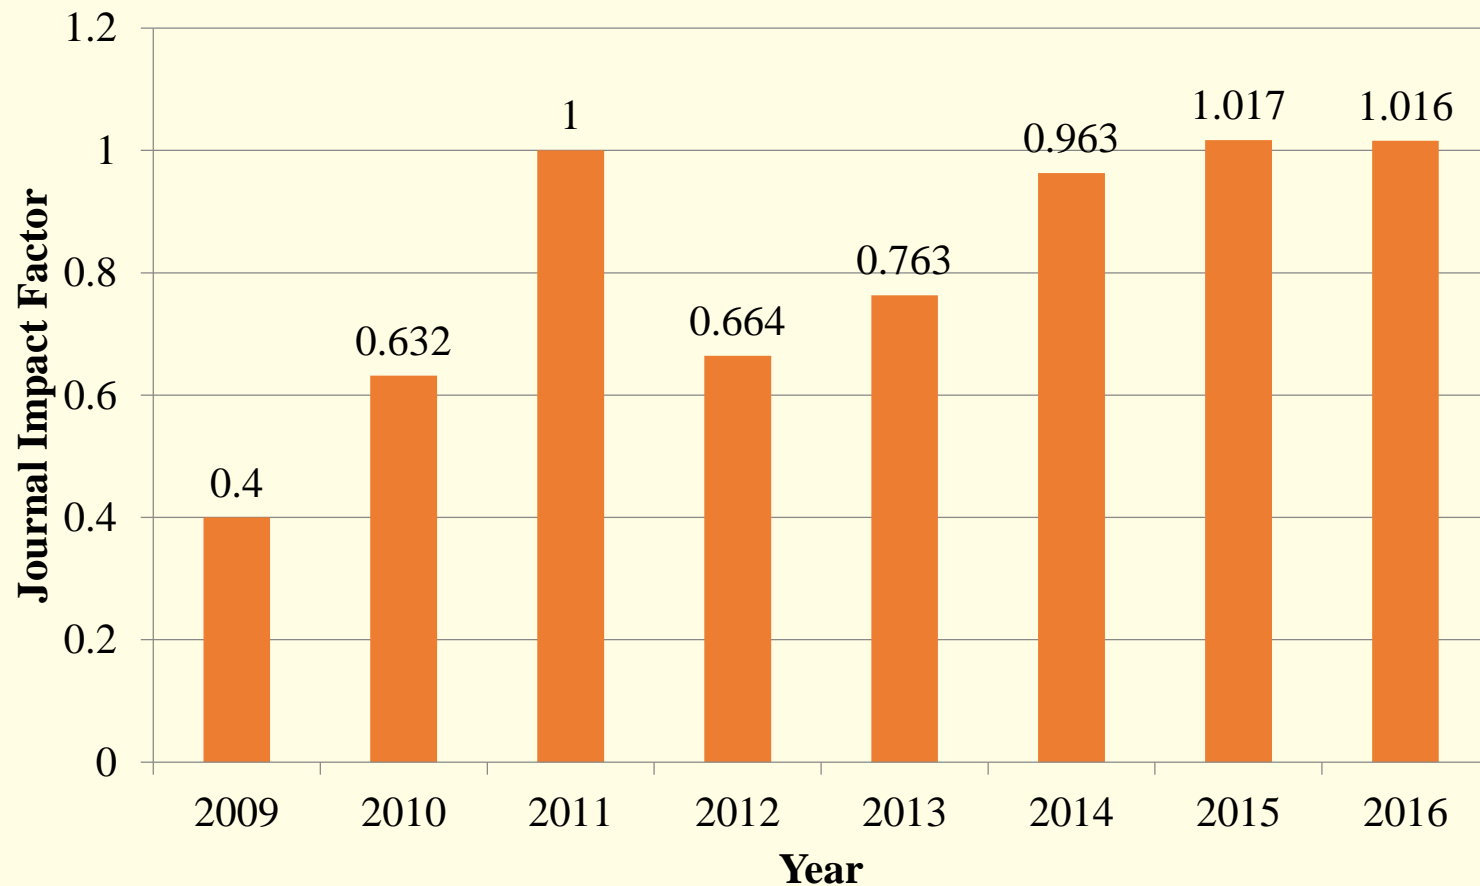

- + ISSN 1672-6316 ; CN 51-1668/P**
- + An international English Journal**
- + Supervised by the Institute of Mountain Hazards and Environment, Chinese Academy of Sciences**
- + Published by the China Science Press**
- + Distributed by CNKI (China mainland) and Springer**
- + Included in SCI-E, Georef, Scopus, CABI, CSCD, CSA, CNKI.... (more than 20 important databases)**

Journal of Mountain Science (JMS)

One of the most international influence journal in China from 2014 to 2017

- **Interaction between mountain environmental change and human activities**
- **Interaction between degradation and restoration of mountain ecosystem**
- **Dynamics of debris flows**
- **Landslides and soil erosion in mountain areas**
- **Watershed management and development**
- **Protection on indigenous resources**
- **Cultural diversity and wealth**
- **Investigation or standpoint in local economic or socio-cultural issues.**

Journal Impact Factor (JCR)

Attend international meeting to introduce JMS

A scenic view of a turquoise lake with a sandy beach and a forested mountain in the background. A dead tree trunk is in the foreground.

Glad to meet you!
