IPROMO

Mountains in a changing climate: Threats, challenges and opportunities

28 September-09 October 2020

Education

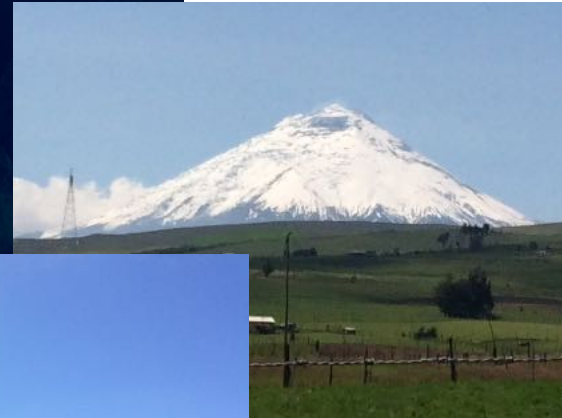

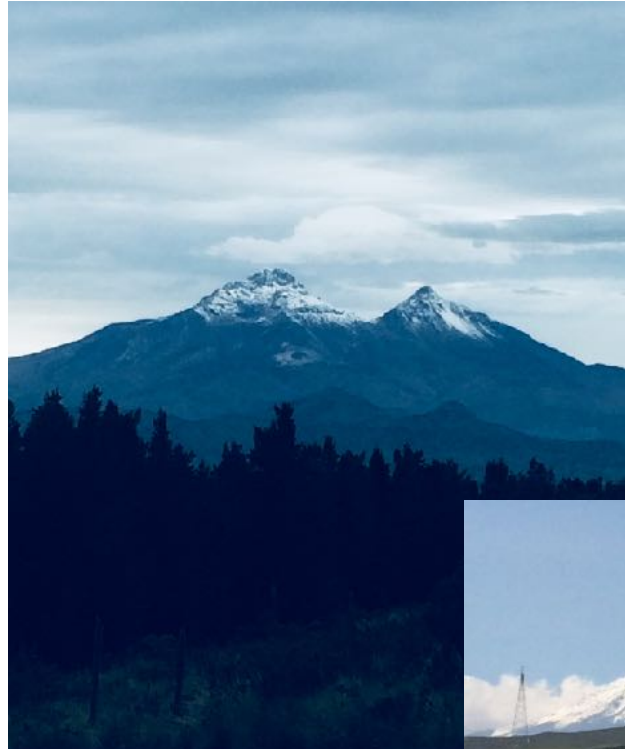

- PhD. Political Studies
- MSc. Environmental Studies
- BSc. International Development and Environmental Studies

Employment and main activities

- Professor of public policy
- Policy advisor
- Founder of “People and Resources Consulting LLC”
- Founder of “Sharing Science”

Other interests (volunteer work, hobbies etc.)

- Sighseeing-traveling
- Rock-climbing
- Running 5k-10k
- Soccer

- The main research topic of my interest is actor-coordination for public policy implementation.
- Local governance & Sustainability Lab with two research tracks:
 - Agenda 2030 and SGDs (water, sustainable production)
 - Policy capacity in the extractive industries

- My main project investigates the contribution of voluntary sustainability schemes to systemic change at the local level.
- Cocoa, bananas, palm-oil, coffee
- Comparing: Ecuador, Peru, Indonesia
- Partners: University of Melbourne, LSE, Yale
- Funding: Australian Research Council

- Project 2 investigates the emergence of governance arrangements for climate change adaptation at the municipal level.
- Timeframe: 2020-2022
- Comparing: Bolivia, Ecuador, Switzerland
- Partners: EAWAG, Universidad Nur
- Funding: Universität St Gallen
