

4th Meeting of the
**Latin American Soil
Laboratory Network**
(LATSOLAN)

22 October 2021

***Item 3. LATSOLAN
main needs***

Mr. Filippo Benedetti, GSP Secretariat

LATSOLAN
LATIN AMERICAN SOIL LABORATORY NETWORK

Online survey

22 answers received from:

Argentina, Chile, Costa Rica, Cuba, Dominican Republic, Ecuador, Haiti, Mexico, Nicaragua, Paraguay, Peru, Trinidad & Tobago, Uruguay

Thanks to those who answered!

Why?

- Have a better overview of the regional needs
- Easy way to get information
- Facilitate the discussion and optimize the use of the limited time available during the online meeting

Regional Soil Laboratory Network (RESOLAN) main needs - survey 2021

Countries are organized into Regional Soil Laboratory Networks (RESOLANs), the skeleton of GLOSOLAN. After the successful establishment of the Regional Soil Laboratory Networks for Asia (SEALNET) in 2017, Latin America (LATSOLAN) in 2018, and the Pacific (ASPAC), Africa (AFRILAB), Europe and Eurasia (EUROSOLAN) in 2019, GLOSOLAN successfully launched the Regional Soil Laboratory Network for the Near East and North Africa (NENALAB) on 9 June 2020. Each RESOLAN has a Chair and one or two vice-Chairs that represent the regional networks at official events.

Every year, laboratories from a same region are given the opportunity to discuss about their priorities and needs, and their position on topics to be discussed at the annual GLOSOLAN meetings. Usually, RESOLAN meetings consist of three-four days training and one day for decision making. However, in 2020, GLOSOLAN made the decision to change the format of the meetings. Therefore, RESOLAN meetings will now consist of only one day focused on decision making since trainings will be provided in the form of webinars throughout the year.

In order to facilitate the discussion and optimize the use of the limited time available for discussion, GLOSOLAN is kindly asking all its members to complete the following survey. The survey enquired on national and regional specific needs to be brought to the attention of each RESOLAN for discussion. Ultimately, RESOLAN specific work plans will be developed.

The survey will take approximately 7 minutes to complete

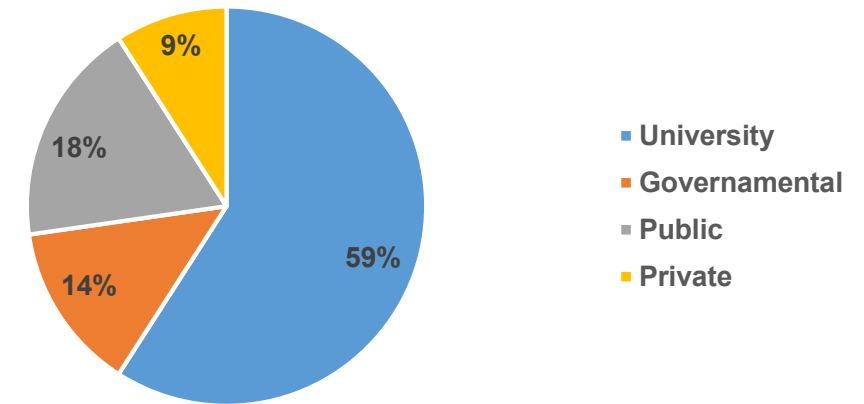

4th Meeting of the **Latin American Soil Laboratory Network (LATSOLAN)** | 22 October 2021

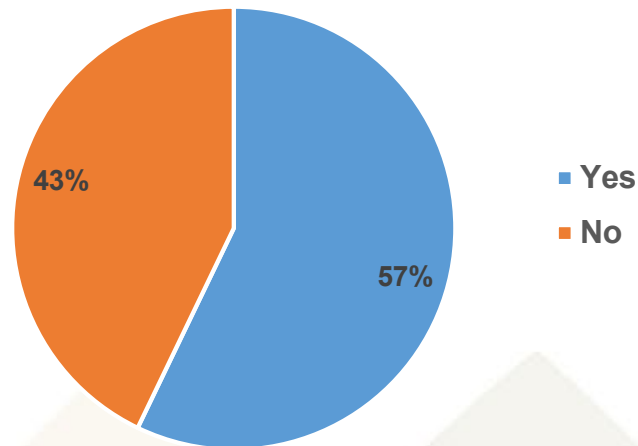

Regional context

- Type of laboratory
- Awareness on regional activities
- Connection with the regional Governance

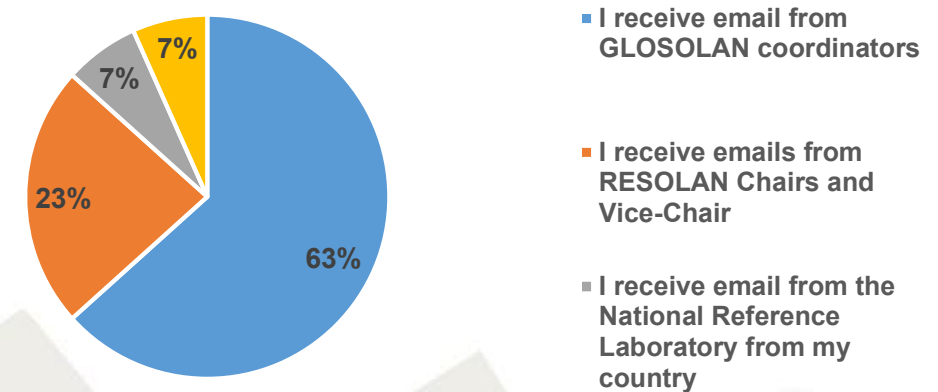

Type of lab

Are you in touch with the Chair and/or vice Chair(s) of your Regional Soil Laboratory Network?

Have you ever been informed about the activities interesting your Regional Soil Laboratory Network?

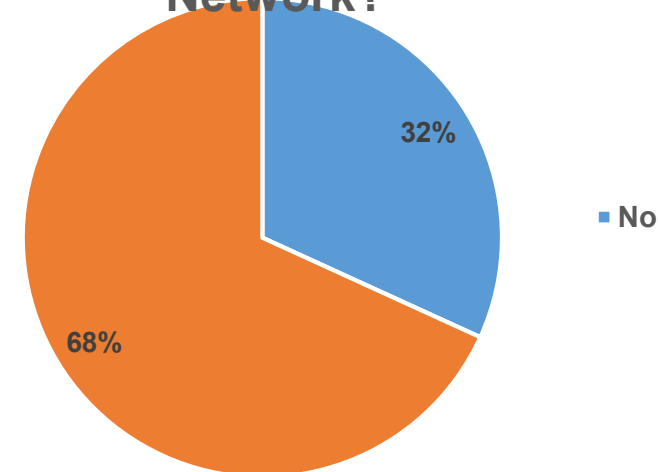

4th Meeting of the **Latin American Soil Laboratory Network (LATSOLAN)** | 22 October 2021

Participation in LATSOLAN meetings

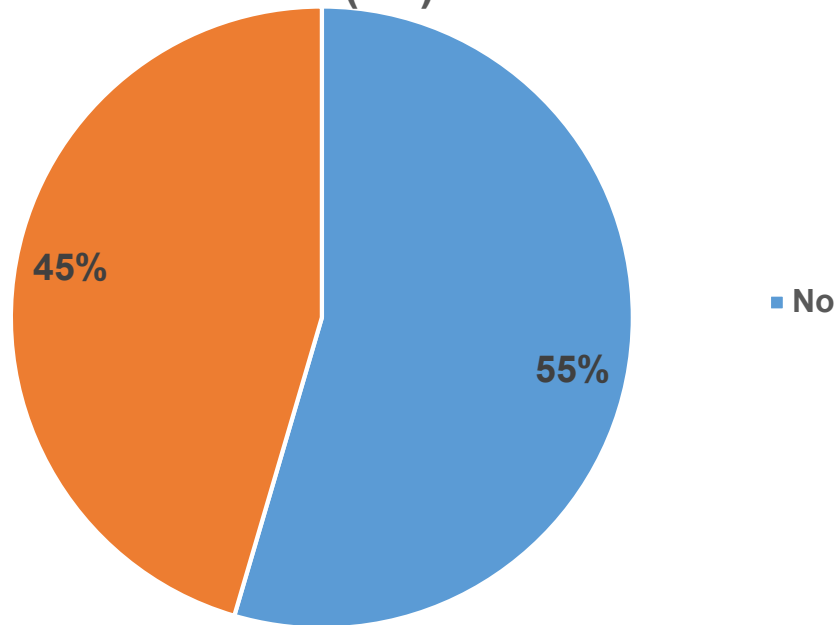

- Participation in previous LATSOLAN meeting
- Was it an useful experience? **YES**
- Why?
 - Share knowledge
 - Training opportunity
 - Good way to implement GLOSOLAN activities in the region
 - Chance to discuss about common needs
 - Powerful tool for dissemination of information
 - Participation in SOPs harmonization

Have you ever attended a meeting of your Regional Soil Laboratory Network?

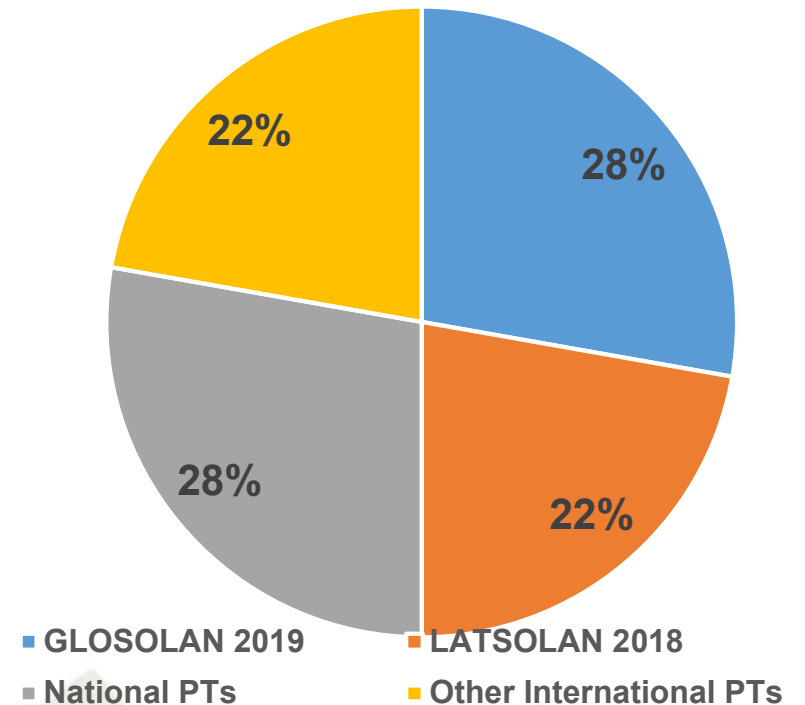

Participation in Proficiency Tests (PT)

Have you ever joined a Proficiency Test (PT)?

4th Meeting of the **Latin American Soil Laboratory Network (LATSOLAN)** | 22 October 2021

Training topics – most needed ones

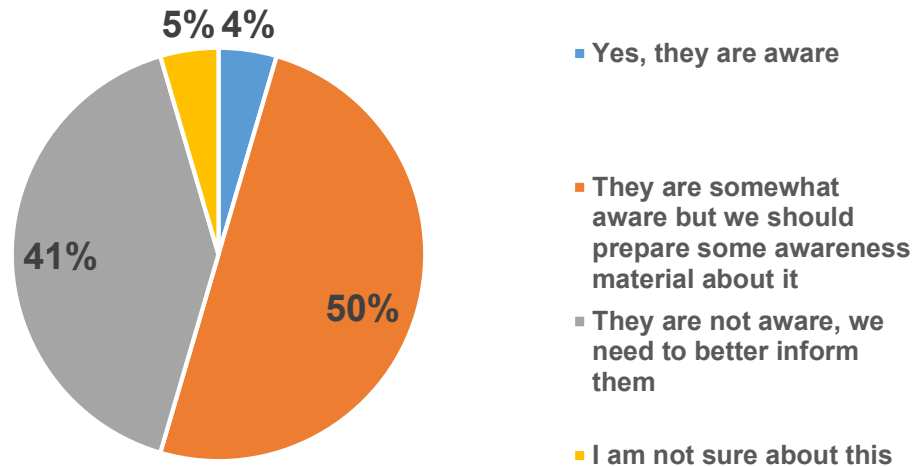

4th Meeting of the **Latin American Soil Laboratory Network (LATSOLAN)** | 22 October 2021

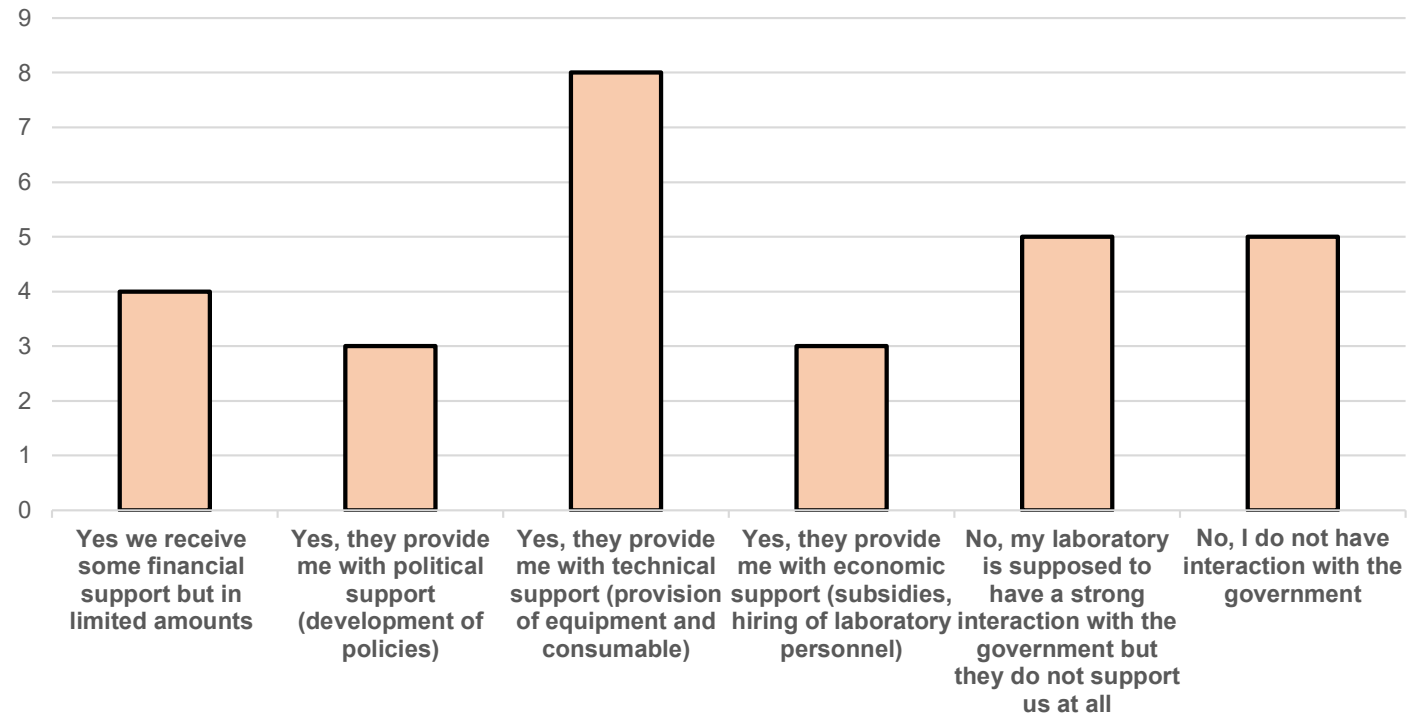

Awareness and support from the national and regional governments

Do you think that regional and national governments are aware of the importance of soil laboratories in producing good-quality soil data? Or more should be done to raise their awareness?

Is your government providing your laboratory with sufficient political, technical and economic support?

Do you think that LATSOLAN should facilitate the communication between soil laboratories and the central government? 77% said YES, 18% said MAYBE, 5% said NO
