Harmonizing SOP With Other Laboratories in North America

- Many laboratories in North America use analysis of the same name but differ in SOP.

Connecting With Other Laboratories in the North American GLOSOLAN Network

- It could be helpful for other laboratories in North America to connect with the USDA.
- It could be helpful for more laboratories in North America to join GLOSOLAN as a platform for discussion and cooperation amongst them. It's hard to have a "RESOLAN" comprising of mainly one actively participating facility.
- This may be something that GLOSOLAN can assist with, as a government agency the USDA is unable to recruit.

5th Meeting of the **Global Soil Laboratory Network (GLOSOLAN)** | 23-25 November 2021

Potential for Involvement in Other RESOLAN Meetings

- Is there a possibility of the USDA being involved in other RESOLAN meetings, perhaps as an observer?
- This may facilitate cooperation throughout the year.
