[Action Plan on Prevention and Control of Soil Pollution.](#) 

This Action Plan on Prevention and Control of Soil Pollution is a cross-sectoral Plan issued by the State Council regarding prevention and remediation of soil pollution to comprehensively improve the nation's soil quality by the mid-21st century.

The coverage of the Plan is national. China's soil quality is facing severe challenges, due to adverse natural conditions in some regions, as well as anthropic factors including irrational mining and...
