5th African Soil Partnership plenary meeting

**VIRTUAL MEETING
6-7 JULY 2021**

Brief Overview of the African Soil
Partnership: Accomplishments,
Challenges and the Way Forward

Prof. Victor Chude, Chair AfSR

Achievements of AfSP from 2020 to date

- **Collaborated with the GSP Secretariat to get national experts to participate in the online training for national experts in soil salinity mapping from 11-22 May 2020.**
- **Some AfSP members participated in the Eighth GSP Plenary Assembly meeting held from 3-5 June 2020.**
- **Fourth Meeting of the African Soil partnership came off on 29 September 2020 via Zoom even though received low participation.**

5th African Soil Partnership plenary meeting | 6-7 July 2021

Achievements of AfSP from 2020 to date Cont'd

- **Some countries (Nigeria, South Africa and Senegal) in the region held events to celebrate WSD. The events to celebrate the day was centred on the theme for the year while continuing to raise awareness on the need for healthy soils for healthy living and sustainable food production.**
- **Participation of some countries in Module I of the training of national experts in the preparation of the Global Soil Organic Carbon Sequestration (GSOCseq) map from 14-18 December 2020.**
- **Participation of some African countries in Module I repeat (international training) held for all countries who could not participate in the December training from 15-19 February 2021.**
- **Some countries continuous engagement with the GSP Secretariat on Module II of the GSOCSeq trainings ongoing between February and March 2021 based on extra assistance needed to produce the maps.**

5th African Soil Partnership plenary meeting | 6-7 July 2021

Challenges

- Financial resources
- Low commitment and support from different governments on the issues of soils and the GSP.
- Uncertainty of focal points/countries engagement on the different activities of the GSP for implementation.
- Infrastructure challenges especially with internet services (*which has made it difficult for some countries to participate in online meetings and trainings within this COVID era*)
- Some focal points lack the skills on how to engage with the FAO country offices and other organisations and institutions to collaborate for resource mobilization and implementation of activities. (capacity building needed).

5th African Soil Partnership plenary meeting | 6-7 July 2021

Future Plans

- **Support implementation of the Voluntary Guidelines on Sustainable Soil Management and Fertiliser Use Management Code at regional/national level.**
- **Support implementation of the Soil Doctor programme at regional/national level.**
- **Improve the participation of focal points in GSP/AfSP activities through Working Groups for identified Areas of Work.**
- **Enhance participation of focal points in programmes and projects by connecting them to partners.**
- **Participation in other activities and trainings organised by the GSP/AfSP.**
