

Table 10.1. Some examples with specifications for commonly used commercial striped catfish feed, Viet Nam (for larval stage).

| Brand name | Manufacturer | Country of origin | Life stage | Fish size (g) | Feed type/ specification | Feed/ pellet size | Proximate composition (%) | | | | | | |
|------------|--------------|-------------------|------------|---------------|--------------------------|-------------------|---------------------------|---------------------|-------------------|---------------------|----------|---------|-----------------|
| | | | | | | | Moisture (Max) | Crude protein (Min) | Crude fiber (Max) | Carbohy-drate (Max) | Ca Range | P Range | DE (kJ/g) (Min) |
| VT1 | Viet Thang | Viet Nam | Larvae | <1 | Crumble | 1 | 11 | 40 | 5 | | | | 3300 |
| 5001 | Proconco | Viet Nam | Larvae | | Crumble | | | 40 | 5 | 2 | 1 | | |
| VA8801 | Viet Anh | Viet Nam | Larvae | <1 | Powder/Crumble | 0.5-1 | 11 | 40 | 6 | | | | |

Table 10.2. Some examples with specifications for commonly used commercial striped catfish feed, Viet Nam (for fry stage).

| Brand name | Manufacturer | Country of origin | Life stage | Fish size (g) | Feed type/ specification | Feed/ pellet size | Proximate composition (%) | | | | | | |
|------------|--------------|-------------------|------------|---------------|--------------------------|-------------------|---------------------------|---------------------|-------------------|--------------------|----------|---------|-----------------|
| | | | | | | | Moisture (Max) | Crude protein (Min) | Crude fiber (Max) | Carbohydrate (Max) | Ca Range | P Range | DE (kJ/g) (Min) |
| VT2 | Viet Thang | Viet Nam | Fry | 1-5 | Crumble | 1.5 | 11 | 35 | 5 | | | | 2800 |
| 5002 | Proconco | Viet Nam | Fry | | Crumble/Pellet | 1 | | 35 | | | | | |
| 5003 | Proconco | Viet Nam | Fry | 1-4 | Crumble/Pellet | 1-1.5 | | 35 | 6 | 2 | 1 | | |
| VA8802 | Viet Anh | Viet Nam | Fry | 1-5 | Crumble/Pellet | 1-1.5 | 11 | 35 | 6 | | | | |

Table 10.3. Some examples with specifications for commonly used commercial striped catfish feed, Viet Nam (for fingerling stage).

| Brand name | Manufacturer | Country of origin | Life stage | Fish size (g) | Feed type/ specification | Feed/ pellet size | Proximate composition (%) | | | | | | |
|------------|--------------|-------------------|------------|---------------|--------------------------|-------------------|---------------------------|---------------------|-------------------|---------------------|----------|---------|-----------------|
| | | | | | | | Moisture (Max) | Crude protein (Min) | Crude fiber (Max) | Carbohy-drate (Max) | Ca Range | P Range | DE (kJ/g) (Min) |
| VT3 | Viet Thang | Viet Nam | Fingerling | 5-10 | Pellet | 2.5 | 11 | 30 | 5 | | | | 2400 |
| VT4 | Viet Thang | Viet Nam | Fingerling | 10-20 | Pellet | 2.5 | 11 | 30 | 5 | | | | 2400 |
| VT5 | Viet Thang | Viet Nam | Fingerling | 14-150 | Pellet | 4 | 11 | 28 | 6 | | | | 2100 |
| VHF-26 | Vinh Hoan | Viet Nam | Fingerling | 20-200 | Pellet | | 11 | 26 | 7 | | 1 | | 2100 |
| VHF-28 | Vinh Hoan | Viet Nam | Fingerling | 20-200 | Pellet | | 11 | 28 | 7 | | 1 | | 2100 |
| VL36-2 | Viet Long | Viet Nam | Fingerling | | Pellet | 2 | 11 | 35 | 7 | 2 | 1 | | 2600 |
| VL32-2 | Viet Long | Viet Nam | Fingerling | | Pellet | 2 | 11 | 30 | 6 | 2 | 1 | | 2600 |
| VL32-3 | Viet Long | Viet Nam | Fingerling | | Pellet | 3 | 11 | 30 | 7 | 2 | 1 | | 2600 |
| 5004 | Proconco | Viet Nam | Fingerling | 4-14 | Crumble/Pellet | 1.5-2.2 | | 30 | | | | | |
| 5005 | Proconco | Viet Nam | Fingerling | 14-150 | Pellet | 1.5-2.2-3 | | 28 | 6 | 2 | 1 | | |
| VA8803 | Viet Anh | Viet Nam | Fingerling | 5-20 | Pellet | 2-3 | 11 | 30 | 7 | | | | |
| VA8804 | Viet Anh | Viet Nam | Fingerling | 20-200 | Pellet | 3-6 | 11 | 28 | 7 | | | | |
| VA8805 | Viet Anh | Viet Nam | Fingerling | 20-200 | Pellet | 5-7 | 11 | 26 | 7 | | | | |

Table 10.4. Some examples with specifications for commonly used commercial striped catfish feed, Viet Nam (for grow-out stage).

| Brand name | Manufacturer | Country of origin | Life stage | Fish size (g) | Feed type/ specification | Feed/ pellet size | Proximate composition (%) | | | | | | |
|------------|--------------|-------------------|------------|---------------|--------------------------|-------------------|---------------------------|---------------------|-------------------|---------------------|----------|---------|-----------------|
| | | | | | | | Moisture (Max) | Crude protein (Min) | Crude fiber (Max) | Carbohy-drate (Max) | Ca Range | P Range | DE (kJ/g) (Min) |
| VT6 | Viet Thang | Viet Nam | Adult | 150-300 | Pellet | 8 | 11 | 26 | 7 | | | | 2100 |
| VT7 | Viet Thang | Viet Nam | Adult | 300-600 | Pellet | 10 | 11 | 22 | 7 | | | | 1800 |
| VT8 | Viet Thang | Viet Nam | Adult | 600-1000 | Pellet | 10 | 11 | 22 | 7 | | | | 1800 |
