

Table 4. Summary of dietary nutrient requirement and utilization of striped catfish.
 (requirement expressed for dry feed except otherwise where mentioned)

Nutrient level	Life stage/size class
	Fingerling
Crude protein, % min	38.5
Crude protein, g/kg body weight/day	
Amino acids, % min of dietary protein	
Lysine	5.35
Methionine	2.67
Crude lipid, % min	6.5
Carbohydrate, % max	47
Crude fibre, % max	2
Gross energy, min kJ/g	21
