8 April 2021

🕒 9:30-11:30 EDT
15:30 – 17:30 CET

🗨️ English, French and Spanish

Task Force on Antimicrobial Resistance Code of Practice to Minimize and Contain Foodborne AMR

Objective

The objective of this webinar is to provide an update on work taking place in Codex on the revision of the *Code of Practice to Minimize and Contain Foodborne Antimicrobial Resistance*.

With expert presentations from countries leading the work, participants will gain an insight on the significant advancements in AMR risk management contained in the revision to the Code of Practice recalling that the document was adopted at Step 5 at the last Codex Alimentarius Commission. An overview of key issues that have received substantive discussion throughout the development of the text that may be useful for next steps in the Codex process will also be provided.

This event will enable the EWG Chairperson and co-chairpersons to listen to comments on the current draft of the Code of Practice. It will facilitate their ongoing work to build consensus and finalize the text at the upcoming TFAMR for final adoption by CAC.

The webinar will feature interactive surveys and live question and answer sessions with opportunities to learn and *contribute*.

CODEX ALIMENTARIUS

PROGRAMME

PART 1 **Welcome** *EWG Chairperson*

Introduction *Codex Secretariat*

General approach to and overview of the revision of the Code of Practice

This Section will feature a series of presentations on the key accomplishments and advances made by the EWG to date and will also provide the opportunity for participants to comment and exchange views through a question and answer segment.

PART 2 **Presentation of the Code of Practice**

-
- Introduction
 - Scope
 - Definitions
 - General Principles
