

Types of adaptation

- Need to be explicit that there are many types of 'adaptation'
 - Reactive vs anticipatory
 - Insurance, diversification, migration
- Some are more desirable than others
 - Are there mal-adaptations which lead to social traps and reduced long-term adaptive capacity?

Scales of analysis

- Analysis and mapping of:
 - Climate impacts
 - Vulnerability
 - Adaptive Capacity
- Can be done at various scales:
 - National (e.g. economies)
 - Regional (e.g. deltaic areas)
 - Sectoral (e.g. Industrialised cereal producers)
 - Community (e.g. a particular village)
 - Group (e.g. women)
 - Household
 - Individual
