

Facilitating Tech Adoption by Farmers Globally by Using Open-Source Decentralized Platforms

By Dr. Harry Hunter

Tech Adoption Challenges for Farmers

- Lack of access
- High costs
- Lack of knowledge and skills
- Resistance to change

Trust Building With Open-Source Decentralized Platforms

- Assurance that farmers are in control of their data
- Transparency of data pipelines
- Low-cost solutions

Benefit of Decentralized Platforms for Farmers

- 
- Access to affordable and innovative technology
 - Greater control and transparency of data
 - Reduced dependency on big tech companies
 - Potential for more sustainable and efficient farming practices
 - Improved market access and profitability
- 

The Potential of Open-Source Decentralized Platforms

- Breaking away from big tech monopolies
- Showcasing the potential of blockchain technology beyond cryptocurrency
- Working together to solve global issues in agriculture

“The future is already here – it’s just not evenly distributed.” -William Gibson
