

Kagera TAMP Project - FAO

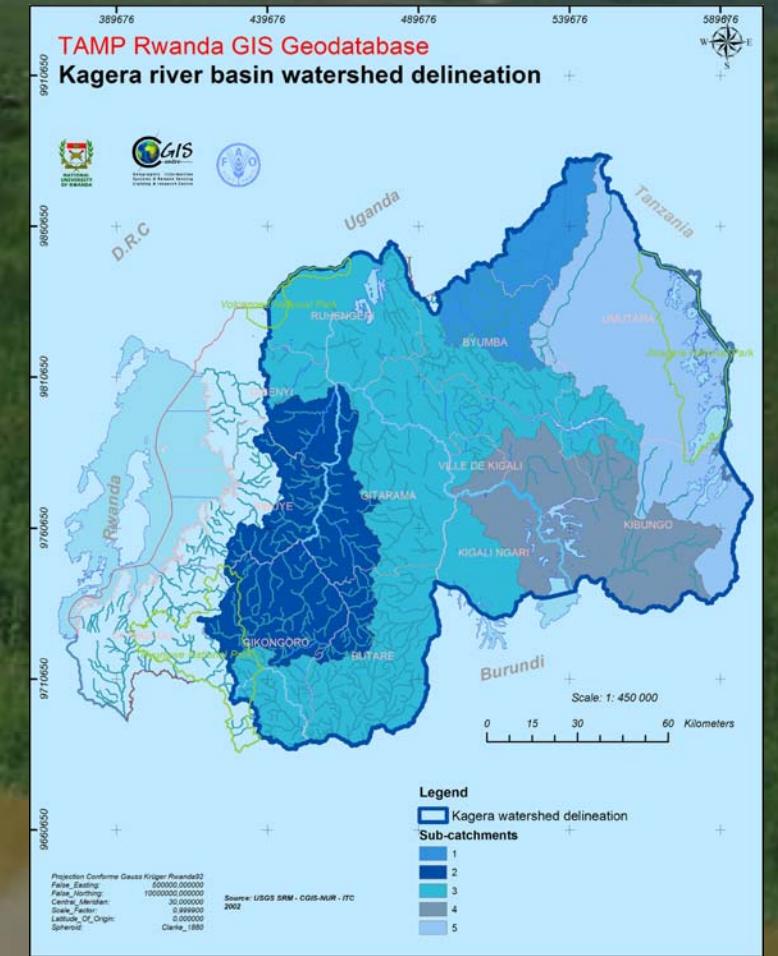

Rwandan GIS database

Baseline maps and spatial trends

Centre for Geographic Information Systems
and Remote Sensing
National University of Rwanda

www.cgisnur.org

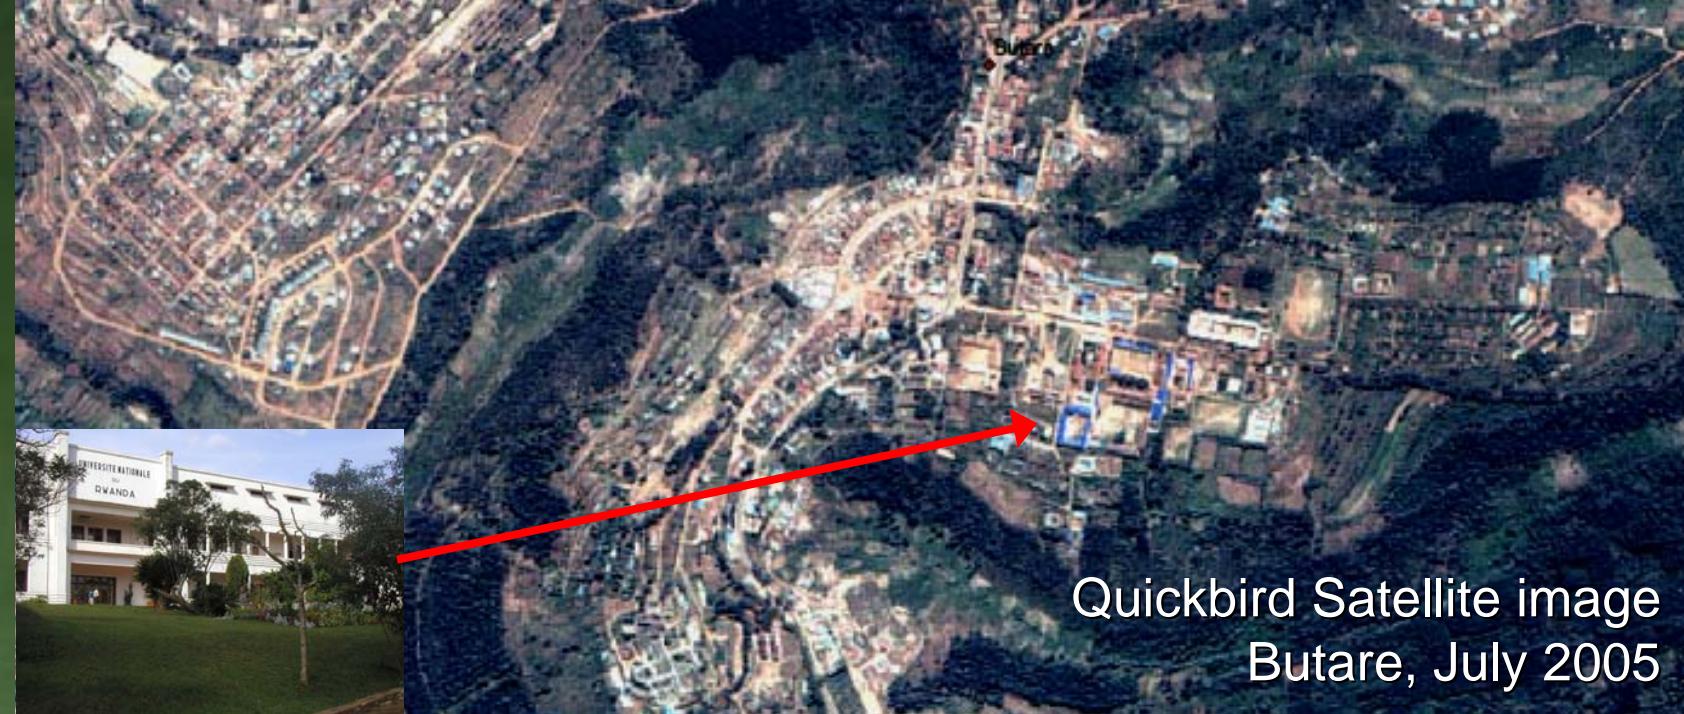

Outline

- Background and objectives of the GIS-RS component
- Datasets used : TAMP GIS database
- Results
 - Baseline thematic maps
 - Trends (spatial)
- Future administrative boundaries
- Data sharing and access

The CGIS-NUR

An Interfaculty Centre of the National University of Rwanda

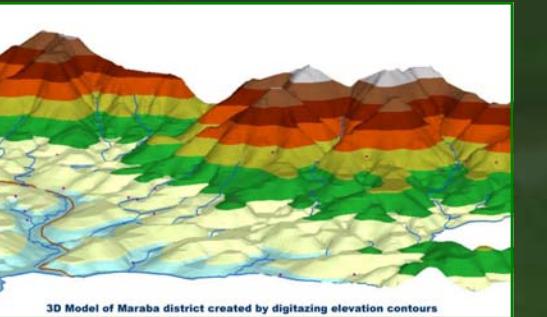

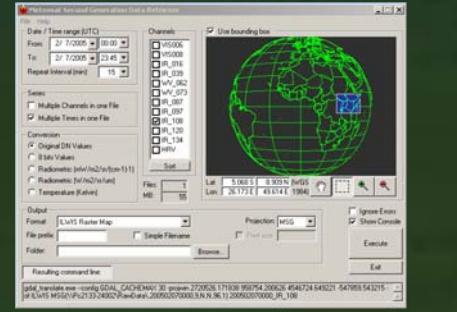

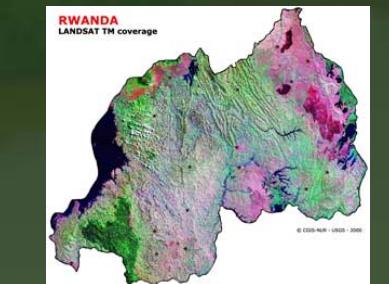

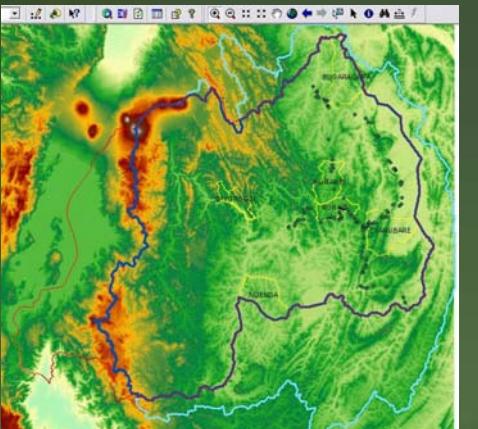

- Training and Research Centre in the fields of Geographic Information Systems and Remote Sensing, created in 1999;
- Supported by the Government Of Rwanda (GoR) through the Rwanda Development Gateway Group;
- Towards a National Geographic Institute

We are Moving to a Geodata Rich Society

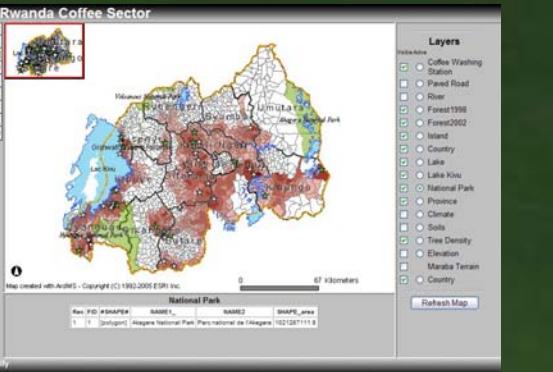

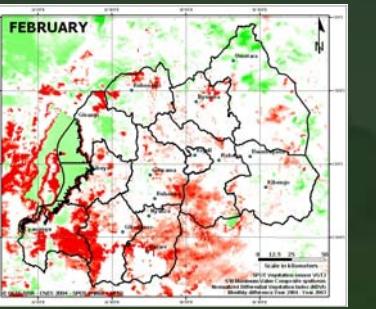

More “Geospatial” Information

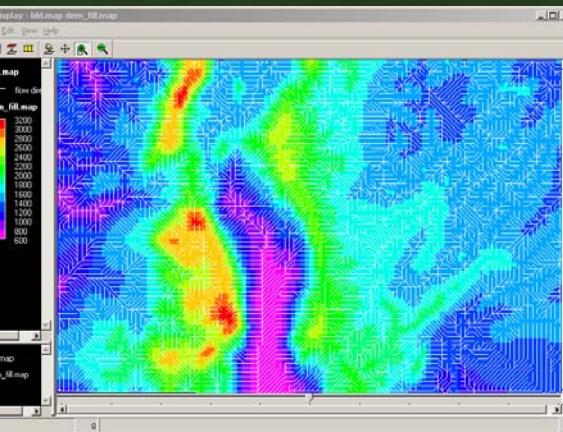

Remote
Sensed
Databases

- GPS / Location Data
- Satellite Imagery (100x)
- Geo-Demographic Data
- Real Time Monitoring

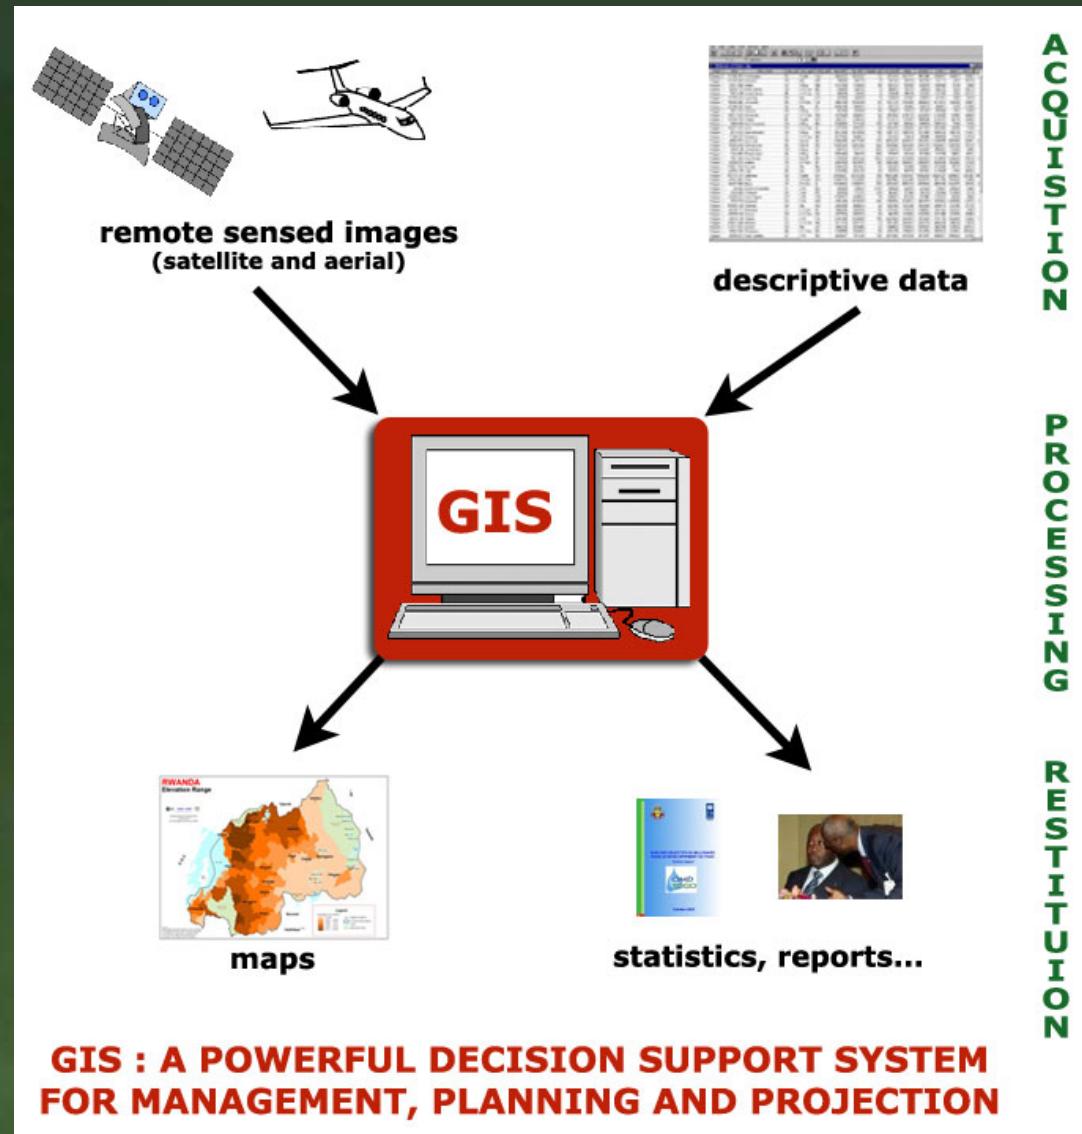

Vector Databases

GIS Is Particularly Valuable

As a Tool to Manage and Analyse Spatial Information

Objectives of the GIS and Remote Sensing component

Rwanda

- Contribute to collecting spatial database
- Develop a computerized GIS including:
 - Base-line data
 - Historical data
 - Analysis
- Spatial analysis of recent changes and trends

Spatial databases...

Image and vector DB

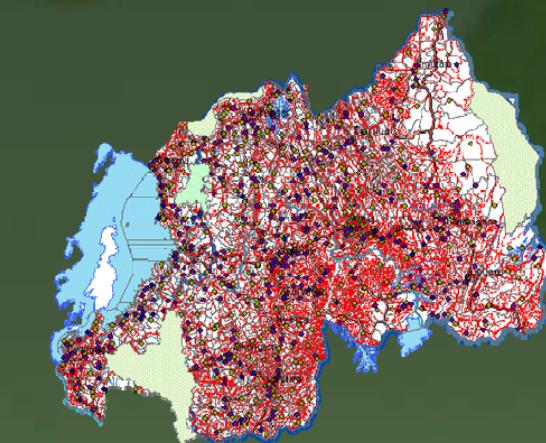

- **IMAGE DATABASE**

- satellite image
- aerial photography
- scanned maps

- **VECTOR DATABASE**

- ‘foundation’ national databases
- other spatial databases

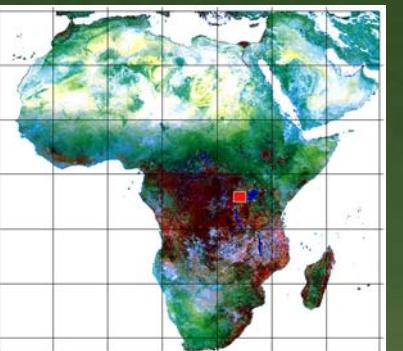

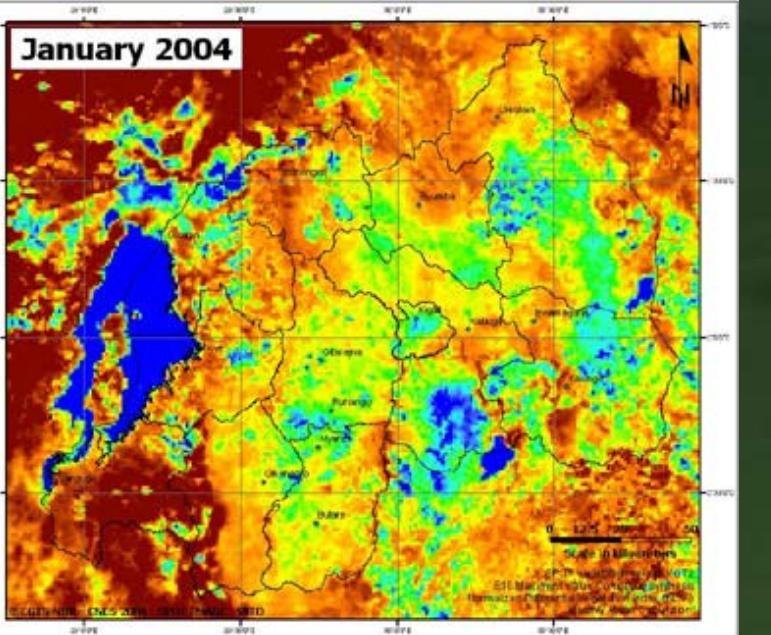

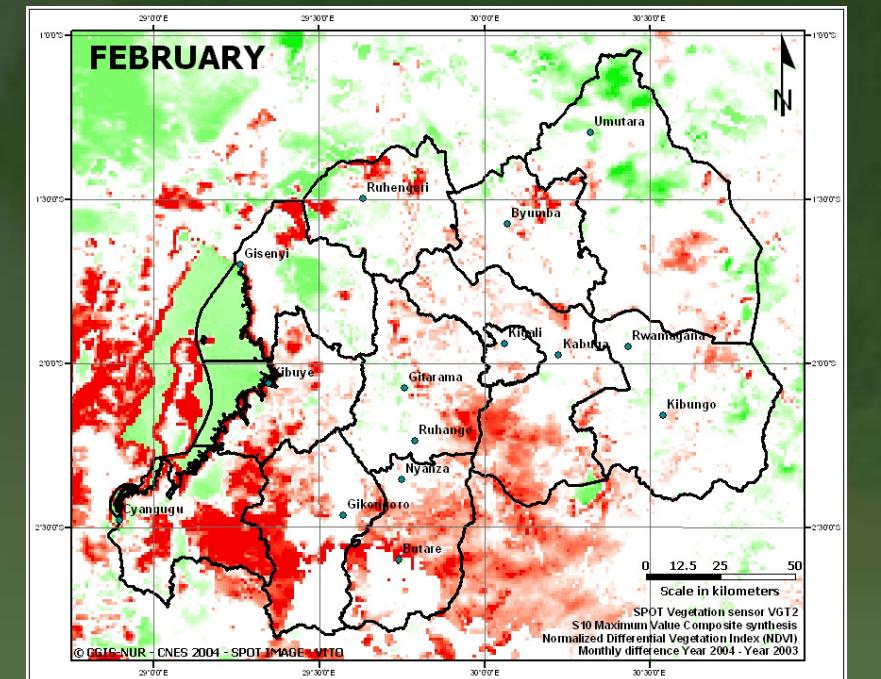

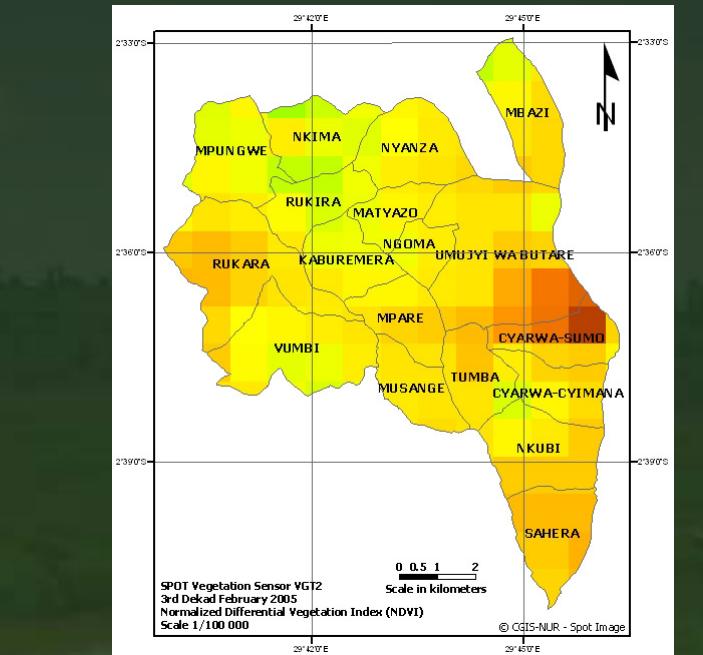

Satellite	Pixel size
SPOT VGT	1 kilometer
SPOT HRV	20 m multi. 10 to 5 m panchro.
LANDSAT	30 m multi. 15 m panchro.
ASTER	15 meters
QUICKBIRD	61 centimeters

Satellite databases...

SPOT Vegetation

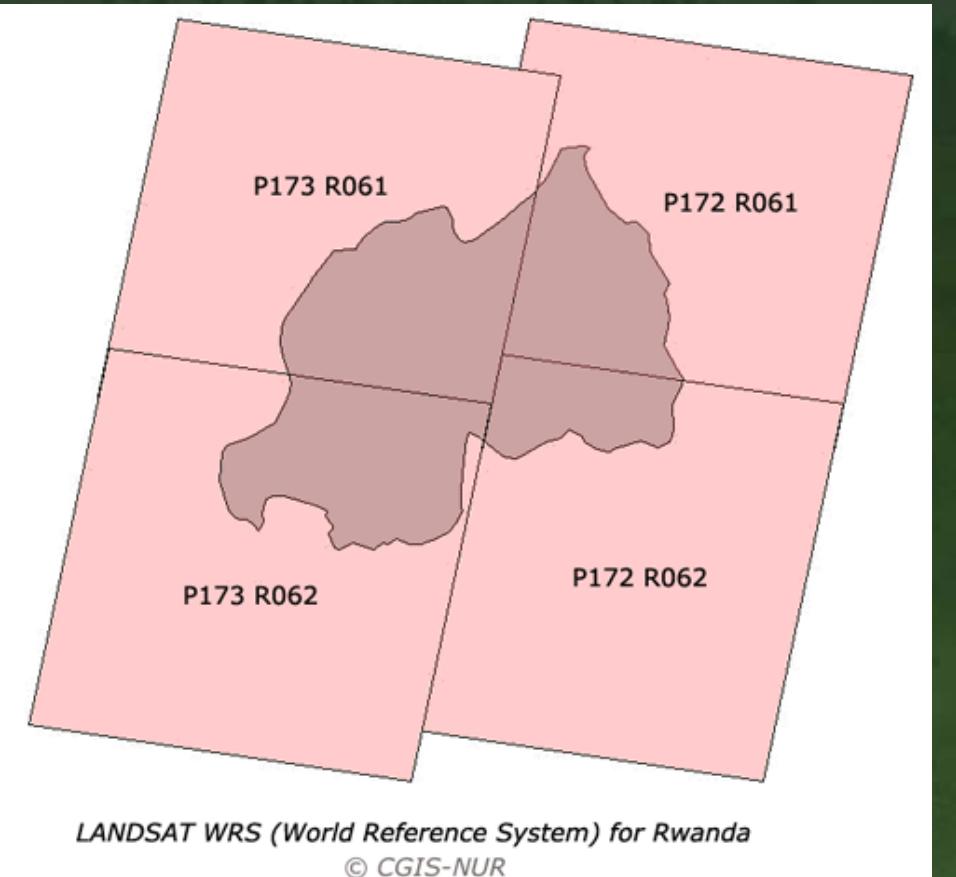

- Coverage : national (continental)
- Spatial resolution : 1 kilometer
- Dates : dekads from 1998 up to now
- Applications : vegetation monitoring, food security and early warning systems etc.

Satellite databases...

Landsat

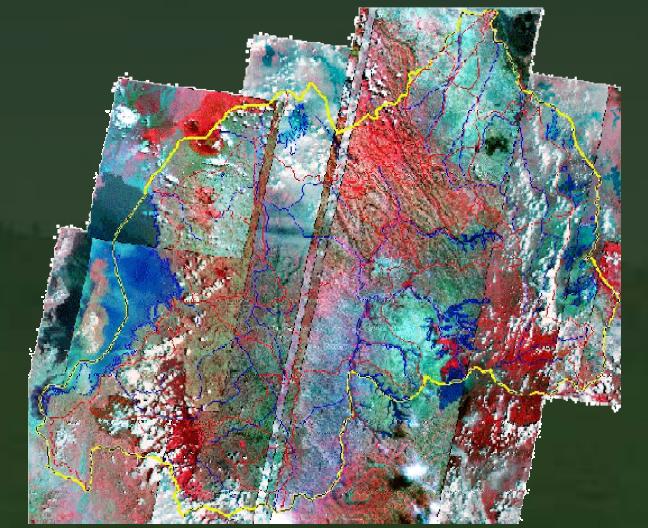

- *Spatial resolution : 15 to 30 meters*
- *Dates : from 70's up to now*
- *Applications : land use/land cover, forest, environment monitoring, change detection*

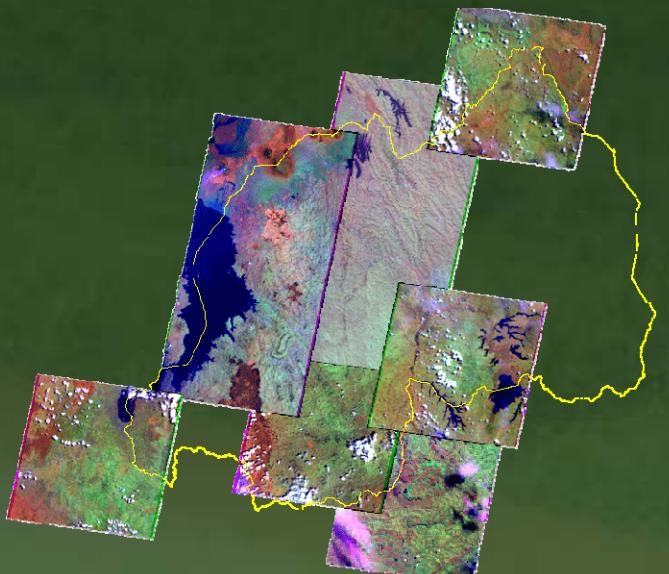

Satellite databases...

Aster

- *Spatial resolution : 15 meters*
- *Dates : from 70's up to now*
- *Applications : land use/land cover, forest, environment monitoring, change detection*

Aster coverage 2003

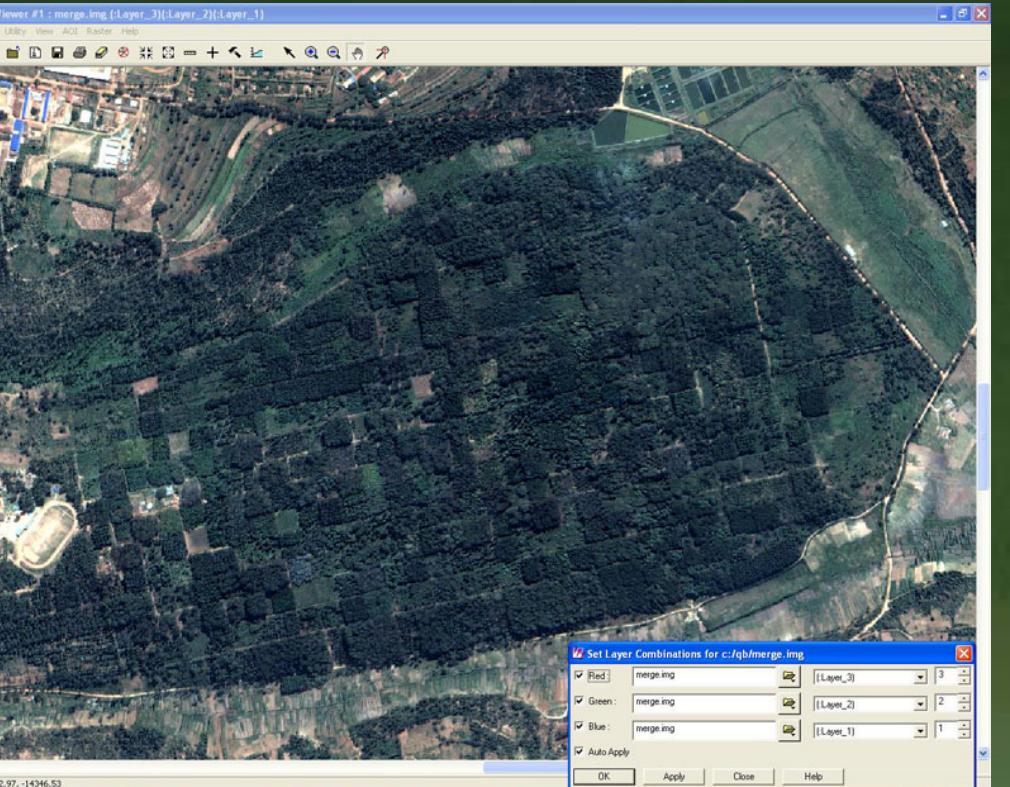

Aster coverage 2004-2005

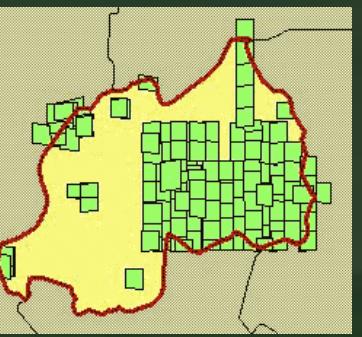

Satellite databases...

Quickbird

- Coverage : 100 to 200 km²
- Spatial resolution : 60 centimeters
- Dates : from 1999 up to now
- Applications : urban planning, cadastre, cartography

Quickbird archive

Ikonos archive

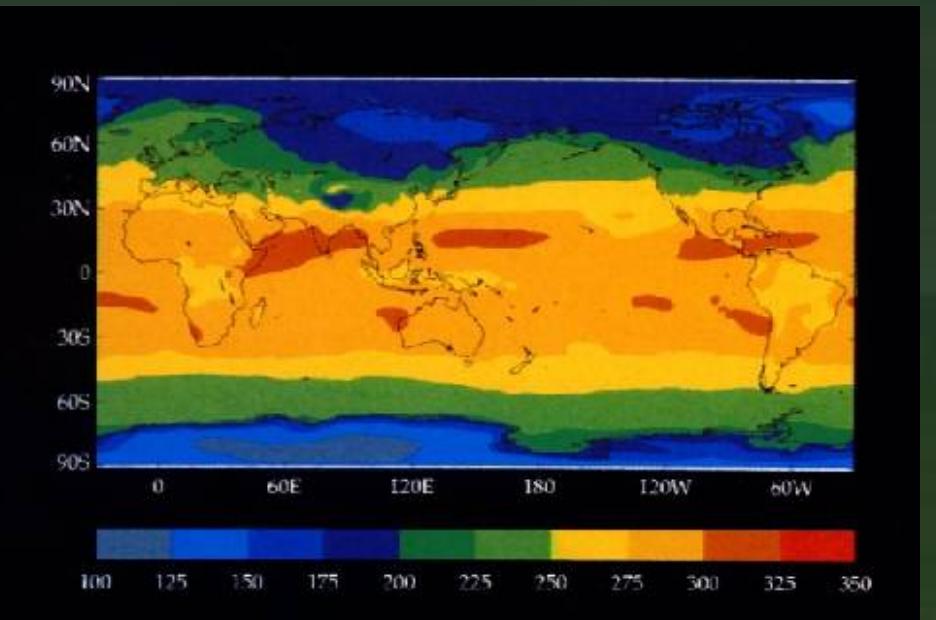

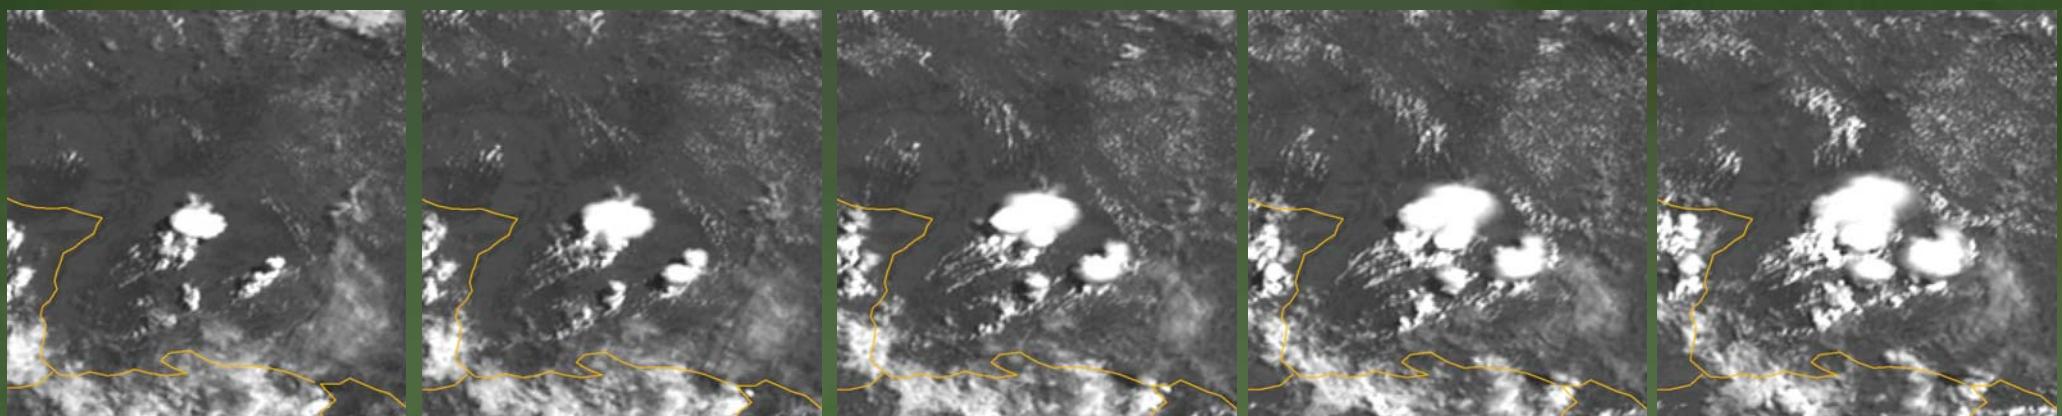

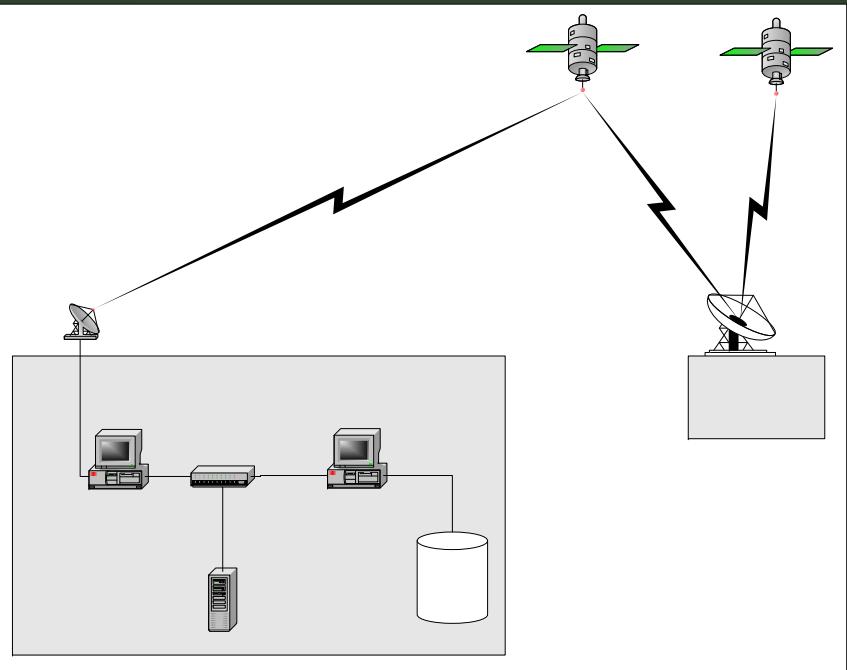

Butare July 2005

Satellite databases...

METEOSAT 2nd generation

- Coverage : **national**
- 1 image each 15 mns
- 12 channels
- Applications : **vegetation, fires monitoring, meteorology** etc.

+ meteorological station
+ gauging station

Field data collection

Ground data for image classification

- **Field data collection**

- Mobile GIS system
- Direct link to GIS Desktop
- Accuracy
- Reliability

Pocket PC
Coupled GPS

Property	Value
H_EMERG...	abc 25
COVER_EM...	abc 60% eucalyptus
H_TREES	abc 8
COV_TREES	abc 10%
H_SSHRUB	abc 4
COV_SHRUB	abc 5
COV_LOW	abc 70

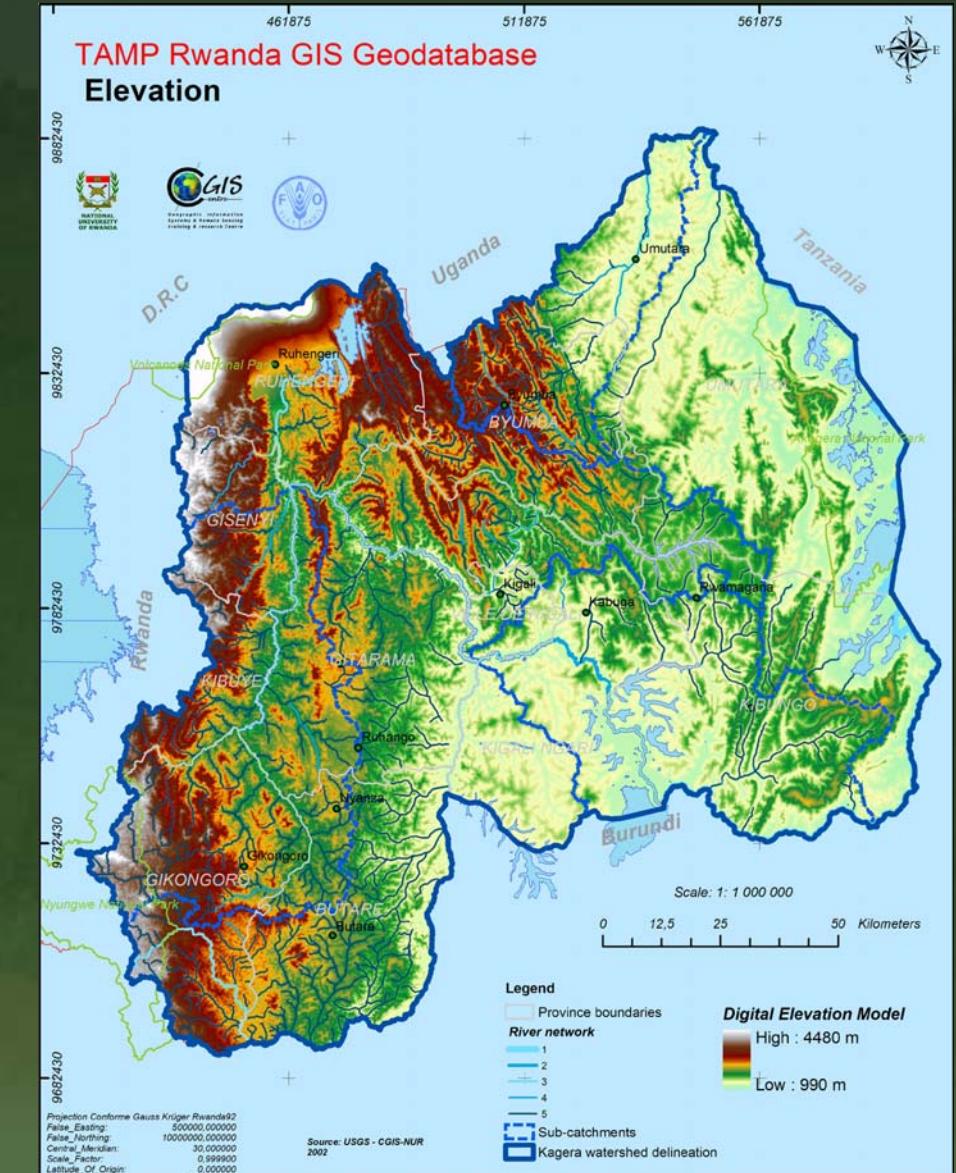

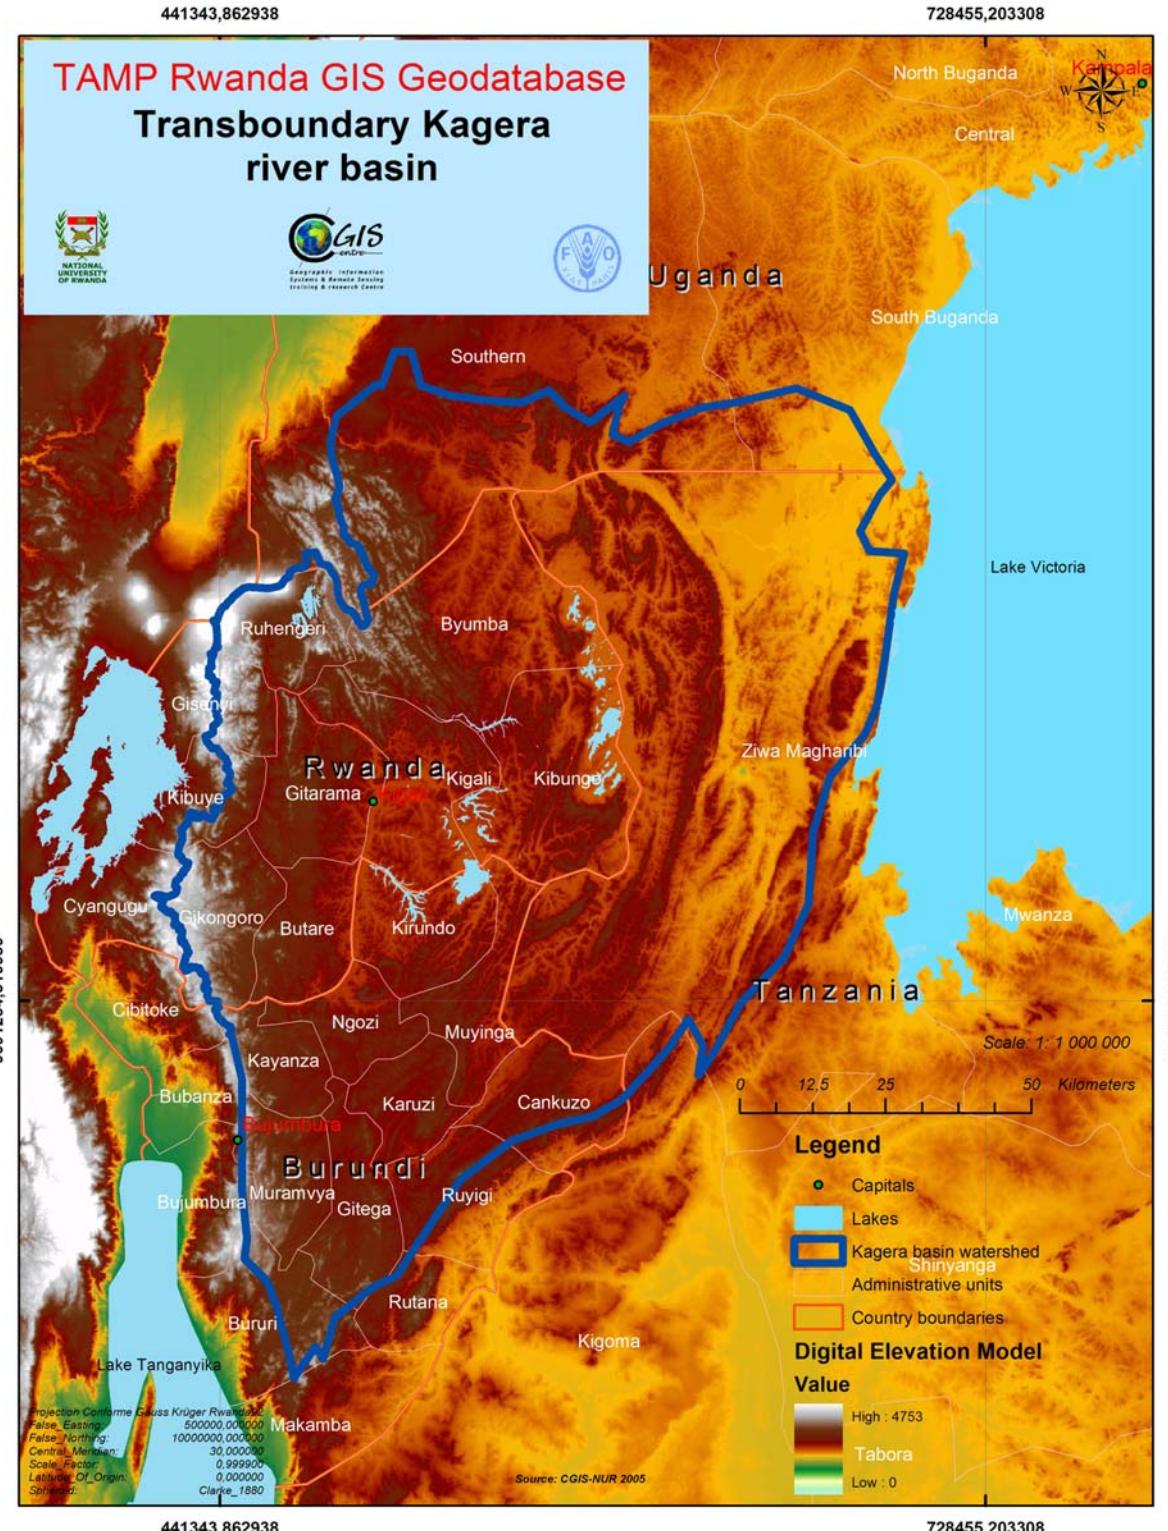

ArcPAD Mobile GIS

- **Field visits**

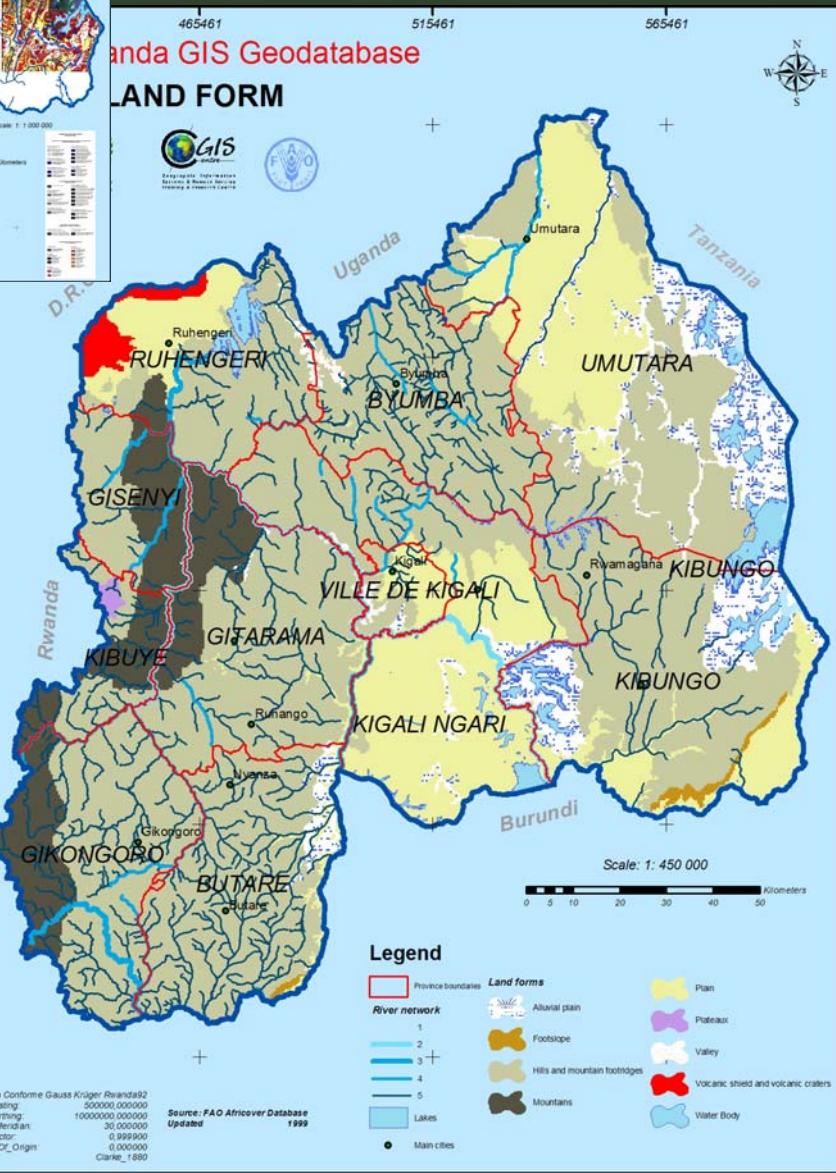

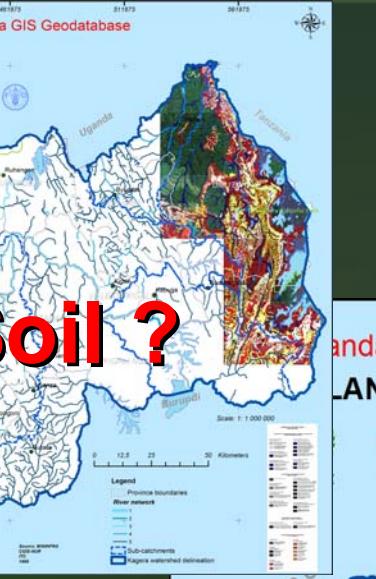

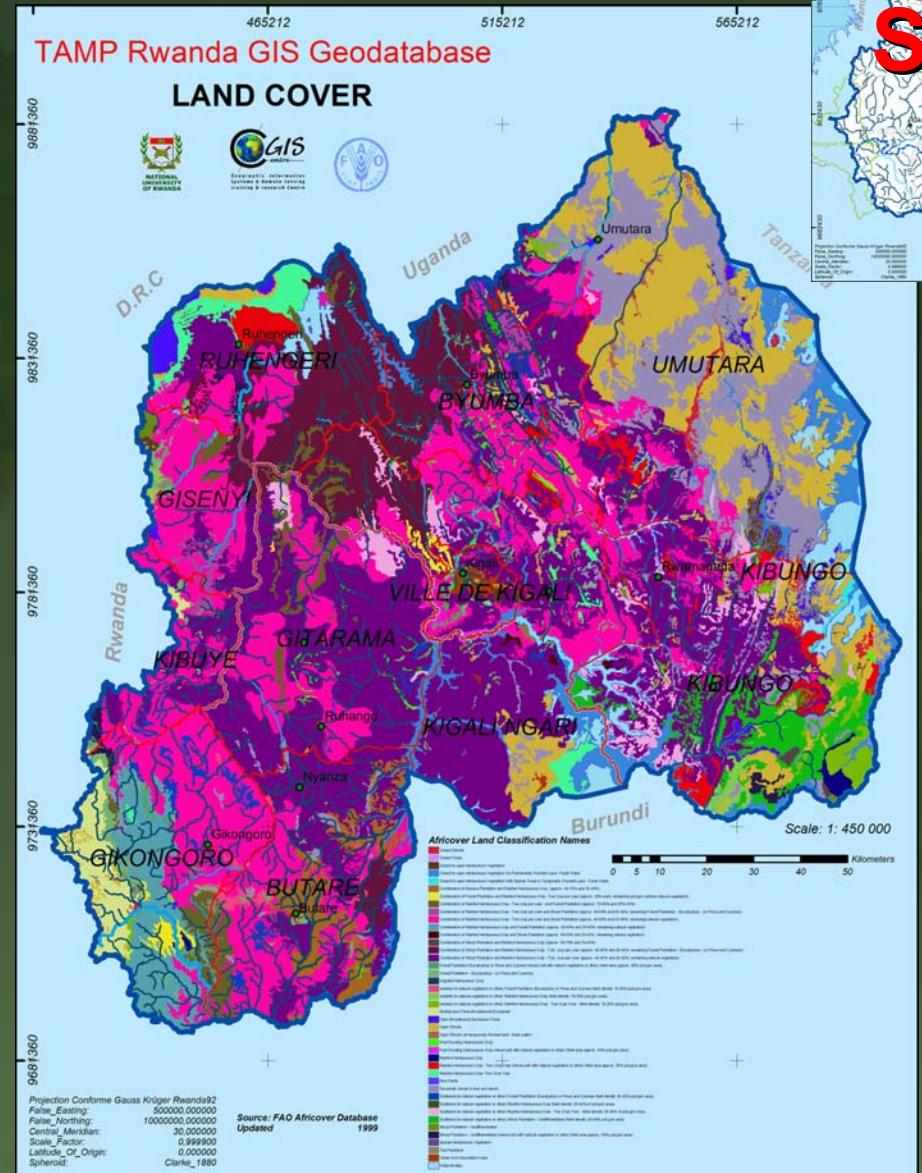

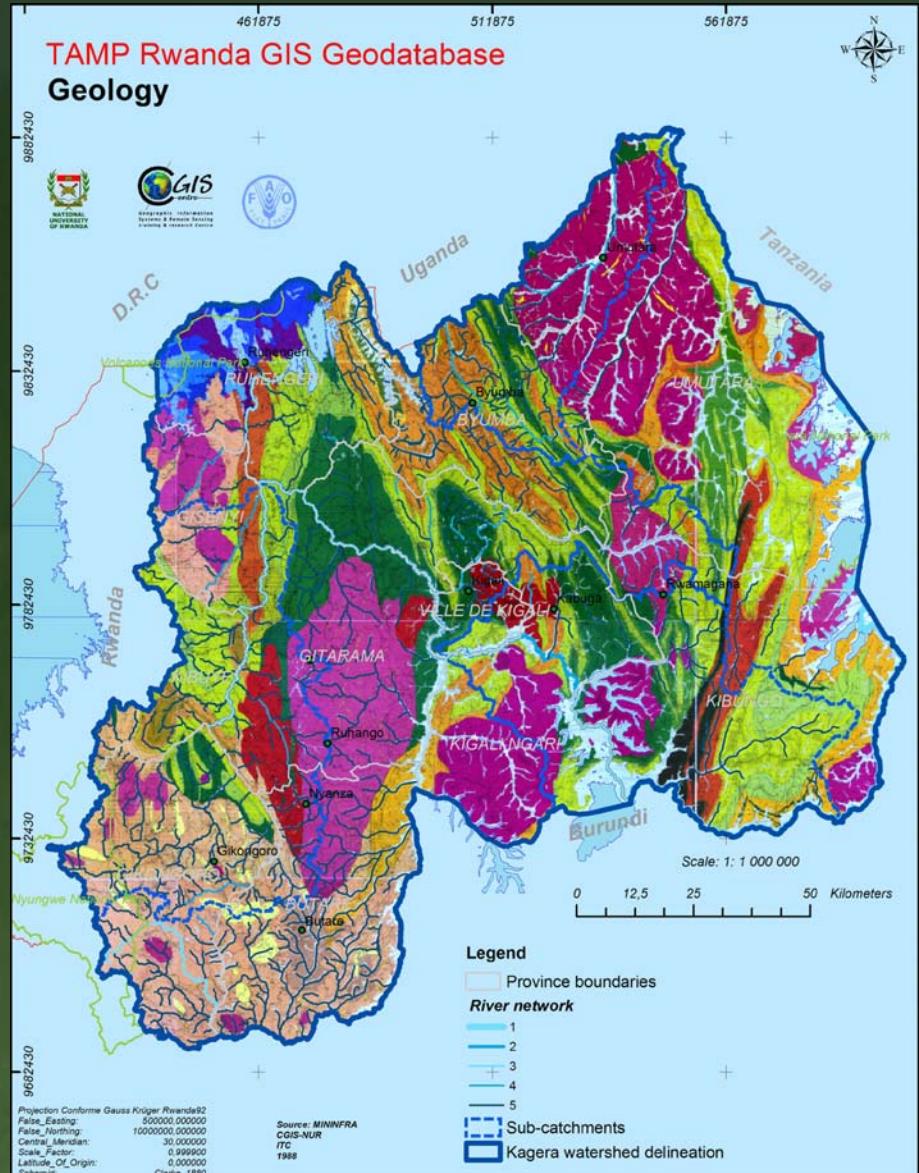

TAMP baseline maps

Kagera river basin

TAMP baseline maps

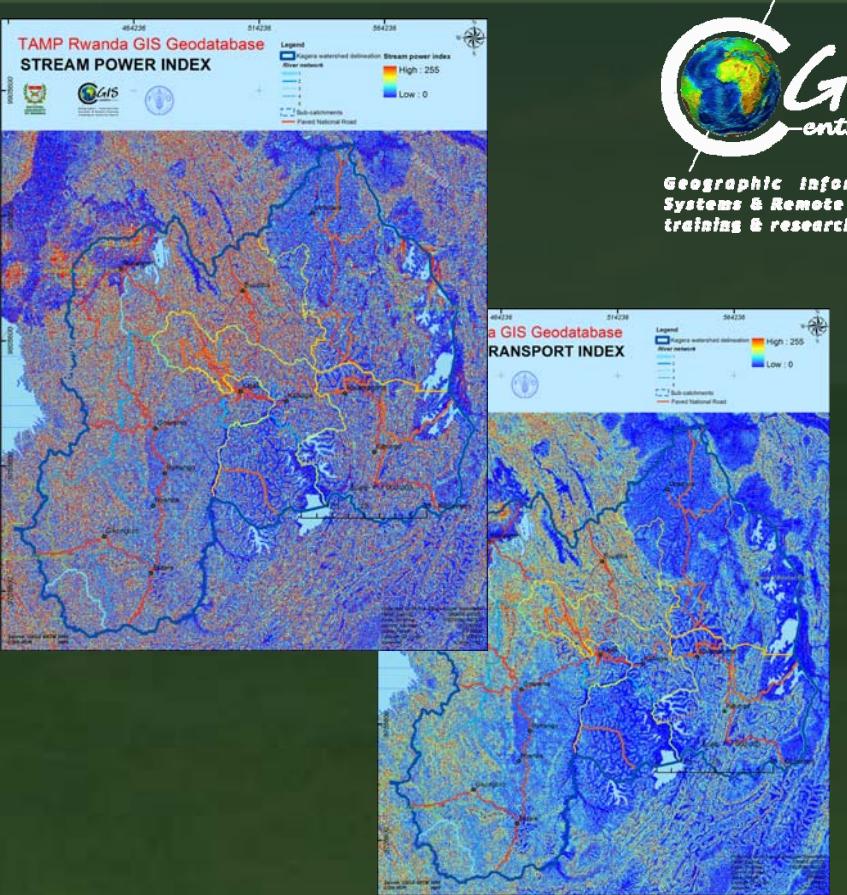

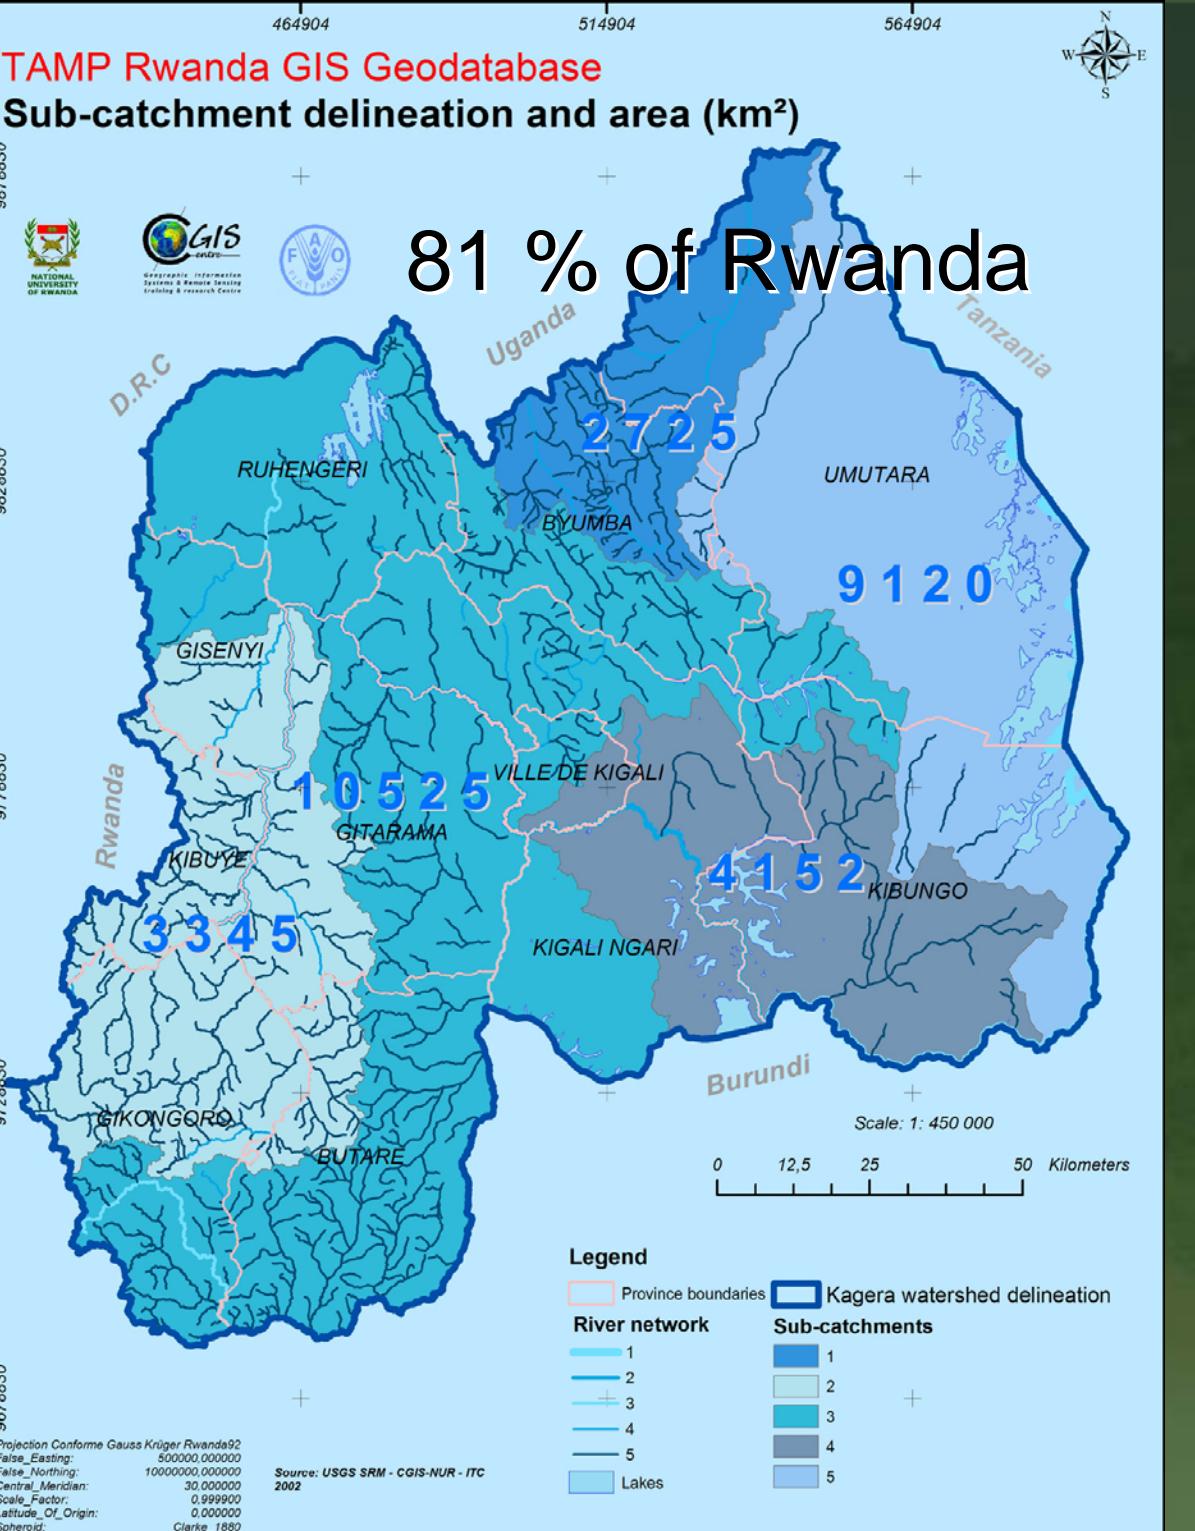

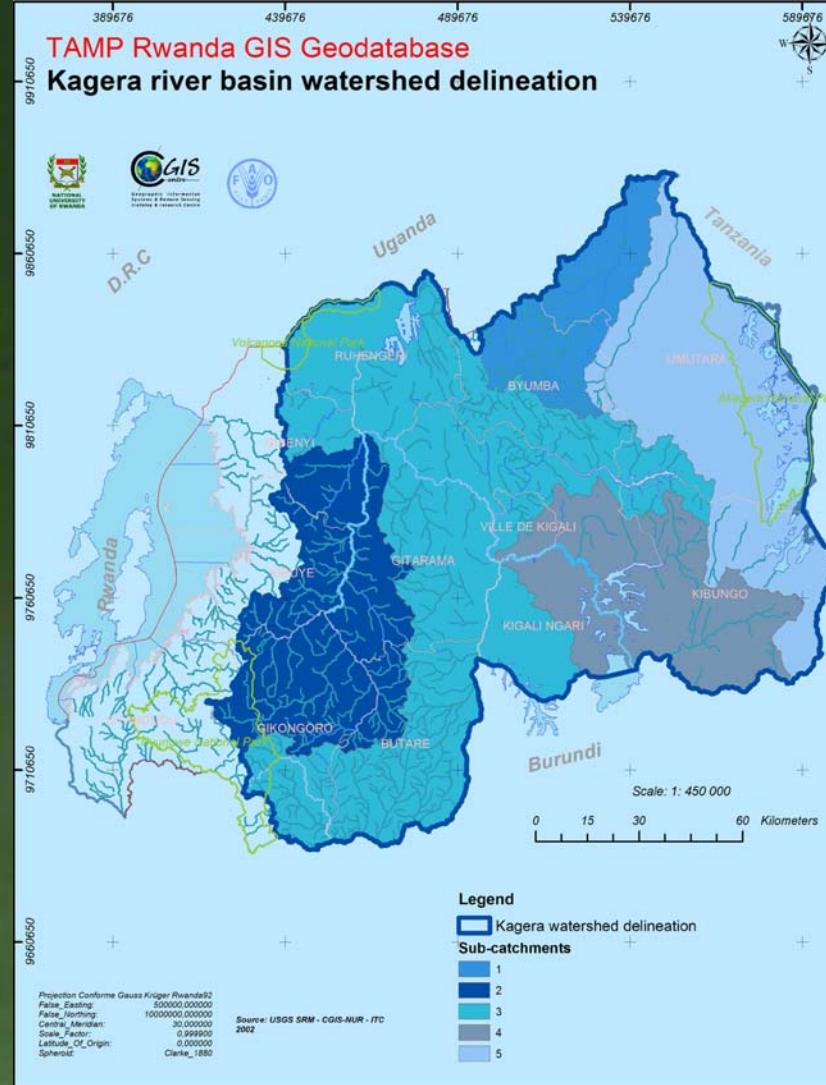

Physical maps

TAMP baseline maps

Hydrology

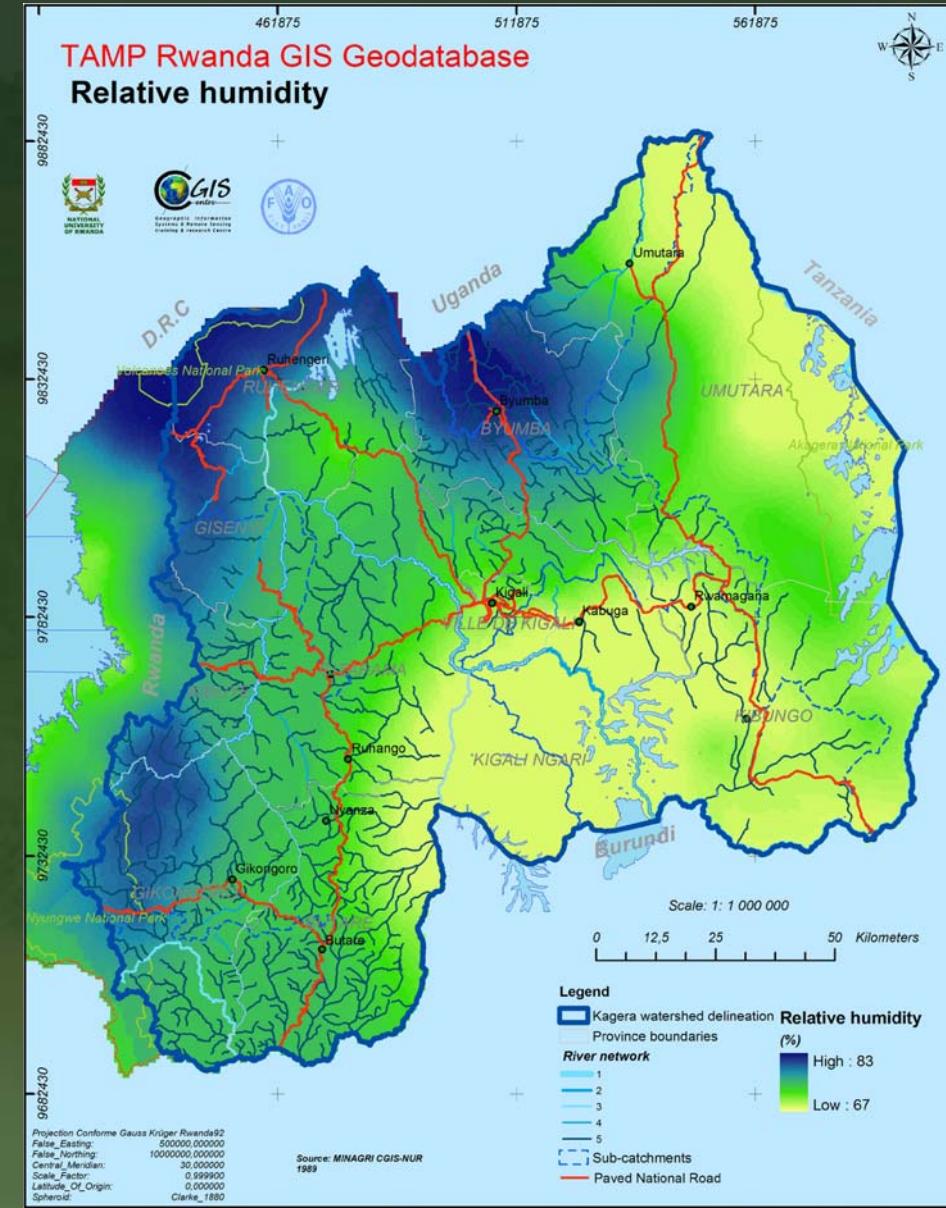

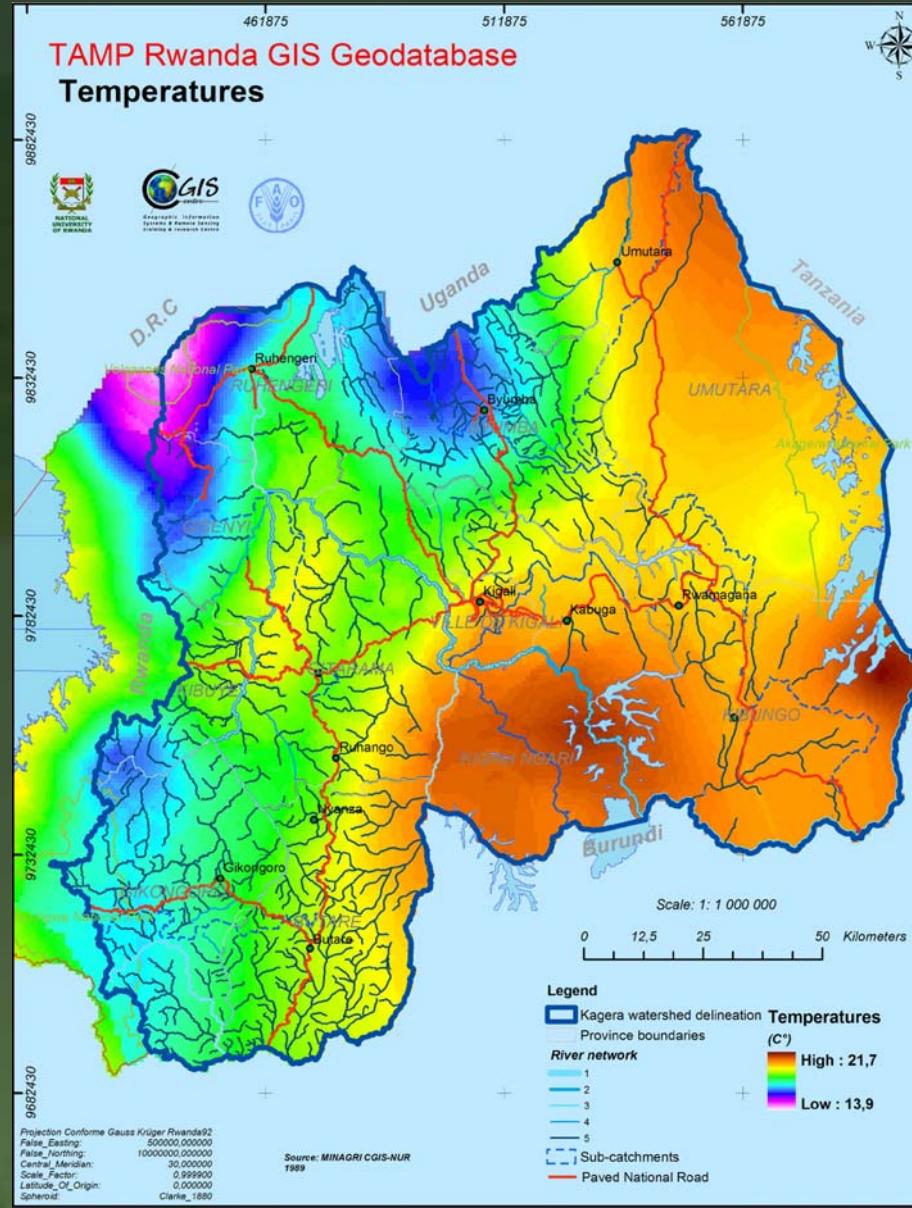

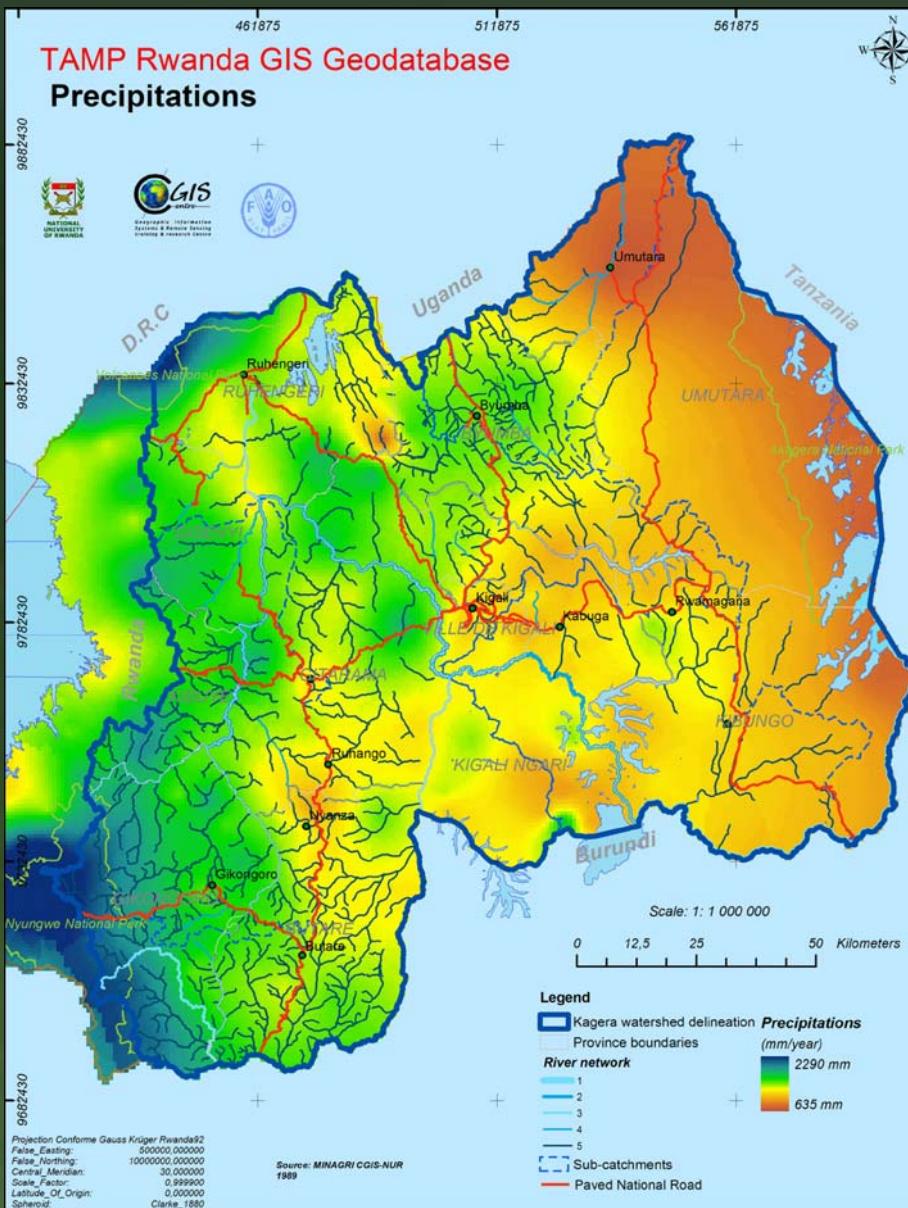

86 on 106 districts

Kagera Basin	Land area sq km	% Land Area
Uganda	5 980	10
Tanzania	20 210	34
Rwanda	20 800	34
Burundi	13 060	22
Total	59 800	100

TAMP baseline maps

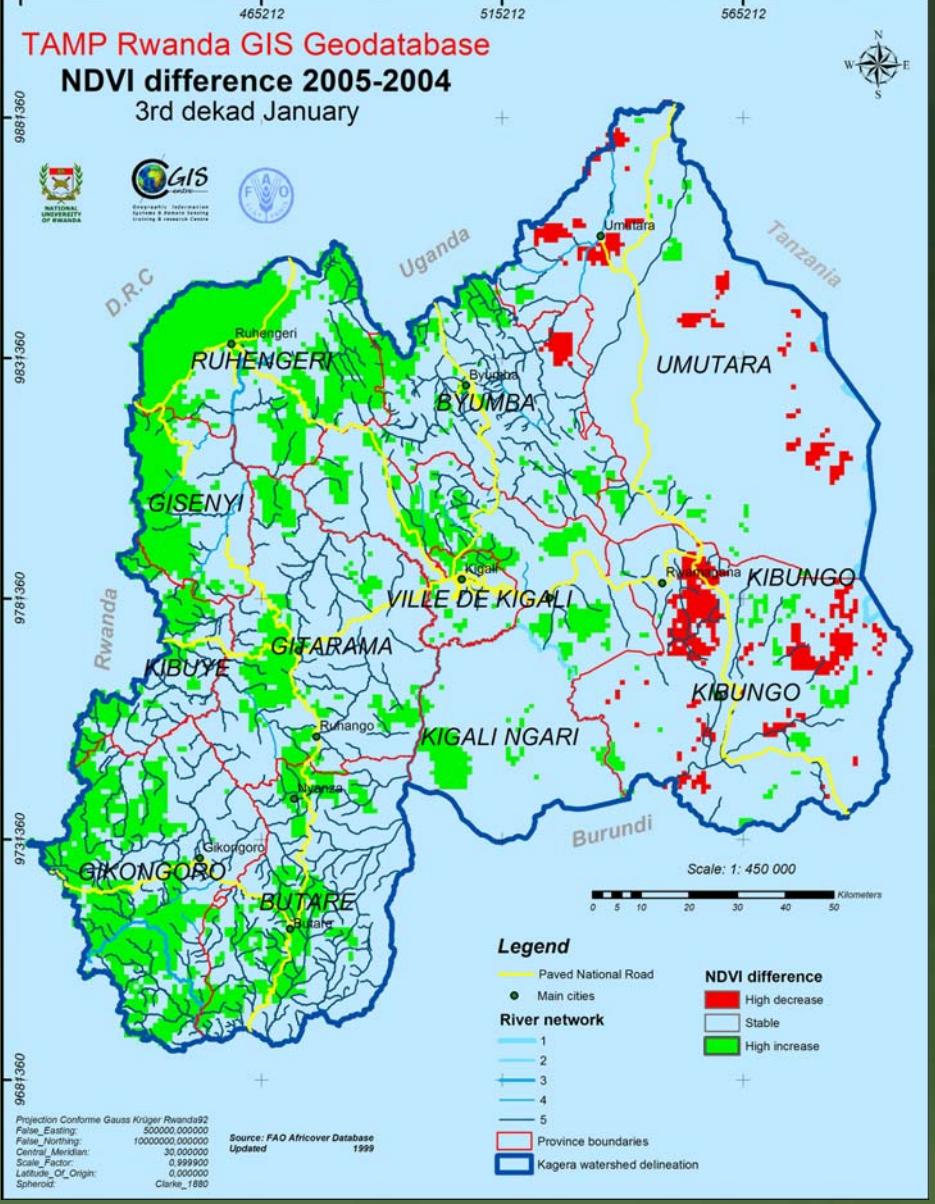

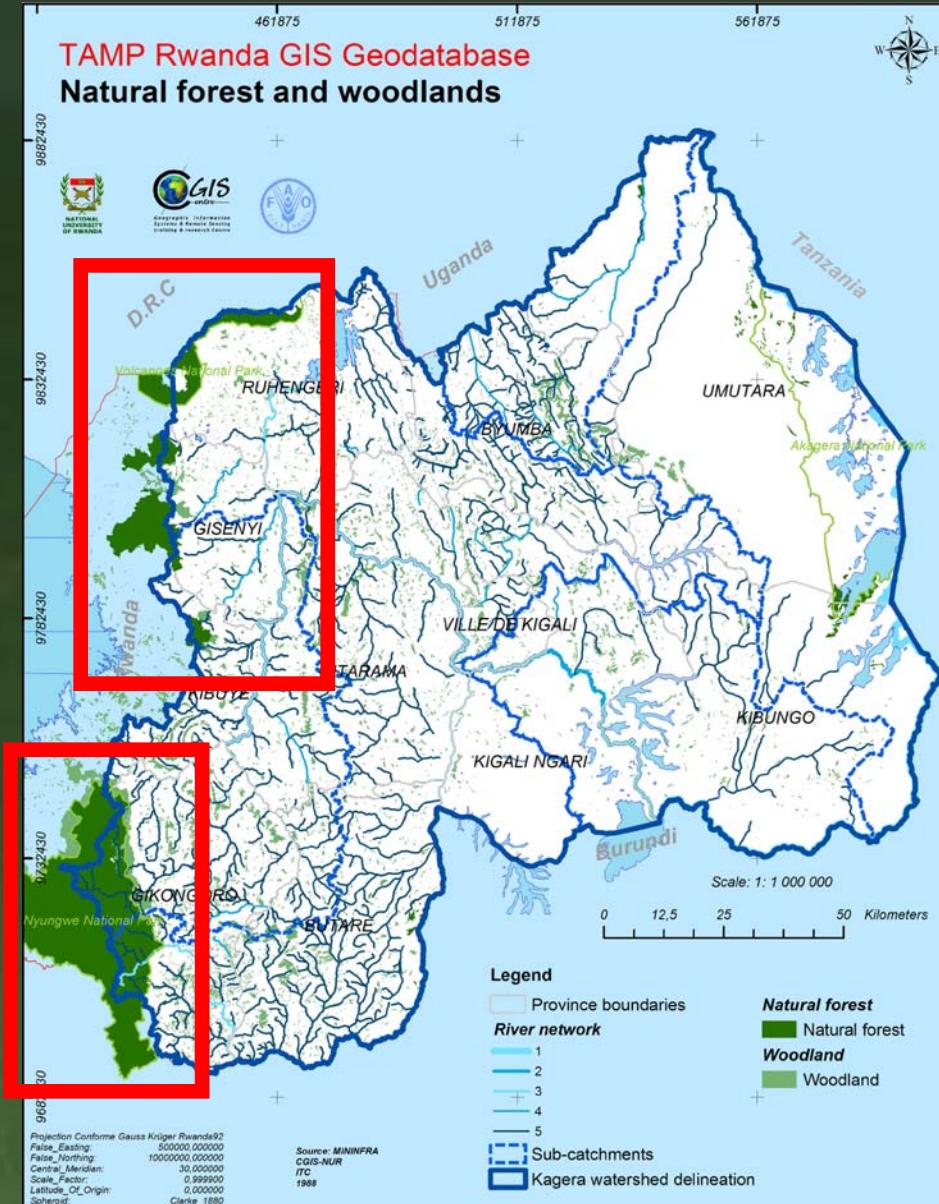

Climate / Meteorology

TAMP baseline maps

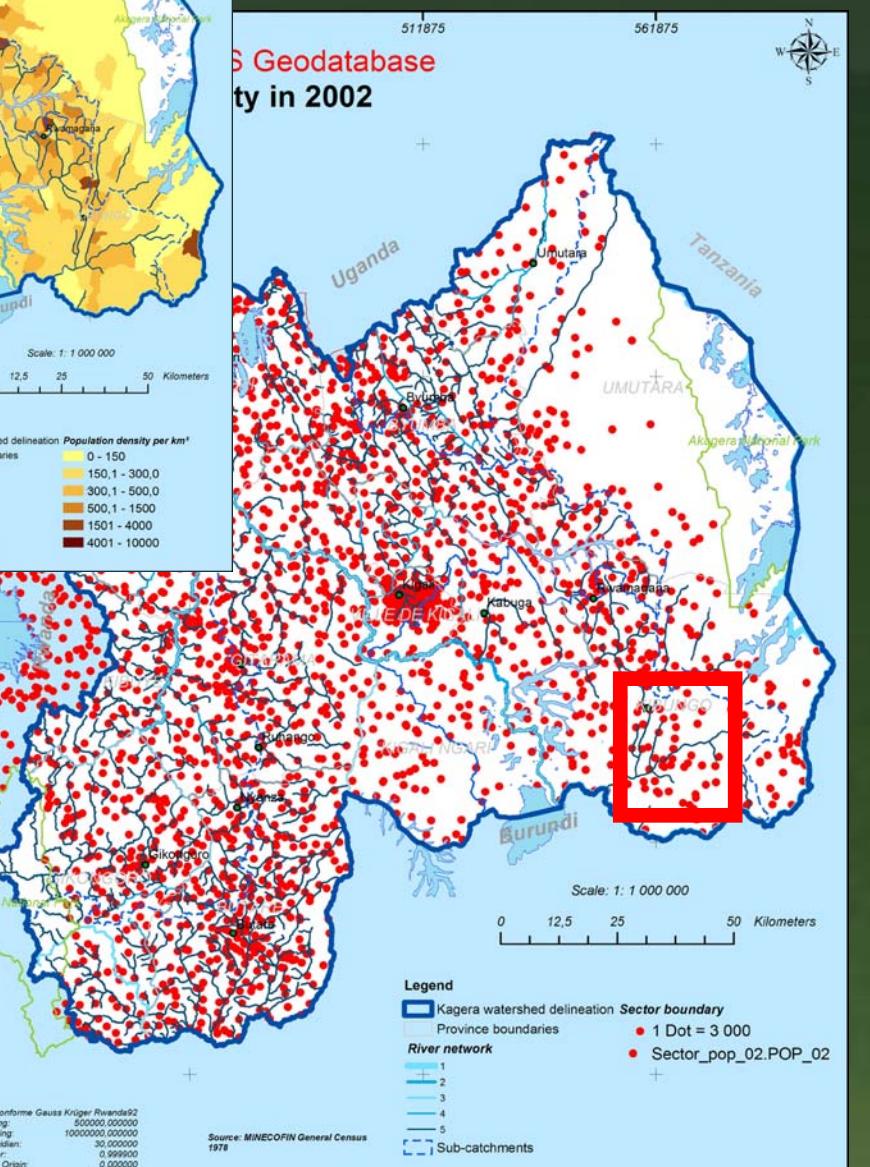

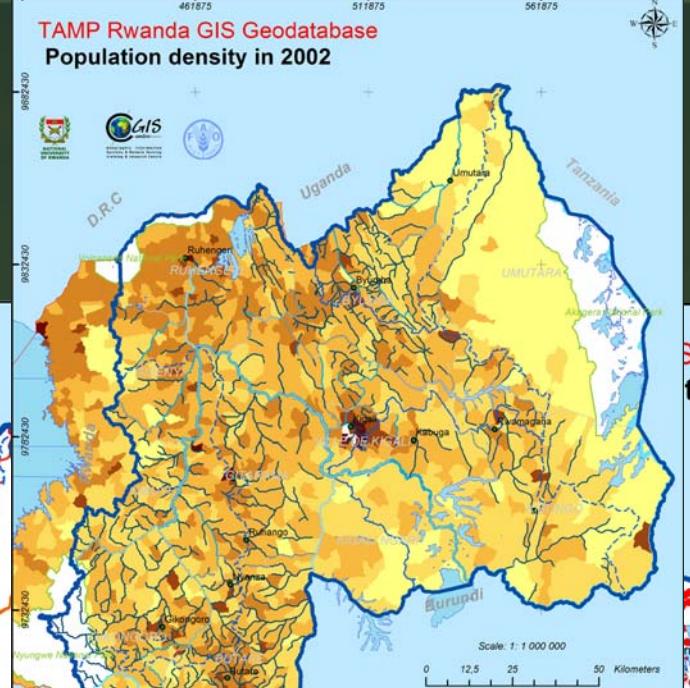

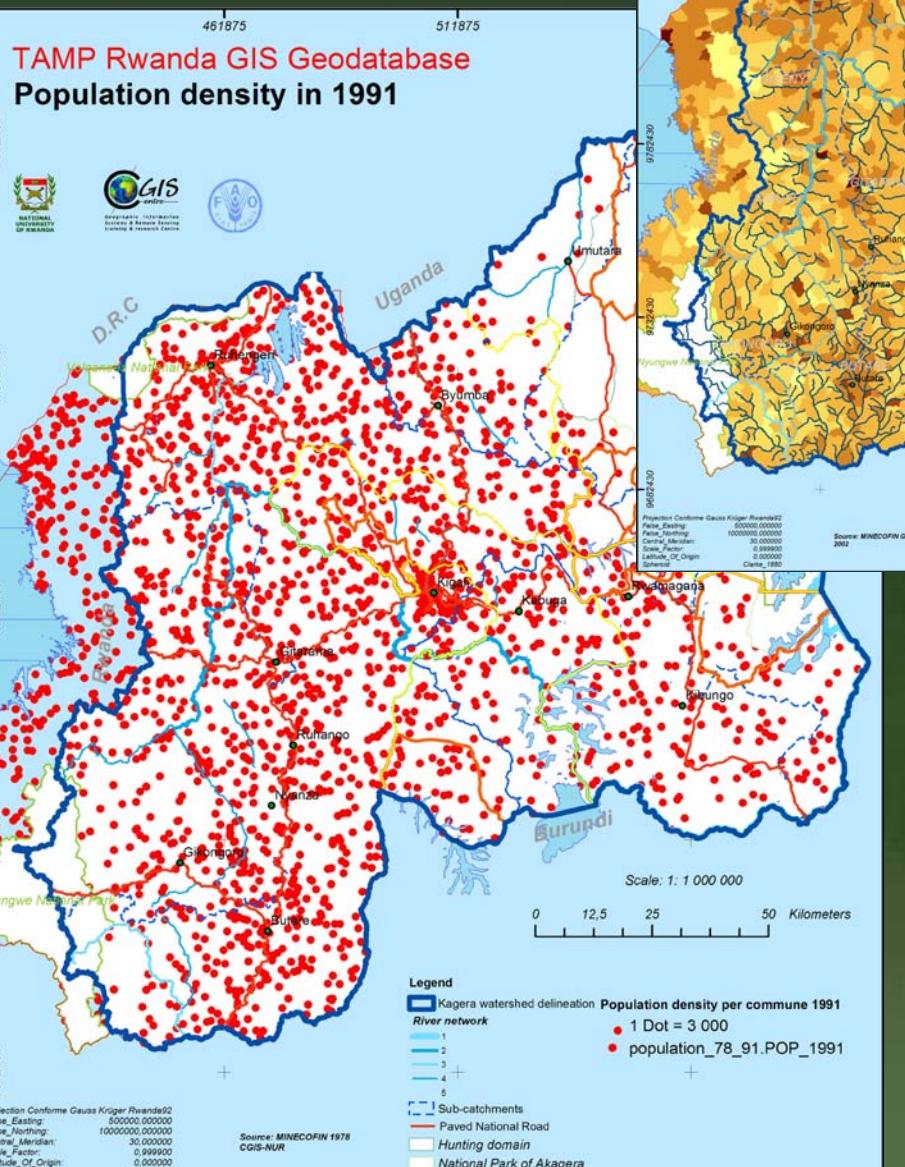

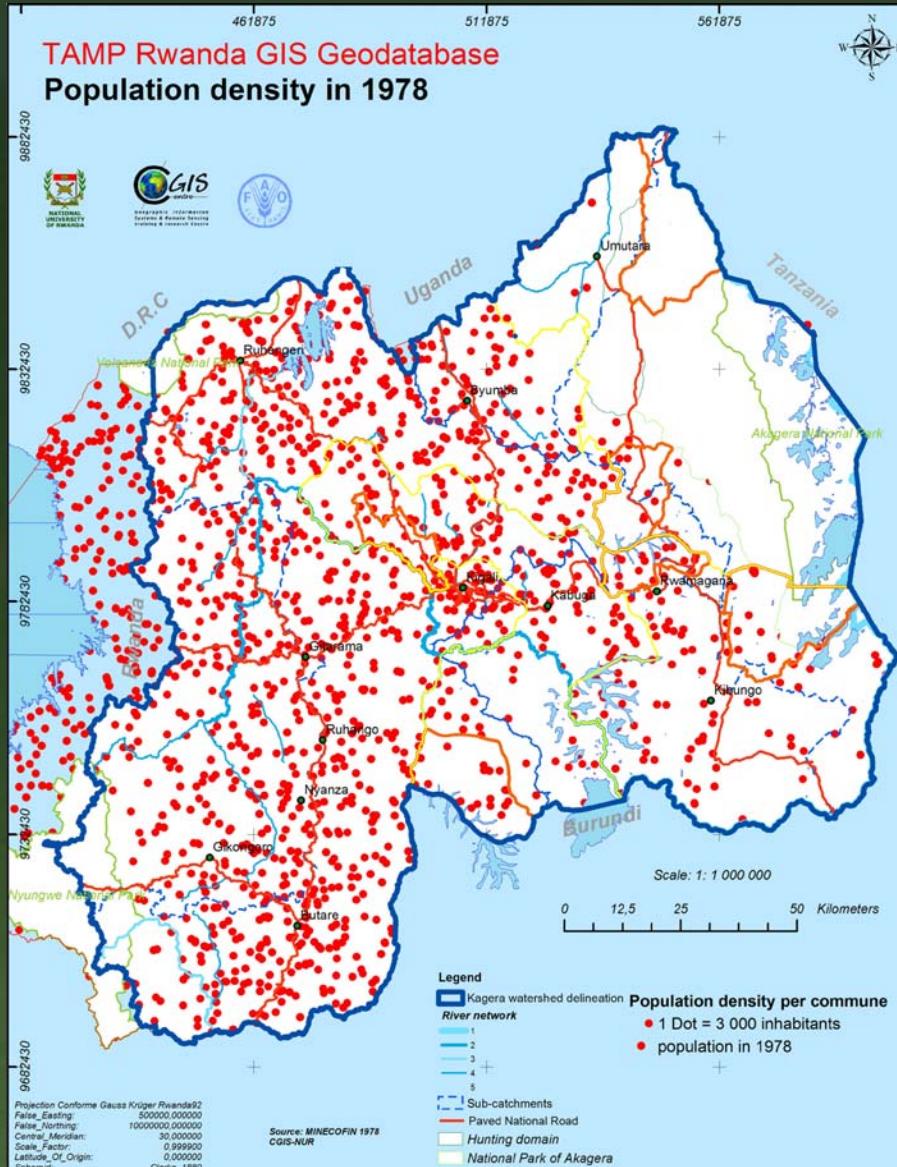

Natural ressources: vegetation

**Vegetation stress:
Food security**

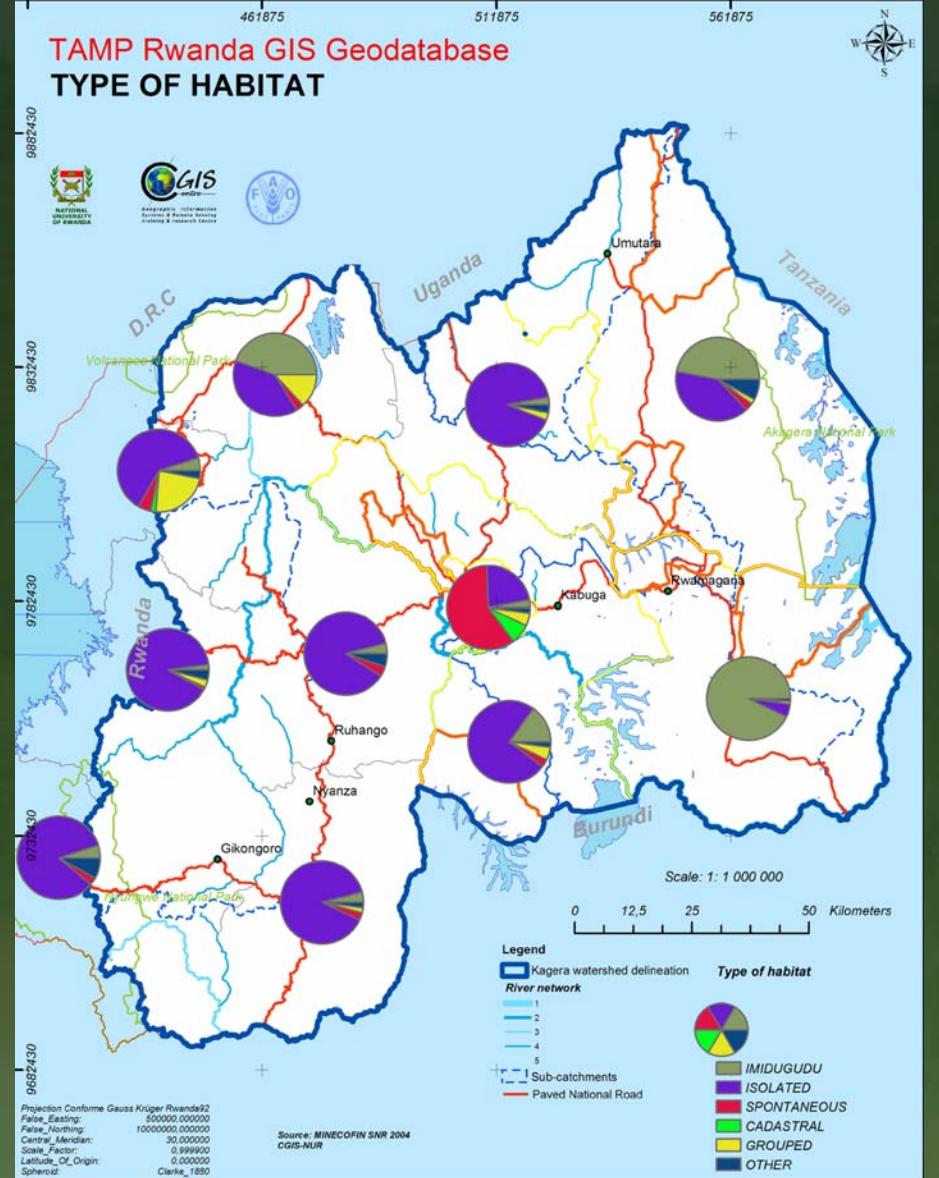

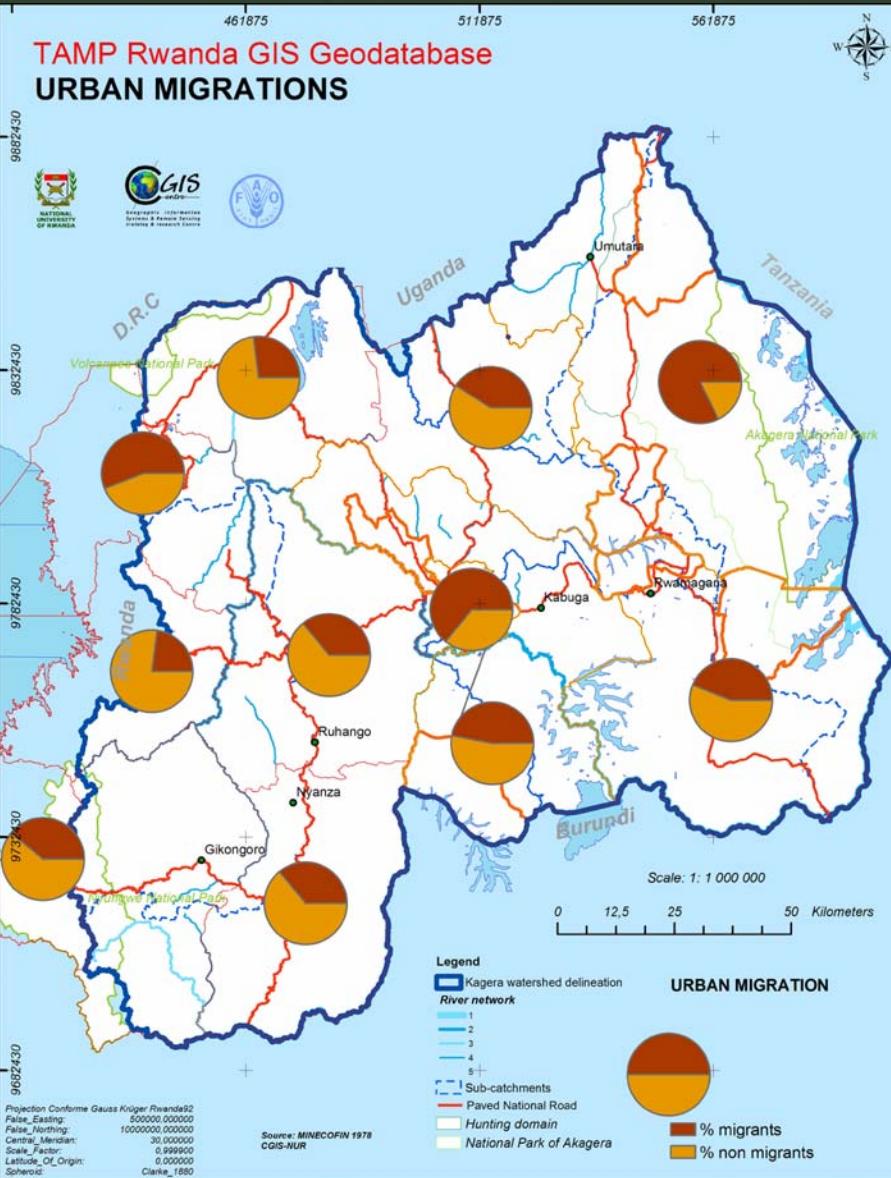

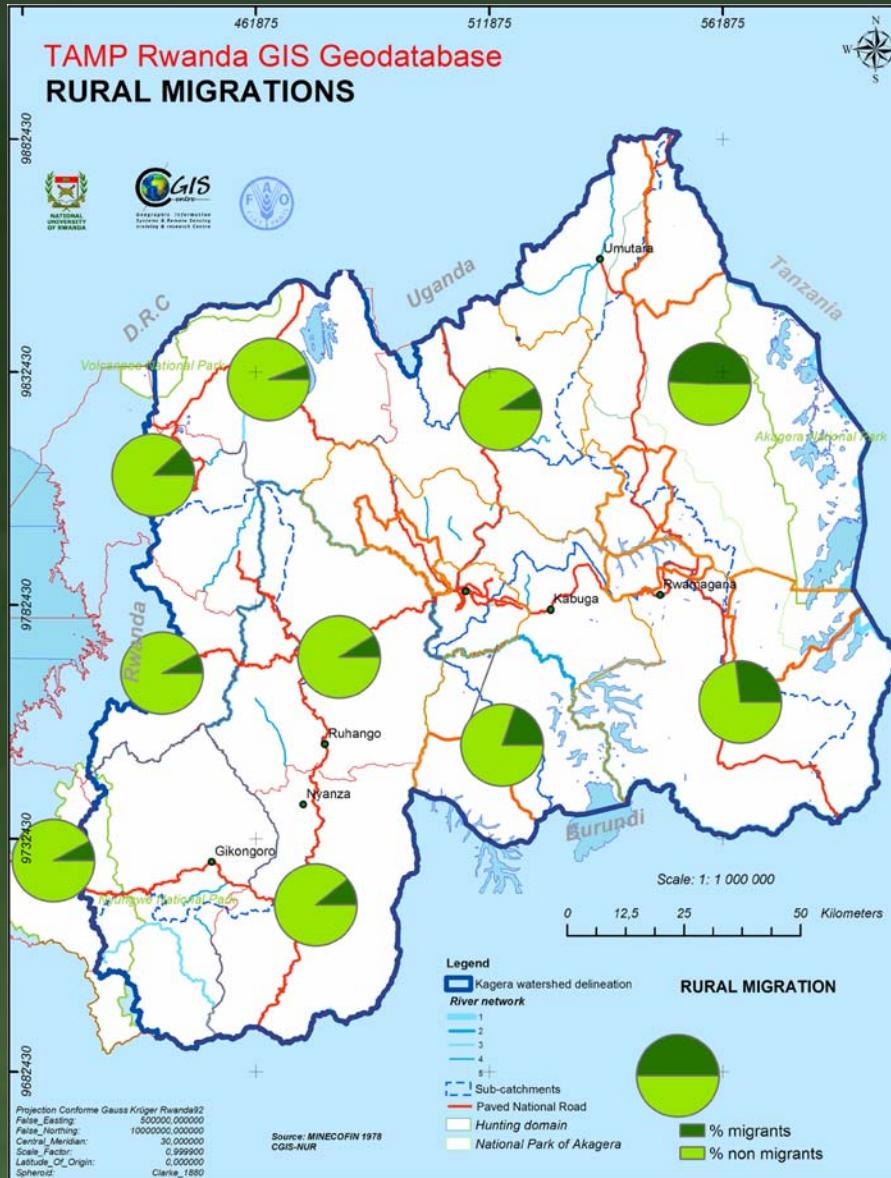

TAMP baseline maps

Population growth : historical data

TAMP baseline maps

Migrations and type of habitat

Focus On

REFRESHER COURSE ON GEO-INFORMATICS FOR HYDROLOGICAL MODELING

This course (3/10/2005 to 14/10/2005) aims at providing better understanding of hydrological processes and equip the participants with up-to-date knowledge and skills on the modelling and prediction of (...)

Agenda

October 2005						
Mon	Tue	Wed	Thu	Fri	Sat	Sun
26	27	28	29	30	1	2
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18	19	20	21	22	23
24	25	26	27	28	29	30
31	1	2	3	4	5	6

Current Projects

- Rwandan Forest Mapping Project
- Kagera Basin GIS Database Project

Training Programs

- BsC in Urban Planning and Land Administration
- Development of Geographic Information Sciences based Education and Research Program at the National University of Rwanda, funded by the NUFFIC NPT projects, hosted at NUR. Objective to build (...)
