

LAND TENURE REGULARISATION – NOVEMBER 2010

- Land Tenure Regularization has expanded to all 30 districts. By the end of November 2010 about 3.2 million parcels had been demarcated, adjudicated and registered - about 41% of the projected 7.9 million parcels in the whole country. The aim is to complete all three Kigali districts and cover at least 50% of each of the other 27 districts by June 2010. The remainder should be accomplished in the financial year ending June 2012.
- The table below gives a picture on progress by district (number of plots done against the projected plots).
