

Support to the Preparation for Community-led Local Development Planning
and Implementation of a Pilot Project in the Livno area (Canton 10)
GCP/BIH/008/HUN

Presentation of implemented measures (2007-2013)

Anetta SZILÁGYI

FAO Regional Office for Europe and Central Asia

Financement

- Co-financed by EAFRD+ Municipality/ Ltd. own budget;
- Postfinancing;
- Programming period 2007–2013.

Modernisation of agricultural holdings (121)

Aim:

- upgrading the technological level of animal husbandry, horticulture and arable farming;
- diversification of the arable-sector-based agriculture by promoting investments in horticulture and the production of biomass;
- ensure the compliance with the relevant requirements of the EU in particular in the field of environmental standards;

Support schemes:

- Machinery for arable farming;
- Constructions for arable farming (grain dryers, cleaners and storehouses);
- Machinery for horticulture;
- Modernization of horticultural plantations;
- Modernization of animal husbandry facilities (manure storage);
- Establishment of perianual plantations (fruit and energy).

Beneficiaries : Farmers with a farm size above 4 ESU*

Intensity of support: On average 40% of the eligible costs (in the case of young farmers 50%)

* European size unit: is a standard gross margin of EUR 1 200 that is used to express the economic size of an agricultural holding or farm. The sum of all such margins derived from activities on a particular farm is its economic size, which is then expressed in European size units (by dividing the total SGM in euro by 1200, thus converting it to ESU)

Basic services for the economy and rural population (321)

Objectives of the measure:

- to improve the accessibility of the basic services in the settlements of the rural areas;
- to extend the range of services, to improve their quality;
- to enhance the population retentivity of the rural areas;
- to improve the quality of life in addition to the continuous sustainability.

Types of the supported services:

- **multiple service centres** by the renovation and technical modernization of mostly unexploited buildings, giving new functions.
- **micro-transport services** to reduce the handicaps of disadvantaged settlements lacking services (small villages, outskirt areas or other internal area and homesteads with populations), to improve life quality, access public services, promote the development of basic social services, extend the functions of settlements, develop community, reach better life quality and to strengthen the attachment of youth to rural areas.

Micro transport service

Type of support:

- purchase of new motor vehicle;
- supplement tools absolutely needed for creating the right conditions of service provision;
- purchase of equipment linked to the service provision, purchase of alarm systems;
- Running costs are not eligible.

Type of support:

- Non-refundable support.

Rate of support:

- 100%.
- maximum amount of support is 40.000 Euro per project.

Beneficiaries:

- local municipalities, associations of local municipalities, non-profit organizations and churches.

Axis III.

Village renewal and development (322)

Objectives of the measure:

- To increase living standards by improving the attractive feature of rural settlements in order to reverse outward migration and negative trends of economic and social conditions and depopulation of the countryside.
- In case of **renovation of buildings** the measure focuses on **inside and outside appearance**, taking into consideration, that outside renovation may executed only together with inside renovation and the inside renovation must targets the establishment or development of a former or new community function.
- IT developments, quality assurance standards.

Beneficiaries:

- Local municipalities and their partnerships, Non Governmental Organisations and churches.

Type of actions supported:

- **Small-scale infrastructure development** projects enhancing the environment and the appearance of the village: parks, rest areas, promenades, and other public areas (except for separate road and sidewalk construction, canalization)
- **External renovation of non-protected buildings** dedicated to community and economic purposes, or playing an important role in the inside and outside appearance of the settlement.
- **Opening new markets** and developing existing ones for improving the sales of local agricultural products, as well as bringing these markets into compliance with applicable regulations.
- Establishing **children's playground**.

Type of cost covered:

- Costs of infrastructural developments,
- Costs of landscaping,
- Costs of procurement and installation of assets and equipment,
- Costs related to the external and internal renovation,
- General costs (including the costs of advisory).

Rate of support: 100%

Thank you for your kind attention!
