

GROUP WORK Risk Exercise

Dr. Mark Hovari
FAO international consultant

Regional Workshop on FMD and other TADs

Yur'evets, Vladimir, Russian Federation
29/11/2017 - 30/11/2017

Risk-based control measures

1. Prevention
 - vaccination
2. early warning
 - Awareness
 - Surveillance
 - Active?
 - Passive?
3. Limit spread
 - Movement controls

1. Add more activities as appropriate under each category
 2. Describe each activity completely
 3. Consider:
 - What works well?
 - Resources required
 - What does not work well? Why?
 - What can be done better? How?

Prevention

- Legal basis
- Vaccination
 - Routine vaccination
 - Target vaccination
 - Vaccine efficiency
- Border control
- BS&S

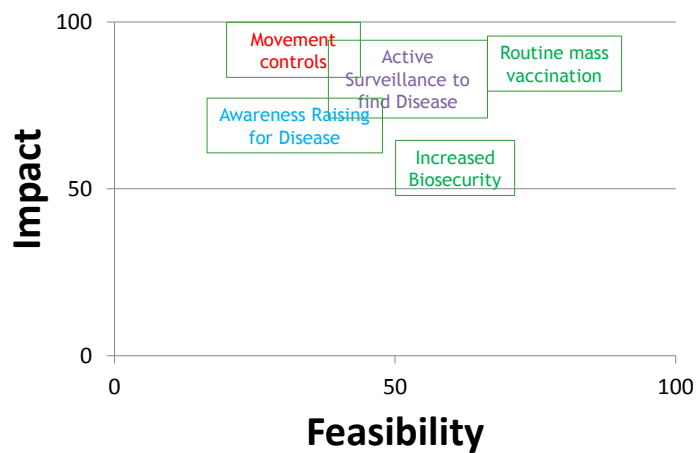

**Participant
Outcomes**

Control Measures

**Outcome
Of
Group
Exercise**

**Mapping
Control
Measures**
