

**National workshop within the project implementation:
“Identifying low carbon and climate resilient pathways for the ruminant sector in
the selected countries of Central Asia”**

4 October, 2019
Bishkek, Kyrgyzstan

Time	Subject	Presenters
9:00-9:15	Welcome remarks, round of introductions and scope of the workshop	FAO-SEC
9:15-9:30	Introduction to the project	FAO-SEC
9:30-10:45	Trends and drivers of ruminant and pasture systems in Central Asia	UCA
10:45-11:00	Refreshment Break	
11:00-12:00	Policy review of the ruminant and pasture systems, its relation to climate change policies	UCA
12:00-12:30	Assessing ruminant GHG emissions through GLEAM	AGAL-FAO
12:30-13:30	Lunch	
13:30-14:00	<i>GLEAM: Importance of characterizing ruminant systems</i>	AGAL-FAO
14:00-15:00	Data gathering: gaps and challenges	UCA
15:00-15:15	Refreshment Break	
15:15-16:45	<i>Interactive session</i> Characterisation and distribution of the ruminant production systems Round table discussion in working groups (WG)	Leader from each WG
16:45-17:45	Carbon sequestration potential in Central Asia	
17:45-18:15	<i>Closing remarks</i>	FAO
