Agri-cultural system

Millennial TRADITION of LIVING CONCEPT

BRDA / COLLIO indicates an UNIQUE and SUCCESSFUL TRANSBORDER LIVING agricultural system, as a result of the necessary cause-effect ADAPTATION to the tough environmental conditions and past social order.

COMMON STORY - economic-social-cultural shocks

COMMON WAY OF LIFE - coexistence

Living Management - Living **BRDA / COLLIO / CUEI**

ONE region / history

1st & 2nd World War

TWO countries

NO natural-agricultural-cultural-historical border

THREE languages

Slovene
Italian
Friulan

BRDA / COLLIO / CUEI

Topography

ALPINE orogeny

5 RIDGES – LARGE SLOPES

Weather & Soil

SUB-Mediterranean

HIGH precipitation –
EROSION

FLYSCH SOIL – „soilpile“
from marl & sandstone

Strong WIND – BORA

LAND management

Adaptation

TERRACES the only
possible arrangement for
food production

Limited environmental & natural resources

From STEEP SLOPES to the TERRACES

Agri – Biodiversity system

Terraces – „mosaic“ small plots

Ecological Niches - habitats

Locals – biodiversity

Terraces managemant

- * traditional MULTI-SPECIES agriculture (various plant species) and architecture;
- * use of LOCAL NATURAL MATERIALS in the agriculture & architecture

BRDA / COLLIO an example of a successful and traditional transnational sustainable agri-community system

Social-cultural coexistence

Socializing (picnics, sports, shows ...)

Events (wine and cherry fairs, wedding...)

Agri-tourism

Thanks for the
attention
*Hvala – Grazie –
Graciis*
