FOOD AND AGRICULTURE ORGANIZATION
OF THE UNITED NATIONS

Bujumbura, April 1995

The conclusions and recommendations given in this and other reports in the Research for the Management of the Fisheries on the Lake Tanganyika Project series are those considered appropriate at the time of preparation. They may be modified in the light of further knowledge gained at subsequent stages of the Project. The designations employed and the presentation of material in this publication do not imply the expression of any opinion on the part of FAO or FINNIDA concerning the legal status of any country, territory, city or area, or concerning the determination of its frontiers or boundaries.

PREFACE

The Research for the Management of the Fisheries on Lake Tanganyika Project (Lake Tanganyika Research) became fully operational in January 1992. It is executed by the Food and Agriculture organization of the United Nations (FAO) and funded by the Finnish International Development Agency (FINNIDA) and the Arab Gulf Programme for United Nations Development Organizations (AGFUND).

This project aims at the determination of the biological basis for fish production on Lake Tanganyika, in order to permit the formulation of a coherent lake-wide fisheries management policy for the four riparian States (Burundi, Tanzania, Zaïre and Zambia).

Particular attention will be also given to the reinforcement of the skills and physical facilities of the fisheries research units in all four beneficiary countries as well as to the build-up of effective coordination mechanisms to ensure full collaboration between the Governments concerned.

GCP/RAF/271/FIN PUBLICATIONS

Publications of LTR are issued in two series:

- * A series of **technical documents (GCP/RAF/271/FIN-TD)** related to meetings, missions and research organized by the project; and

- * A series of **manuals and field guides (GCP/RAF/271/FIN-FM)** related to training and field work activities conducted in the framework of the project.

For both series, reference is further made to the document number **(01)**, and the language in which the document is issued: English **(En)** and/or French **(Fr)**.

For bibliographic purposes this document should be cited as follows:

1. INTRODUCTION

The present catalogue is the updated version of the earlier ones *i.e.* LTR Technical Document No. 3 and LTR Field Manual No. 11 and thus lists all documents acquired by the LTR until the end of April 1995.

While our Documentation Centre's collection focuses mainly on Lake Tanganyika fisheries, it also has a substantial literature on other African lakes, notably Lakes Kivu, Victoria, Edward, George, Kariba and Malawi/Nyasa as well as on other subjects. FAO serial issues and documentation are well represented. Further, the publications of the LTR are included; they are issued in two series *i.e.* Technical Documents and Field Guides and Manuals. All the issues of the LTR Newsletter are also included; our Newsletter is produced quarterly and widely distributed. In all, over 700 titles were added to the last catalogue.

Each of the document entries in the catalogue contains, in addition to normal bibliographic information, the class notation by which the document can be located in the DC. All documents, excluding the FAO serial issues, have been classified using a classification adapted from ASFIS (Aquatic Sciences and Fisheries Information System) Subject Categories. The classification is presented in Annex I. Class 144 for African lakes has been subdivided to accomodate the geographical expansion of the initial collection. A map showing the relevant lakes and basins is presented in Annex II.

Lastly, we take this opportunity to thank to many colleagues, friends and, particularly, to Ms. J. Collins, librarian of FAO's Fisheries Branch Library, for their continuing donations. Thanks to them our Documentation Centre is continue to grow.

1. INTRODUCTION

Le présent catalogue est une version actualisée des anciens catalogues c.-à-d. le Document Technique No 03 et le Manuel et Guides de Terrain No 11 et ainsi présente tous les documents acquis par RLT jusqu'en Avril 1995.

Notre Centre de Documentation contient non seulement des documents relatifs au lac Tanganyika, mais aussi ceux portant sur d'autres lacs africains notamment les lac Kivu, Victoria, Eduard, Georges, Kariba et Malawi/Nyasa ainsi que sur d'autres sujets variés. Les publications de la FAO font également une bonne partie de l'effectif total des documents de notre Centre de Documentation. Les publications de RLT en constituent une autre et se subdivisent en deux séries dont les Documents Techniques et les Manuels et Guides de Terrain. Ce Centre de Documentation contient aussi des Bulletins de RLT publiés trimestriellement et largement distribués par le projet. Dans l'ensemble, plus de 700 titres ont été ajoutés au catalogue précédent.

Chacun des documents entrant dans le catalogue contient, en plus des informations bibliographiques, la notification de classe qui permet la localisation des documents dans le Centre de Documentation (D.C.) Tous les documents, sauf les publications de la FAO, sont classés suivant les catégories de sujets conformes à la méthode de classification d'ASFIS (Aquatic Sciences and Fisheries Information System). La classe 144 qui porte sur les lacs africains a été subdivisée afin de permettre l'expansion géographique de la première collection. Une carte des lacs et bassins est présentée en Annexe II.

Enfin nous profitons de cette occasion pour remercier nos collègues et amis et plus particulièrement Mlle J. Collins, bibliothécaire du Département des Pêches de la FAO pour leurs dons continuels. Grâce à eux notre centre de documentation continue de s'aggrandir.

THE MAJOR RIVER BASINS AND LAKES OF AFRICA
LES PRINCIPAUX BASSINS ET LACS D'AFRIQUE

ANNEX III : 'DATAFILE' DATABASE FILE LISTING

1. 2350. Bassin principal du lac Tanganyika: Rivière Rusizi-Station Gatumba: Pluviométrie moyenne spatiale sur le bassin versant; 1981 à 1990. Bujumbura, Burundi: IGEBU. 1 DC.
2. 2300. Bujumbura (0783)-Aéroport: Moyenne Mensuelle des Températures Moyennes de 1959-1991. Bujumbura, Burundi: IGEBU.
Note: 1 DC, 1 KI, 1 MP.
3. 2310. Bujumbura-Aéroport (0783 m): Hauteur mensuelle des précipitations en millimètres et dixièmes de 1922 à 1993. Bujumbura, Burundi: IGEBU. 1 DC, 1 KI, 1 MP.
4. 2340. Bujumbura-Aéroport: les maximums et minimums annuels du niveau du lac Tanganyika (1929-1992); altitude de la station 770. Bujumbura, Burundi: IGEBU.
Note: 1 DC, 1 KI, 1 MP.
5. 2230. CRSN: Meteorological data at Uvira from 1977 to 1986. Uvira, Zaire: CRSN; 1987. 1 DC.
6. 120. Department of Water, Hydrology Section, Kigoma, Tanzania : Monthly summary of L. Tanganyika water levels, Kigoma, 1952-1991. Kigoma, Tanzania: Department of Water, Hydrology Section; 1991. 1 DC.
7. 110. Directorate of Meteorology, Tanzania : monthly rainfall data, 1908-1989, L. Tanganyika meteostations. Tanzania: Directorate of Meteorology; 1990? 1 DC.
8. 100. Directorate of Meteorology, Tanzania : summary of meteorological observations form No. 316 (Rev. 8/62). Tanzania: Directorate of Meteorology; 1962. 1 DC.
9. 130. Directorate of Meteorology, Kigoma, Tanzania : Kigoma observatory daily meteo data, 1986-1990 : temperature (dry & wet bulb, dew point), cistern level pressure, vapour pressure, relative humidity, cloud amount (hail, thunder, fog, piche), surface wind direction and speed. Kigoma, Tanzania: Directorate of Meteorology; 1991. 1 DC.
10. 50. DOF Zambia : Catch/Effort computer data base sample printout, industrial fishery, Mpulungu, December 1987. Chilanga, Zambia: DOF Zambia; 1988. 1 DC.
11. 40. DOF Zambia : Catch/Effort time series data (1963-1990), L. Tanganyika, Zambia, for the industrial fishery. Chilanga, Zambia: DOF Zambia; 1991. 1 DC.
12. 60. DOF Zambia : Length frequency computer data base sample printout, commercial fishery, Mpulungu, June-July 1987. Chilanga, Zambia: DOF Zambia; 1987. 1 DC.

13. 10. DOF Zambia : results of Catch Assessment Survey: Lake Tanganyika (Zambia), 1977-1990. Chilanga, Zambia: DOF Zambia; 1991? 1 DC.
14. 20. DOF Zambia : sample specimens of fisheries statistical collection forms, Zambia. Chilanga, Zambia: DOF Zambia. 1 DC.
15. 2400. Durée d'insolation (en dixièmes d'heures) et fraction d'insolation (en millièmes) mesurées par différentes stations (Randa, Imbo S.E.M.S., Bujumbura-Aérodrome, Bujumbura-B.C.R., Bujumbura-Kanyosha, Rumonge paroisse, Nyanza-Lac, Musasa plateau) dans la plaine de la Rusizi, plaine citière et bassin de la Malagarazi entre 1951 et 1975. Bujumbura, Burundi: IGEBU. 1 DC, 1 KI, 1 MP.
16. 1880. Fisheries Division, Tanzania : Sample specimens of fisheries statistical collection forms. Dar es Salaam, Tanzania: The United Republic of Tanzania, Ministry of Lands, Natural Resources and Tourism, Fisheries Division. 1 DC.
17. 2280. Hauteur Moyenne Mensuelle du Lac Tanganyika/Station du Port à Bujumbura: Référence : 770.00 m. Bujumbura, Burundi; 1992. 1 DC.
18. 2370. Kigwena mission (0914m): Hauteur mensuelle des précipitations en millimètres et dixièmes; de 1970 à 1992. Burundi: IGEBU. 1 DC.
19. 2240. Lac Tanganyika Station/Resha: Données de mars 1993 à mars 1994. Bujumbura, Burundi: IGEBU; 1994. 1 DC.
20. 2410. Météo: Ecole Belge Bujumbura: Heet weer in Burundi (1-31/03/1995): Magazine du Vlaamse Vrieden Kruig; 1995. 1 DC.
21. 70. Norconsult : Water supply planning, example village (Kagunga) info form, Kigoma Master Plan Document, Volume 3. Oslo, Norway: Norconsult A.S.; 1982? 1 DC.
22. 2380. Nyanza Lac projet (0792m): Hauteur mensuelle des précipitations en millimètres et dixièmes de 1979 à 1991. Burundi: IGEBU. 1 DC.
23. 2390. Rumonge (0785 m): Hauteur mensuelle des précipitations en millimètres et dixièmes de 1928 à 1992. Burundi: IGEBU. 1 DC.
24. 2270. Station Bujumbura - Aéroport : Insolation effective en dixièmes d'heures (I) : de Juillet 1993 à Août 1994. Bujumbura, Burundi: IGEBU; 1994. 1 DC.
25. 2250. Station Bujumbura-Aéroport : Précipitations des totaux mensuels en (mm) RR/mm : Année 1993-1994. Bujumbura, Burundi: IGEBU; 1994. 1 DC.
