

## FAO Fisheries and Aquaculture e-Bulletin

May 2009

 The FAO Fisheries and Aquaculture Department has launched an **online survey** to know what users think about its Web site. Completing the survey should take no more than 5 minutes and strong participation will help us improve the current Web site.

Please click [here to access the survey](#).

Thank you for your collaboration, we look forward to receiving your feedback.

### Web sites

**Regional Aquaculture Information System (RAIS)** -- this new site, created by the FAO Fisheries and Aquaculture Department under the *aegis* of the Regional Commission for Fisheries (RECOFI), aims to facilitate the exchange of aquaculture information in the Gulf area among regional experts and stakeholders and to promote and develop a sustainable aquaculture industry.

**EAF-Nansen** -- promoting the Ecosystem Approach to Fisheries (EAF) in developing countries, the EAF-Nansen site highlights a five-year project to strengthen regional and country efforts to reduce poverty and create favorable conditions for food security through development of sustainable fisheries management regimes -- specifically by applying the EAF principles. The initial focus is on Sub-Saharan Africa. *The EAF-Nansen project is executed by FAO in close collaboration with the Institute of Marine Research (IMR) of Bergen, Norway and funded by the Norwegian Agency for*

*Development Cooperation (Norad).*

**Safety for fishermen** -- Fishing at sea is probably the most dangerous occupation in the world. This gateway provides information and material related to safety for fishermen. The site is hosted by FAO and managed by a selected group of experts contributing information and material on safety at sea in the fisheries sector.

## **Country profiles**

Country profiles of **Lesotho**, **Pakistan** and **Uzbekistan** have recently been updated.

 Consult the latest titles available online at the **Publications** page.
