PMP Framework

Questions on the PMP approach are clarified, identify issues for better communication and acceptance/promote understanding.

Discussion on the framework and basic principles

1. Do the ideas of “ progressive management of aquatic biosecurity” and a “pathway” for improvement meet your expectation of a system that could help to promote improvement?
 - a) Do the 4 stages adequately represent the range in national management of aquatic biosecurity?
 - b) What positives do you see about the system described?
 - c) What concerns do you have that need to be clarified or addressed?
 - d) What difficulties do you foresee to adopt the approach at national level? Is it likely some countries might adopt the approach on a voluntary basis without significant support?
